

# THE VERNON RECORD

Semi-Weekly—Tuesdays and Fridays

VOLUME 13.

VERNON, WILBARGER COUNTY, TEXAS, FRIDAY, JUNE 24, 1921

NUMBER 47

## CHAUTAUQUA JUST CLOSED CONSIDERED ONE OF FINEST

Seven Day Performances Well Attended and Town Is Complimented On Its Enthusiastic Support—Final Days Offer Exceptional Programs—Plans Made for Next Year.

The seven day chautauqua which closed in Vernon Thursday was considered by many who have witnessed past performances of this character to be probably the finest of any of its predecessors. Entertainments from the start, both afternoons and evenings, were well attended and the management of the chautauqua enthusiastically commended local townspeople for their whole-hearted support. Talent appearing here was also profuse in its appreciation of the responsive audiences.

Tuesday the Glenn Wells and Mme. Selivanova entertained in the afternoon and Dr. Ng. Poon Chew and the Glenn Wells Company in the evening. Mme. Selivanova, who is a Russian described her harrowing experiences in that great country when the Bolsheviks began their drive against nobility. Her story was told in a straightforward, entertaining style that held the rapt attention of her audience at all times.

**Wells Company Pleases.**  
The Glenn Wells Company presented delightful little dramas that touched the hearts of all who witnessed them. The best of these was "Atonement," presented in the evening. These artists complement one another beautifully and their offering was very well received.

The sixth day was considered by many chautauqua goers as offering the most attractive programs of all the entertainments. The Philharmonic Orchestra, composed of ten young ladies, entertained the audience in the afternoon in connection with Miss Clarissa Harrold, reader, and in the evening the orchestra performed alone. Both music and readings were of a high order, and those who participated showed excellent training and far more than average ability.

The singing of a quintet of the girls, and a stringed quartet were especially fine offerings on the part of the orchestra. Miss Athel Lindorff, harpist, also played several delightful selections.

Montague Light Opera Singers and Hon. John Temple Graves offered the program for the last day of the chautauqua. The singers rendered numbers of delightful interpretations from musical opera, and their singing was of a high order.

**Plan Association.**  
Those in charge of bringing the chautauqua here next year are planning for a different sort of organization to handle the entertainment. In all probability, a chautauqua association will be formed, the members to be those who signed the guarantee. A concerted effort to sell season tickets will be begun earlier than usual. Those promoting the chautauqua will impress local patrons that the entertainment in no way is being staged by Vernon individuals, but is strictly under the direction of the company bringing it here. According to workers, there often exists the impression that patronage of the chautauqua is a favor to the guarantors of the city and means money in their pockets.

Those who have signed the guarantee for next year are R. D. L. Killough, M. V. McDougal, J. W. Wheatley, O. T. Warlick, O. H. Jackson, J. A. Shaffer, A. P. Howard, Mrs. J. L. Swartwood, Tom Loran, C. A. Kressenburgh, J. H. Pendleton, O. L. Pearson, F. M. Taylor, Steve Mayol, T. L. Rouse, W. N. Stokes, C. S. McCulloch, Buford O. Brown, Gus Ramage, W. C. Baker, B. F. Holcomb, E. P. Robertson, Miss Ida Baker, E. G. Gross, C. K. Smith, E. W. Cobe, L. P. Kramer, Paul Goetze, William Crutchfield, J. T. Glover, C. V. King, J. B. Ross, E. B. Owen, and Mrs. C. J. Farrell.

### Ford Roadster Is Stolen.

A new Ford roadster belonging to W. R. Antle was taken Wednesday night from its parking place before the home of Rupert Sewell on North Malden St., where Mr. Antle rooms. The theft was not discovered until morning. The car was covered by insurance.

## WHEAT MAY YIELD HIGHER THAN WAS FIRST ANTICIPATED

With Threshing Under Way It Is Found Production Is Greater Than Early Estimate—Some Smut Is Found In Grain Cut First—Farmers Marketing Quickly.

Wheat is expected by many closely interested in Wilbarger county farming to yield a higher average this season than was at first expected. With harvest practically over everywhere and threshing well under way, many farmers who were expecting nine bushels to the acre are getting twelve, and others who anticipated twelve are getting fourteen and fifteen.

A little smut has been found in the wheat but on the whole it is threshing out well. Wheat harvested last is in the best condition. Grain that was in the shock was damaged somewhat by the heavy rains and is not in the best of condition.

### Are Marketing Quickly.

There is a marked tendency on the part of Wilbarger county farmers to market their wheat as soon as it is threshed. Several causes contribute to this movement, the chief of which is the tight money market. Many agriculturists are in need of ready cash, and embrace the present market as a means of affording it.

Dampness in the wheat is another reason why farmers wish to dispose of it as quickly as possible. In the event that it is stored in granaries there is the danger of steaming and consequent spoiling.

The present price of wheat is also pretty generally satisfactory in its relation to other farm products. There is some apprehension on the part of farmers lest the scale sink still lower, and many are desirous of taking advantage of the present market before this occurs.

### Yield About Same.

Number one wheat has been marketing this week in the neighborhood of \$1.15 per bushel. Last year the price was twice this amount. Average this year in Wilbarger county has been from fifty to sixty per cent larger than last, but the yield will be considerably smaller per acre. In view of this fact the total production is expected to be only a trifle larger this year. A safe estimate at the present time is that Wilbarger wheat will average close to twelve bushels to the acre.

Results of the hail that occurred in the northern part of the county about two weeks ago are now clearly evident. Wheat is sprouting up around the shocks and mesquite trees are quite bare.

### RING SIDE SEATS JULY 4.

**Pries For Boxing And Wrestling Exhibitions Here Will Range From One Dollar To Fifty Cents.**

Ring side seats will be one of the features of the boxing and wrestling carnival that will be staged July 4 by the Vernon Athletic Club. Accommodations for a considerable number of spectators will be provided in this manner.

Pries have been announced at one dollar for ring side seats, seventy-five cents for half the grand stand, and fifty cents for the remainder of the seating space. A large crowd is expected by the management.

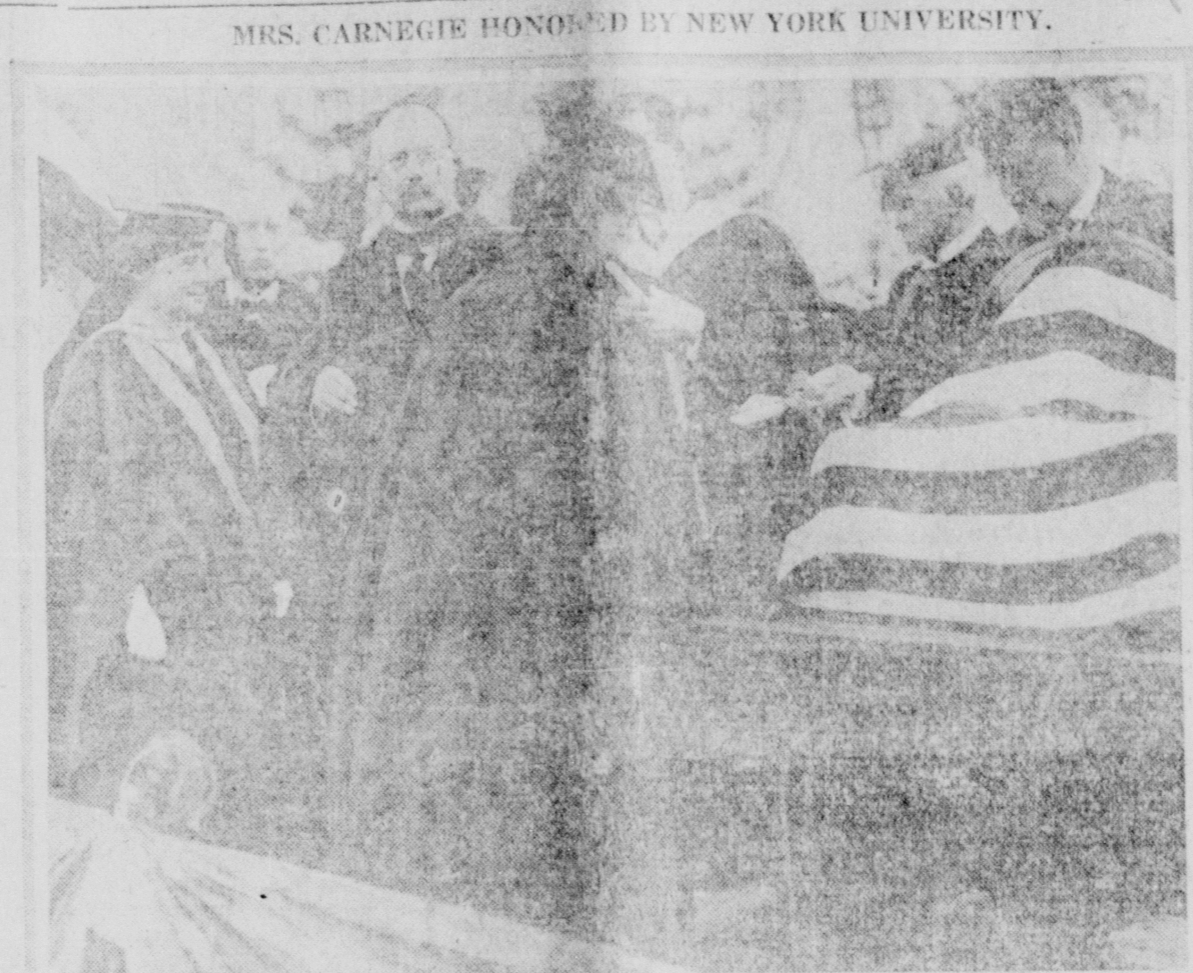

Local lads who will appear in preliminaries, are already hard at work in preparation for their contests. No definite arrangements for a ball game have as yet been made by the local post of the American Legion.

### Electra Doodles Through Vernon.

Doodles of Electra, a fraternal body, passed through Vernon Wednesday morning on their way to Frederick, Okla. for the ceremonial staged in that city Wednesday. The lodge members were held up here for some time while arrangements were made to reach the Red River bridge over which the Frisco travels. A washout of this structure prevented the running of trains and the trip was made that far by automobile. The members were met on the other side of the river by Frederick Doodles.

### Frisc Bridge Washes Out.

Two crippled bents in the Frisco Red River bridge interrupted service on that line out of Vernon Wednesday and Thursday. This bridge has given the railroad company considerable difficulty the past year through washouts.

Mrs. Louise Whitfield Carnegie, widow of Andrew Carnegie receiving the honorary degree of Master of Humane Letters at the New York University commencement exercises. Chancellor Elmer Brown is shown handing the degree to Mrs. Carnegie. Mrs. Finley J. Shepard and Secretary of War Weeks, shown at the left, also received letters.

## URGE CLEANUP TO STOP MOSQUITOES

HEAVY RAINS AID MATERIALLY IN INCREASING NUMBERS OF PEST LOCALLY.

There is now more than ever a need for caution on the part of taxpayers in guarding against breeding places for mosquitoes, according to several local physicians. Heavy rains of the past weeks have encouraged tremendously the multiplication of these insects, and they are especially annoying in Vernon at this time.

Tubs, broken crockery, discarded tin cans and other litter offer the most favorable breeding places for mosquitoes, in the opinion of Dr. H. H. Rhoads, county health officer. Long grass, too, is a favorite haven of the insects.

"If each person will exercise great care," said Dr. Rhoads, "in keeping his premises cleaned thoroughly, mosquitoes will not be nearly so annoying. Mosquito grass is an especially sought after refuge by these pests, and unless it is kept cut short will serve to greatly increase their numbers."

The mosquito in town can be largely eliminated if some of these precautions are observed, according to the county physician.

### MANY FRIENDS ATTEND FUNERAL OF DROWNED GIRL

Funeral services for Miss Agnes Gelhausen were conducted from the family residence on South Main Street Wednesday morning at 10 o'clock with great numbers of the girl's friends in attendance. The principal sermon was preached by Rev. J. A. Birnbaum, and a short talk was also made by Rev. W. T. Rouse. Pall bearers were Messrs. Aubrey Foster, Frank Wood, Sam Napier, Ed Kreis, Walter Teinert, and Ernest Lehman.

Out-of-town relatives and friends in attendance were Mrs. Roy Watkins, Bowie; Mr. and Mrs. W. F. Claer, Wichita Falls; Mr. and Mrs. Ray Morris, Wichita Falls; D. K. Glass, Denison; Mr. and Mrs. E. O. Steinhilber, Electra; Mr. and Mrs. Earl Morris, Harrold; Mr. and Mrs. Corey and Mr. and Mrs. Fred Little of Harrold; Mrs. B. C. Wood and family, Mrs. M. Brock and family, Mr. and Mrs. H. Wood, Rev. and Mrs. R. V. Tooley and family, and Mr. and Mrs. C. Brock all of Tolbert.

### Directors Will Meet Tonight.

A joint meeting of senior and junior directors of the Chamber of Commerce will be held this evening in the rooms of the local commercial organization for the purpose of hearing the report of Everett Haney, representative last week at the national convention of junior members in Dallas. The meeting will be held at 8 o'clock.

### Not To Use Air Dome.

The Central Christian Church will continue to have services in the church building and will not use the air dome on Sunday nights as it was announced a week ago.

## OUSLEY INDORSES COTTON POOL PLAN

SUPPLY NO MORE THAN NEEDED BY MILLS, FORMER A. & M. MAN SAYS.

Dallas, Texas, June 24.—Appealing to the bankers and credit merchants of Texas to save themselves and their farmer debtors from disaster through the annual dumping of the cotton crop, Clarence Ousley, formerly director of extension work of Texas A. & M. College is urging support of the cotton pooling plan of the Farm Bureau Co-operative Cotton Growers' Association.

"The break in cotton prices is fair warning of what may happen to us in marketing the surplus we are carrying over and the new crop we are bringing in," Mr. Ousley says. "The bankers and credit merchants of Texas have it in their power to avert a disaster which looms ominously, for the cotton will not pay the debt due on it. Waiting For Dumping."

"The mills have neither the disposition nor the credit resources to buy within the first three or four months of the season all the cotton they will need for a year, though the surplus and the new crop will not be more than they will need for consumption and reserves. They are calmly waiting for us to commit the annual folly of dumping. Making due allowance for the cotton on hand and the maximum yield upon the present reduced acreage, and estimating the slowest conceivable increase of demand, it is perfectly plain that the supply of 1921-22 will show no ponderable surplus. Hence judicious marketing throughout the cotton year is bound to bring better average prices than hasty marketing within four months."

"It is vain to advise farmers, acting singly, to market gradually. It is hazardous to advise them to hold. Pooling Only Wise Course."

"The only wise course is to pool the cotton, to sell some of it every week—every day—as the mills can take it through nine or ten months, instead of three or four months, and to save \$15 or \$20 a bale heretofore lost to the farmer in waste and graft."

"The business farmers of Texas are trying to organize for merchandising of cotton through a co-operative association which will save waste and insure the average economic value of cotton. They mean to employ sales managers of high skill and unimpeachable character. Their cotton will not be dumped; it will not be held; it will be merchandised, as dry goods and groceries are merchandised, every day, every month, and every year, as merchants and manufacturers reduce debts."

### Will Save Waste.

"The cotton will move through the same transportation channels heretofore used, it will be entitled to the same banking credits at primary markets, at concentration points, at ports, because it will be the same commodity and will be in the hands of men as skilled and as honorable as

## DISTRICTS CALLING SCHOOL ELECTIONS

COMMUNITIES WISH TO MEET OWN NEEDS IF STATE AID FAILS.

A petition has been presented by Elliott school district number 32 requesting the calling of a special school election. This will be for the purpose of submitting to the voters the proposition of increasing the school tax from fifty cents to a limit not to exceed one dollar.

James district 44 has an election pending for the same purpose. Lockett school district 11 has ordered a similar proposition submitted to its tax payers and voters.

These projects are being carried out so that in case there is no State aid forthcoming during the next year, these individual localities will be enabled to care for their needs with their own funds. County Superintendent of Schools J. N. Fulcher is still hopeful that help will be offered by the State. The bill providing such aid was vetoed at the last regular session of the legislature, but Governor Neff has indicated that it will be reconsidered and that the measure will be the second submitted to the called session July 18.

### CHILLICOTHE BEATS VERNON IN GAME LAST WEDNESDAY

Vernon's town baseball team was defeated at the fairgrounds Wednesday afternoon by Chillicothe 3 to 2 in a game characterized by much wrangling. The locals were unable to play concerted ball, and garnered but three hits off the opposing pitcher, McCabe, of Wichita Falls. The visitors hit Vernon pitchers rather freely. There were few errors made on either side.

Delmas and Teal did the honors from the mound for Vernon, and Gilliland caught. Vernon and Chillicothe have each won two games of the four played this year.

### Wheat Moving Slowly.

Wheat is as yet moving slowly, according to advices from the Kell Mill, and no rush of business is expected for several days. Wet weather, it is said, has hindered materially the advancement of harvest and threshing. Some grain is being hauled to the elevators.

any now in the trade.

"This organization will not perform any price miracle; it will not suspend the law of supply and demand it will merely save waste, stop graft and avert the terrible depression of autumnal dumping."

### Must Act Now.

The crisis is just ahead of us; we can pass it safely if we are wise and if we act resolutely. If we falter, if we allow ourselves to drift, I fear that the worst is yet to come.

"I make this final appeal to the bankers and credit merchants of Texas to save themselves and their farmer debtors while they can. It will be too late when the dumping begins, for the momentum will be irresistible."

## BELIEVES CHANGE IN CHINA IS ONE OF AGES' MARVELS

Dr. Ng. Poon Chew Says Transformation From Monarchy To Republic In Land Of Yellow People Never Before Equalled In History—Dwells On Japanese Menace To World.

"I have spoken before audiences representing many of the world's nations, and I have traveled extensively in the countries representing these nationalities, but I have never addressed any people with the extreme pleasure it gives me to talk to an American audience," said Dr. Ng. Poon Chew, the noted Chinese editor and lecturer, in his address at the chautauqua Tuesday night. Dr. Chew complimented Americans on their responsiveness, their generosity, and the feeling they express.

The transformation of China from a monarchy to a republic the editor regards as one of the marvels of the ages. He traced the causes of this change from earliest beginnings and gave to the Chinese people a personality it is safe to assume seldom attributed to them by the outside world.

### Vast Size of China.

The vast area embraced by the United States is not nearly so large as China, Dr. Chew declared. It would require the United States, Mexico, and part of Canada to equal the territory embraced by the Orientals. In this great domain more than four hundred million people live.

The history of China is one of forty-five centuries, the audience was told. The yellow race is tied to the past by a long string of traditions, and breaking away from these is the Herculean task of the nation. China's evolution from the ignorance of the past has come through the efforts of the missionaries, Dr. Chew declared. Today thousands of Chinese boys are coming to the United States to pursue studies in the schools and universities of this country and then return to their native land. The education they are receiving in this country is making them dissatisfied with their former environment, and many are again emigrating or attempting to remodel their home land.

### Wanted Republic.

During the revolution in China, the lecturer said, friends of the revolutionists endeavored to persuade the leaders to model their government after the form of England. The consensus of opinion, however, favored the establishment of a republic like that of the United States and it is this kind of rule that exists in China today.

"I believe that China can work out her own destiny if permitted to do so," Dr. Chew told his audience. "As yet she has had no chance. It will be a long and tedious process."

Comparing China and the United States, the Chinese editor declared that the people of this nation do not realize what a land of milk and honey they live in. Hard times such as exist in the United States at present would be a time overflowing with blessing and riches in China. There are one hundred fifty million people living in the area affected by the drought, and more have died in the last two years than were claimed by death during the great World War. Dr. Chew appealed for aid for these sufferers, pointing out that only three cents a day is necessary to sustain life in one individual.

### People Are Conservative.

The extreme conservatism of the Chinese people was blamed by the lecturer for the slow development of his nation. The change cannot be made all at once or "while you wait," he said, as the old monarchistic ideas are still clung to with a dogged persistency.

The process of Chinese education was explained to Vernon people, and the lecturer stated that the old system has been most strict. Until a short while ago Chinese children started to school at 4:30 in the morning and attended until late in the evening. Their text books were the same as those studied by Confucius many centuries before Christ.

Customs in China are changing now, those present were told. Education is teaching the brotherhood of man and the time is coming when this principle will be universally recognized.

### China Being Recognized.

The Americanization of China is progressing surely, said Dr. Chew, and indications of this can be seen on every hand. The editor mentioned an even-

## J. C. MORRISON DIES THURSDAY WHILE IN DALLAS

Local Oil Man Taken To Hospital Wednesday Following Severe Attack of Stomach Trouble—Was Interested In Oil Acreage and Formerly Manager Of a Gin Here.

J. C. Morrison, for nearly seven years a resident of Vernon, died Thursday morning in the Baptist Sanitarium of Dallas after a critical illness lasting one day. Mr. Morrison was taken from a hotel to the hospital Wednesday following an attack of stomach trouble which ended in his death. He was 47 years old.

J. C. Morrison was manager for two years of the Harris-Irby gin in Vernon and has since been engaged in the oil business. His holdings embraced acreage at Wichita Falls, Graham, Breckenridge, and Iowa Park. Several local men were associated with Mr. Morrison in his oil business.

### Highly Thought Of.

Mr. Morrison came to Vernon six or seven years ago from Oklahoma. He made many friends here and was highly thought of by all who knew him. He was a member of the Odd Fellows' Lodge. Mr. Morrison is survived by his wife, four daughters, and a son. The daughters are Misses Lois, Bernice, Nettie Mae, and Mary Virginia. The son is Roy Morrison.

Funeral services were conducted at 3 o'clock this afternoon from the residence at 412 East Malden St. Rev. S. W. Hayne preached the sermon, and the ceremonies were in charge of the local I. O. O. F.

### SEYMOUR TO STAGE BIG CELEBRATION JULY 4

A two day celebration honoring the official opening of Seymour's sixty-two acre park, bathing pool, and children's playground will be staged in that city July 4 and 5 and elaborate preparations are being made by the Baylor county metropolis to outdo itself in the matter of free barbecue, swimming and high diving, and boxing contests.

Free automobile camping grounds will be provided visitors. The general public is invited to the Seymour entertainment.

ing spent in China several years ago when he was the guest of honor at a gathering of Chinese men and women who had formerly attended schools in this country. All were attired in conventional American evening clothes, he said, and during the entire affair no other language but English was spoken. These present even enjoyed an American dance. One certain indication of American influence, he said, is the spectacle of small Chinese boys chewing American gum.

The Japanese menace was dwelt upon at length by Dr. Ng. Poon Chew who branded the neighbors of his country as the "Germany among nations." Japan is aggressive, he said, and has closely modeled its government after that of Germany under the regime of Prince Bismarck. The present Japanese constitution is closely modeled after that of the old German empire, he said.

Japan has a two-fold policy, the speaker asserted. First, she is gathering gold for the establishment of a tremendous navy; and secondly, she is attempting to transform herself from an insular to a continental power. To do this it will be necessary to absorb China. A defeated Japan, Dr. Chew said, will result from the mass of "broken China" within her.

### Shantung Deal Injustice.

The Shantung deal as arranged by the chautauqua speaker as a great injustice. China contributed fully as much to the World War as did Japan, he said, and should not have been denied this province. He declared that Japan is today responsible for at least eighty per cent of the internal troubles in China just as Germany was responsible for the great outbreak in Russia.

China has great confidence in America, Dr. Chew said in closing. The love of fair play and liberty which characterizes this nation has won the respect of the people beyond the Pacific. China is looking to this country to lead it out of darkness, and to awaken that spirit that will mean new life and new hope for all these millions of people.

## GO TO THEATRE

### At the Pictorium

Today and tomorrow—Constance Talmadge in "Lessons in Love."

In this play, which is adapted from the stage play, "The Man From Toronto," Constance has the role of Lella Calthorpe, a young and winsome helpless whose elderly guardian "conspires" with the family lawyer to marry her to a man she has never seen. Kenneth Harlan, who appeared with her in "Dangerous Business," is again her support. It is a wholesome, human story and, according to reports, is the best Connie has ever done.

Monday—George Walsh in "Dynamite Allen."

The father, Sid Allen, is sent to jail to do reparation for the crime of another man. The son, "Dynamite," played by George Walsh, seeks to avenge the wrong against his father and bring about his vindication. He accomplishes this at the risk of stirring broils and interruptions. They include a café fight from which he rescues the girl whose return to the community has important bearing upon the crime secret; an episode wherein he drives an engine over a divided trestle, and his rescue of his family from the hands of criminals.

### At More's Theatre

Today—Marion Davies in "The Restless Sex."

The story centers around Stephanie Cleland, adopted daughter of a rich New Yorker, who has a great craving for excitement. Her restlessness leads her into a loveless marriage from which a real romance and a turn of fate extricate her.

Saturday—Buck Jones in "The One Man Trail."

This is another of Buck Jones' cowboy pictures, the ninth he has made for William Fox, who discovered him following his trade as a real cowboy and made an actor of him.

Monday—William S. Hart in "The Testing Block."

"Sierra" Bill fights seven men of his band to save Nelly from their embraces. Then under the influence of liquor, he forces her to marry him. She learns that in his heart he is a real man and in making for her a real husband he finds his "testing block." Eva Novak heads the supporting cast.

## IN SOCIETY

### Celebrates Fourth Birthday

Mrs. Luther Webb entertained a number of little folks in honor of her daughter Dorothy's fourth birthday this afternoon at her home on West Paradise street. Lunch was served the guests during the play hours and later in the afternoon they were given ice cream and birthday cake. Those present were Mary Jeanette Bennett, Wiley Bennett, Jr., Margaret Roger, Anna Bailey, Billie Bond, Rosa Mary Crawford, Katherine Dodson, Mary Dodson, James Dodson, Adelle Housels, John Kelly Housels, Cornelia Johnson, Louise Johnson, Josephine Kilough, Sarah King, Warren King, Newel King, Dorothy Fay Lisman, Mary Tom Lisman, Howard Lisman, Jr., Cy Long, Jr., Martha Long, Elizabeth Hicks, Virginia McCaleb, Frances Murchison, Frank Murchison, Jr., Dorothy Piger, Minerva Price Rhoads, Emory Rhoads, Mary Louise Rogers, Tom Summerour, Jr., Catherine Warren, Nora Warren, Helen Thompson and Ros Martin, Jr.

Did you ever see a bag of Armor Mesh which is as fine and light as the finest silk? This Debutante Armor Mesh Bag, the newest addition to Milady's wardrobe, is of such fine texture that it weighs no more than a bag of finest silk.

### RED CROSS HINTS.

#### Clean Homes.

Clean homes often insure health of the members of the family living therein, and too much attention cannot be paid by housemakers and housekeepers to keeping the home spotless, from the standpoint of health as well as personal comfort.

With the opening of summer every home should be thoroughly gone over, all dark corners, all depositories for unused articles should be looked into. Get rid of the superfluous. There is a real trait in human nature to hoard and closets, attics and store places often contain heaps of things that should have gone into the trash pile long ago. They are prolific breeding places for dust and dirt.

Here are a few simple suggestions for every housewife:

If there is a vacant lot adjoining your home see that it is clear of rubbish and that no high weeds are allowed to grow thereon.

Be sure that plenty of light and air is brought into damp cellars.

Keep the windows clean and keep them open as much as possible. Fresh air and sunlight are allies of good health.

See that all rubbish is removed from your back yard, your cellar, or other store rooms.

Clean all carpets and draperies for the summer season.

Scrub the floors and all unvarnished woodwork, using plenty of soap and water.

Co-operate with your neighbors to remove neighborhood nuisances, such as stagnant pools, trash heaps and dumping grounds.

Keep the plumbing in good repair and have leaky roofs mended.

## MAY SHIP BUTTER IN WARM WEATHER BY PARCEL POST

Thoroughly Practical If Proper Conditions Are Maintained—Cleanliness, Suitable Temperatures, Good Packages, and Plenty of Wrappings About the Butter Are Important.

Parcel post shipments of butter are likely to be subjected to conditions, especially during the summer, which may cause deterioration and injure the quality of the butter. It is highly desirable, say specialists of the United States Department of Agriculture, that every possible precaution be taken before shipment. Particularly is this true of farm-made butter, because conditions affecting its quality and condition usually can not be controlled as in creameries. Farm-made butter, however, should be marketed just as satisfactorily as creamery-made butter when it is properly made and prepared for shipment.

It is necessary to maintain proper conditions in the care of the milk and cream and the making of butter if a marketable product is to be produced. Too much importance, it is said, can not be given to maintaining cleanly conditions in the stable and in other places where the milk, cream, or butter are produced or kept, for they absorb odors and spoil very quickly. It is important, too, that these products be kept in a cool place. High temperatures should always be avoided, as they produce a soft, oily condition of the butter which is undesirable.

#### Cleanliness Is Most Important

In manufacturing butter on the farm or in a factory the butter milk must be removed and washed out, and the proper amount of salt must be incorporated evenly. Frequently parcel post shipments of farm butter are unsatisfactory to customers because proper methods were not used in making it, and the quality and condition of the butter thereby injured before it was shipped. For the satisfaction of customers it is important that a uniform quality of butter be produced.

Methods used in preparing butter for parcel post shipping depend largely upon the local conditions and style of package used. To insure delivery in the best possible state, butter, after being packed or printed and placed in cartons, should be chilled or hardened thoroughly before it is shipped.

One of the most satisfactory ways of preparing butter for shipment is in regular 1-pound prints, the standard print measuring 2 1/2 by 2 3/4 by 4 5/8 inches. Every pound print should be neatly wrapped in regular butter parchment or paper. A second thickness of such paper has been found to add materially to the carrying possibility of the butter. Waxed paper may be used for the second wrapping. As a further protection to the print, it should be placed in heavy manilla paraffin cartons, which may be obtained from folding paper-box companies, either plain or printed as a

stock carton or with a special private brand.

#### Packages That Protect Against Heat.

Corrugated fiber-board shipping containers of various sizes may be obtained for shipping 1-pound prints of butter. These boxes or containers practically insulate the butter and furnish much protection against heat. Further protection may be obtained by wrapping the container in stout wrapping paper. The whole should be tied securely with a strong cord. In tying the twine it should be drawn tightly around the package so as to insure its proper carriage. Not infrequently packages are broken open or otherwise damaged because they are insecurely tied. The corrugated containers are also useful for carrying shipments of butter put up in other styles.

Some persons ship butter by parcel post in improvised or homemade containers. Clean, discarded, corrugated paper-board cartons are obtained from the grocer or other merchant at small cost or frequently without any cost at all. It is possible to cut a piece of paper board in such shape and size that when it is folded it will form a satisfactory carton.

Butter shipped in an improvised container should be wrapped in parchment paper and several thicknesses of newspaper and then should be securely tied with string. The package should then be inclosed in a piece of corrugated paper board with the projections so folded as to form a container. The container should then be tied with twine, wrapped in heavy paper, and again securely tied with a strong cord. If butter that is prepared for ship-

ment in this manner is thoroughly chilled before being mailed, it should carry safely even in warm weather if it is not in transit more than 24 to 30 hours.

#### Chill Thoroughly Before Mailing.

Experimental shipments made by the Bureau of Markets were satisfactory where the temperature and distance were not too great. Butter that had softened much in transit from the creamery to the bureau when later shipped to the experiment stations did not arrive in as good condition as that in which the grain had not been previously injured. In general the shipments from Washington were successful when forwarded as far north as Maine and as far west as Michigan and Indiana. Shipments into the South were successful for shorter distances.

The result of these experimental shipments indicates that well-made butter, thoroughly chilled before shipping, when packed in a suitable container, may be marketed satisfactorily by parcel post when extremely high temperatures are not encountered. Under ordinary conditions, where the butter does not melt and a firm or semifirm condition is maintained, the shipping of butter by parcel post generally may be satisfactory. Even though proper safeguards were taken, the shipments made during extremely hot weather frequently arrived in an oily and unsatisfactory condition.

Record classified ads bring results.

## PROGRAM AT MORE'S THEATRE

## QUALITY AND THE COURAGE TO BACK IT UP

True courage is neither blind nor spectacular; true courage is patient, careful, intelligent; it holds to an ideal and lives up to it in the face of danger and difficulty.

We have never catered to our price cutting competitors for we have never carried anything in stock but high class merchandise; for our customers are all of the better class, therefore nothing but quality goods will do on our shelves.

We pride ourselves on having more friends than any other institution of its kind in Vernon.

Thirty-two years ago this business was founded in this city and we believe it is only reasonable to state that our present business is built on nothing else than the reliability of our goods and the fairness of our business policy.

## PARKER-DONGES GROCERY COMPANY

## GREAT WAR WAS GOD'S PUNISHMENT DECLARES ORATOR

**Nations Involved in Conflict  
Were But Atoning For Sins  
Committed, Hon. John Temple  
Graves Tells Audience—Ap-  
peals For Support of Church  
and Government.**

There are many who would tell us to forget the War, said Hon. John Temple Graves in his address before the chautauqua audience yesterday afternoon. They would have us go about our affairs as though the great calamity had never happened.

The cost in lives and treasure, however, prohibits this, said the orator, and we cannot but remember the millions of lives and the billions of dollars spent in the prosecution of the conflict. In view of this tremendous destruction we ask ourselves why God permitted such an occurrence. If He sees the fall of every sparrow, how could He witness the death of millions of His children and not raise His hand to stop proceedings.

**Is A Jealous God.**  
The Georgia speaker attributed as the two great principles of God—justice and mercy. We are ever ignoring one and depending upon the other, he said, and when the one principle is exhibited we clamor for the other. God is a jealous God and He will not permit the disobedience of His teachings. Therefore, said Mr. Graves, there must have been a punitive and corrective purpose in His permission of the World War. He must have intended that out of the tribulation there would be brought hope and gladness and freedom from sin.

What are the sins the nations have committed, the speaker asked? What have they done to bring on the vengeance of God? Mr. Graves considered separately each nation involved in the conflict and pointed out the sins that were sure to bring retribution. Selfishness, greed, Sabbath breaking and all modern transgressions were held up to the attention of the audience. All these nations were guilty, he said, and all were obliged to pay the penalty. In the face of all this evidence, he pointed out, there can be brought no argument against God's work.

**Scores Capital And Labor.**  
Capital and Labor were roundly scored by the Georgia orator. Capital he defined as big business and declar-

ed that it has made American Labor of today a menace. There was a time, said the speaker, when Labor was thoroughly American, but capital has brought anarchism and Bolshevism in to its midst to make it distrusted by the general public. Capital has built warehouses and stored the necessities of life in order to force people to pay exorbitant prices for the same.

On the other hand, Labor rebels against American laws, said Mr. Graves. It is indifferent to the welfare of the people and puts its own interests before all others. The few are making the many suffer. Mr. Graves criticized severely the statement of Samuel Gompers that the "Strike is justifiable because it is the only weapon the unions possess." He inquired whether or not murder would be justifiable under similar circumstances.

**Need Strong Government.**  
We need a strong government for a time of trouble, the Georgia orator declared. It must be a government that is right, that deals justice to all though the heavens fall. We need briefer party platforms, and there can be no better principles than those expressed concisely in "Work or starve; save or suffer; play together or play hell; be an American or get out of the country."

The situation today Mr. Graves likened to Armageddon. We are fighting for the Lord, he said, and we cannot lose. The Church is one of the leading factors in the great fight and its potentiality is becoming more and more recognized.

**Appeals For Support.**  
The Old South orator appealed for support for the Red Cross, fraternal organizations, charities, and chautauquas, giving as his reasons the fact that they represent the best things in American life.

There is peace now in God's heart, he said, and we must heed our way lest we stand again obstructed as before with a great war. Great good is coming again and there is much optimism due the future. The President of the United States is deserving of our hearty support, said Mr. Graves. Upon him rests the responsibility for much of the future happiness of American people; he is trying to lead the nations of the world in the paths of peace, and furthermore, he has shown himself to have at heart the interests of the Southland.

**Money, Money, Money.**  
We have an endless chain of money to lend on farms, in Wilbarger, Foard, Hardeman, and other Western Texas counties. Long time, and at rates as low as can be had anywhere.  
101-lfe T. P. LISMAN, & SON.

## WHEAT IS MOVING TO MARKET FAST

**YIELD AND PRICE IS BETTER  
THAN MANY FARMERS HAD  
ANTICIPATED.**

While one would exaggerate the facts to say that you can stand at the F. W. & D. C. depot and see a continual string of wagons loaded down with wheat—yet, the wagons are coming rapidly; fast enough, in fact, to load five cars yesterday. That quantity represents nearly six thousand bushels, or about eighty wagon loads.

Five carloads of wheat were likewise shipped from Harrold yesterday, according to Little & Company, local elevator men. Oklahoma is in the lead, with seven cars loaded Thursday.

The yield seems to run reasonably uniform in different parts of the country. That is, reports indicate an average of twelve to fourteen bushels to an acre. The highest yield reported is twenty-six bushels.

Hugh J. King of Oklahoma reports an average of a little more than fourteen bushels for his entire crop.

The price being paid is \$1.15 a bushel, which is better than many expected thirty days ago. Reports from Chicago indicate an advance of 1c to 2 1/2c at the close of yesterday's market.

### Notice To Taxpayers.

The Commissioners Court of Wilbarger County, Texas will convene at the Court House in Vernon, Texas, on Monday and Tuesday, June 27 and 28, 1921, as a Board of Equalization to equalize the taxes for the year 1921, and this is to notify you to appear before said Court on said dates to show cause, if any you have, why the valuation of your property should not be raised.  
VERNA LUCKY,  
County Clerk, Wilbarger County, Tex.  
44-lfe

Mrs. W. C. Cawood, who has been visiting her daughter, Mrs. R. D. L. Killough, for the last two weeks, left yesterday for Memphis, Tenn., to visit her son, S. T. Cawood. From there she will return to her home in Danville, Ill.

63-lfe

Rev. S. W. Hayne returned today from Dallas, where he has been since Monday, attending lectures in the Summer School of Theology of Southern Methodist University.

### WANT TOURISTS SENT OVER COLORADO-TO-GULF HIGHWAY

A communication addressed to all Chambers of Commerce has come to the local body from the Panhandle section of the State requesting that tourists be not misinformed on the condition of roads between Childress and Amarillo. The letter states that some tourists out of Childress are being routed over the Dallas-Camadian-Denver route much to the disapproval of Amarillo. The latter city has threatened to retaliate by sending automobilists headed this way over the south plains route.

The Colorado-to-Gulf highway is said to be in good shape, and easily passable.

O—U Money. We have plenty to loan on improved farms. Davis & Summerour.  
87-lfe

WANTED—Clean cotton rags at The Record Office.

### Dance At Elk Club Rooms.

An informal dance was held Wednesday night in the Elk club rooms and was well attended. Music was furnished by an out-of-town orchestra. Guests danced from about 9:30 until 1 o'clock.

Mrs. Eunice Wilson and children and Mr. and Mrs. Robert Boyle returned this morning from a visit in Mineral Wells.

See the Trublpruf tires at Lutz & Schmoker's. Corner Texas and Fannin.

THE AMERICAN PRESS ASSOCIATION

Vernon, Texas, Friday, June 24, 1921.

## SEE TEXAS FIRST.

Fifty thousand Texas vacationists  
spend annually \$8,000,000 or more of  
Texas money at out-of-state resorts, ac-  
cording to figures of the Texas Cham-  
ber of Commerce publicity department,  
which propounds the following ques-  
tions to such seekers of far away  
places of recreation:

Do you want salt water swimming  
and fishing?

Then remember that Texas has the  
third longest coast line of any state  
in the union; that it is indented with  
bays from the Rio Grande to the Sa-  
line affording protected fishing  
grounds for the amateur sailor who  
would spend his days in a "cat rig"  
or motor boat. Further that it is  
one of the best fishing areas in North  
America and has unexcelled bathing  
beaches.

## Want altitude

Then Texas has a whole plateau  
which is racially as high and as  
beautiful as the Yellow Stone Park.  
The Chambers of Commerce of the  
Trans-Pecos region have started a  
movement for a state park in that sec-  
tion of the country, and have already  
made provisions to take care of tour-  
ists in the Davis mountains and sur-  
rounding country.

Want a high dry bracing atmos-  
phere?

Texas has more of it than Colorado.  
Want to spend your days on a crys-  
tal clear stream with red and line?

Then why go to Glenwood Springs  
while the beautiful Pedernales, Comal  
and other streams flow through Texas.

## Want mineral waters?

Then Marlin and Mineral Wells are  
the equal of Carlsbad.

Want to camp on the shores of a  
lake within easy motoring distance of  
theaters and good hotels?

Then there are lakes at Wichita  
Falls, San Antonio, Fort Worth, Aus-  
tin and a number of other cities of the  
state which offer unexcelled advan-  
tages for fishing, boating and swim-  
ming, while keeping the vacationist  
within motoring distance of a city's  
advantages.

Texas has everything for the pleas-  
ure-seekers but these resources need  
advertising. A "See Texas First"  
sentiment, however, is being created  
throughout the state through commer-  
cial organizations and newspapers, and  
much saving of Texas money for Texas  
can be looked for.

## THE ZONE POSTAL RATE.

Representative Mondell has, or will,  
introduce into Congress a bill repeal-  
ing the Zone Law. Only a few years  
ago such a proposal would have met  
with the hearty support of a great ma-  
jority of folk living in the rural dis-  
tricts. It will always get the most  
active backing of magazine publishers,  
mail order houses, and others living  
in the cities who are anxious to bring  
into their coffers the shekles of the  
multitude.

The Zone Law provides a graduated  
rate of postage for second class mail.  
There is a distinction, too, between  
the news and advertising sections of  
magazines, the charge for the latter

news sections.

There are two reasons for this. In  
the first place second class mail was  
being transported at a glaring loss.  
Efficiency in the Postoffice suggested  
that some plan be evolved for making  
those benefitted pay at least more  
nearly the cost of the service they got.  
In the second place, publications in  
New England and elsewhere in the  
United States that were being circu-  
lated for 50c and even 25c a year evi-  
denced the fact that their advertising  
sections might well be taxed somewhat  
more than a penny a pound for trans-  
portation from Maine to Texas, or from  
New York to San Francisco.

Naturally these publications howled.  
A rich source of revenue was being  
cut off. What was, in effect, a gov-  
ernment subsidy had been removed.  
And they took up the fight by suggest-  
ing to local publishers and others that  
the Zone Law was just another bit of  
red tape as a result of which nobody  
was benefitted.

Either there must be a zone law, or  
the second class rate must be material-  
ly increased. To the writer it seems  
fair that if a New York advertiser  
wants to get his wares before Vernon  
people he should pay enough for the  
advertising to cover the cost of getting  
it to Vernon. Surely Vernon people,  
and people all over the United States  
should not be taxed to pay for carry-  
ing his advertisement.

The Zone Law has helped the local  
newspaper, just as it has helped the  
local merchant. It has helped build  
the community by helping build local  
institutions, and has saved every man  
and woman in the community from a  
higher tax for their reading matter.  
These are some of the reasons why  
The Record is for the Zone Law. If  
you are for it write your Congressman  
to that effect.

## A SPIRIT OF OPTIMISM.

"Panhandle Bankers predict pros-  
perity on greater scale" is the head-  
ing of a communication from Lubbock,  
where the Panhandle bankers are in  
session. They base this statement on  
the bumper yield of wheat which is  
practically assured the Plains country.

The same word comes from Dallas,  
where the statement is based upon pur-  
chases by retail dealers over the state.  
Similar word comes, too from Kansas  
City, from Chicago, from New York  
City. Business seems to be picking up.

Money is becoming more plentiful.  
Of larger importance, however, than  
that the price being offered for wheat  
is higher than many anticipated, is  
the fact that debts are being paid, and  
that many of the farmers will have  
some money out of the present wheat  
crop which represents actual saving  
to them—saving for work they have  
done.

Willbarger county is unusually fortu-  
nate. Recent rains have damaged our  
crops perhaps less than has been the  
case in most counties, the yield is bet-  
ter than was expected, and—most im-  
portant of all—a sentiment of opti-  
mism pervades the people; not blind  
optimism, but a determination to go  
forward and a faith that we can bring  
everything out right. Good cheer,  
hard work, and thorough co-operation  
will make all of us prosperous again.

## Thompson Community

Thompson, June 23.—(By special  
correspondence.)—Bill Crites of Gran-  
bury, Texas, is here visiting his broth-  
ers, Messrs. Arthur and O. P. Crites  
and family.

Miss Lucile Rainwater and her  
brother, Roscoe of Vernon are visiting  
relatives of this community.

Lucian Sellers of Tolbert visited his  
uncle, T. M. Dennis and family Sun-  
day.

A fruit supper was given at the  
home of Mr. and Mrs. A. F. Gaston  
Saturday night.

Miss Gracie Cheatham of near Chilli-  
cothe has been visiting Miss Alverda  
and Leora Cheatham of this commu-  
nity.

Lewis Sherman is ill with Typhoid  
fever.

## Oklahoma Club To Meet.

The Oklahoma Home Improvement  
Club will meet at 2 o'clock Tuesday  
afternoon at the home of Mrs. Logan  
Creager.

Mrs. Fred Halsel and Mrs. Lawrence  
Smith of Fort Worth are in Vernon  
today.

See us for money on farms. Davis  
87-ttc

## Foster's Weather Bulletin.

Washington, D. C., June 24, 1921.

Near June 25 the northern Rockies  
and all the northern parts of the conti-  
nent west of meridian 90 will be cov-  
ered by a great warm wave moving  
southward. When west of the great  
lakes near June 26 the center of this  
great wave of warm air will turn  
southeastward and, in a few days, will  
cover all the cotton States and south-  
ern Rockies east of the Mississippi. It  
will then turn northeastward and by  
June 29 will cover all the Atlantic  
States.

A radical weather change will fall  
in behind that great warm wave and  
nearly all kinds of Summer weather  
will march over the wide swath made  
by the previous warm wave. You  
should have a care about that storm;  
it looks ugly on my June weather  
chart, but I regret that I cannot tell  
you exactly the kind of a storm it will  
be nor the exact spot where it will  
strike hardest. I repeatedly told you  
that the greatest storms of the Sum-  
mer would strike east of Rockies ear-  
ly in June. That set of storms was so  
great that three tornadoes resulted.  
One of these tornadoes was called a  
cloud burst which caused the immense  
loss of life and property near Pueblo.  
The latter was so great that little  
damage resulted to eastern sections.  
The coming storm will not be so great  
but it will be dangerous and some-  
where along the wide path of the early  
June storms.

It is time for our race to war no  
more and devote the time and money  
to the war god in studying Na-  
ture's laws; then we could save all  
these millions of lives now destroyed  
by the elements, because then we could  
give positive advice when and where  
to run to shelter. Watch for those  
dangerous storms during the week  
entering on June 28.

Next storm period will occur dur-  
ing week entering on July 5. It is  
not expected to be so severe as the  
two great storm periods in June but  
you should not get careless about it.  
The storms destroy more lives and  
property than war; principally because  
people do not hide from the storms be-  
hind breastworks. The warm wave of  
this July storm will cross meridian 90,  
west of the great lakes, and its gen-  
eral path eastward will pass near or  
a little south of the great lakes not  
far from July 5. I expect the most  
dangerous storms near that date and  
along that path.

Just now the markets are in a  
chaotic condition, particularly for  
grain and cotton. The grain markets  
are almost wiped out. But do not be  
discouraged; there is a rift in the  
clouds and this probably is the darkest  
hour just before the dawn. A great  
battle is on between the Chicago board  
of trade and the farmers. As I see  
it this is the beginning of the end.  
Agriculture has sent forth the tones  
of its liberty bell. Foreseeing this I  
advised those who could not hold a  
month or more to sell their grain and  
cotton. Now I advise all who can to  
wait on the markets and put their  
time in on their crops. Everything  
comes to those who work and wait.  
Dealers who are friends of my work  
are advised to go slow or wait till they  
hear from me. The depression storm  
is nearly over.

June 25 a hurricane will organize  
near west coast of Africa; will reach  
Gulf of Mexico about July 1. Particu-  
lars in next Bulletin.

For auto, truck and tractor repair-  
ing of all kinds see Jimmie Henderson  
at Creath and Kerr's Hupmobile Sales  
and Service, 408 N. Main Street.  
47-2tc Fri.

## HILL CREST CLUB TO BE FORMALLY OPENED JULY 1

Preparations Are Under Way For Reception In Afternoon and Dance In Evening—Members Will Invite Many Outsiders—Attractive Program Arranged By Committee.

Friday, July 1, will mark the formal dedication of Hill Crest Country Club and preparations are under way for a reception beginning at 4 o'clock in the afternoon, and a dance in the evening. Members have been granted the privilege of inviting numbers of their friends to both occasions and a large number of guests are expected.

In the afternoon a program of entertainment will be observed. Most of this will be musical in character. Mrs. John Brown and Mrs. W. N. Stokes will offer a violin and piano duet; Mrs. E. C. Christian will render a vocal solo; Mrs. C. J. Farrell will give a reading; Mrs. Wallace Huggins will render a piano solo; Miss Geraldine Parker will give a reading; Miss Edith McCarroll will play a piano solo; Edwin Lisman will sing a solo; and there will be a song by Miss Mildred Young.

### Will Decorate House.

The house will be profusely decorated in flowers. The house party will be made up of Mesdames W. O. Anderson, L. G. Hawkins, B. O. Brown, L. W. Campbell, J. E. Lutz, John Williams, and C. S. McColloch in the receiving line; Mesdames W. M. Schindler, Basil King, Tom Klüg, and B. D. Flanken will preside at the punch bowls, and Mrs. Joe Parker and Y. G. Babasin will direct the guests who enter the house.

A committee will be in each of the first floor rooms of the new club house for the purpose of directing guests and pointing out attractive features of the building. In the dining room will be Mesdames G. W. Backus, J. A. Dixon, and H. K. Greever; in the ladies' parlor Mesdames D. H. Henry, Wheeler Lundy, and Charles Ladd. In the kitchen will be Mesdames Homer Rogers, Wylie Bennett, and A. C. Rayzor.

### Dance In Evening.

In the evening an informal dance will be conducted in the new club house, and music will be furnished by a local orchestra. The affair will begin at 9 o'clock. Punch will be served those in attendance. The entertainment committee consisting of Mesdames Luther Webb, Lloyd Sigler, Hub Colley, and Arthur Vernon will be assisted in receiving in the evening by Mesdames E. P. Hicks, Della Housells, Myatt Napier, L. E. Piper, W. K. Long, Dan Bond, and J. E. Dodson, Jr.

The new Hill Crest club house is considered one of the finest in this section of the State. Its location is especially favorable due to the natural setting provided at Condon Springs for a country club. The house is as yet unfurnished, although a beautiful Baldwin grand piano and Columbia talking machine are in possession of the club.

### BLAIR HONORED AT MEETING

Local Tax Collector Put On Legislative Committee At Fort Worth Convention.

C. M. Blair, county tax collector, was made a member of the legislative committee during the State convention of tax collectors held at Fort Worth last week. This body is composed of five men, and only two, including Mr. Blair are from west Texas. Ben Golden of Amarillo is the other representative from this section of the State.

The honor coming to Mr. Blair is a signal one inasmuch as the legislative committee is entrusted with the formation of important regulations and measures forming the policy of State tax collectors. One of the most significant duties of the committee deals with highway legislation.

Mr. and Mrs. C. M. Blair returned Sunday from their trip to Fort Worth. While in the city they visited Mr. Blair's mother.

### Fourth of July Celebration.

Independence Day, the greatest day in American History, will be celebrated at Condon Springs as usual. The Declaration of Independence will be read publicly. Ball that evening and night and swimming and diving contests. 46-4p JAMES CONDON, Manager.

Mrs. A. B. Swartwood and Mrs. Hub Colley and son motored to Cleburne Wednesday.

John Storey returned Monday from a visit with the parents in Dallas.

Never trouble, trouble till trouble troubles you. Then go to Lutz &

### JULIA GERAGHTY TO WED AGAIN.

Mrs. Julia French Geraghty

Mrs. Julia Estelle French Geraghty, daughter of the Amos Tuck Frenches, of New York, and heiress to the French millions, who divorced her former chauffeur, "Handsome Jack" Geraghty, in 1919, is to be married again. Mrs. Geraghty made the announcement herself at Newport, R. I. Her second husband, she said, is to be Howard Williams, Boston insurance man.

### White City.

White City, June 20.—(By special correspondence.)—Crops are very good in this community, but several weeks of dry weather are needed so they may be cultivated. Some of the farmers have fine cotton and have it chopped and plowed, while others neglected the planting until after the rains, which will cause much late cotton. Corn is good. Wheat and oats are being harvested rapidly. Some is very poor, as the extended drought of a few weeks ago hurt the grain crop considerably.

Almost every family is enjoying the benefit of good gardens. There are plenty of beans, potatoes, onions, beets, and cabbages while peas and cucumbers will soon be plentiful.

Many are canning peaches and plums this week. The fruit crop was shortened by the early freezes, but there are several orchards in this vicinity that are yielding well.

The White City Sunday School is progressing well. Everybody is invited to attend each Sunday morning at 10:30 o'clock. There is preaching every second and fourth Sundays at

eleven o'clock by pastor W. W. Adams. A large crowd enjoyed singing at the home of Rev. and Mrs. W. W. Adams Sunday night.

J. P. Starr is recovering from an extended illness.

A boy was born to Mr. and Mrs. R. L. Sellers, Sunday night, June 19.

Mrs. Clifton Starr has been very sick the past few days, but is improving today.

Luther Gauntt of the Tolbert community visited his parents, Mr. and Mrs. J. B. Gauntt at White City Sunday.

Mesdames W. W. Adams, J. H. Adams, Carrie Adams, Mrs. Luther Anderson and Miss Una Mae Adams visited Mrs. R. L. Olive and daughter, Murriel of Hawk Hill Wednesday afternoon.

Little Glenn Knapp is improving slowly after being seriously ill for sometime.

Seymour Dunson received some painful bruises while playing ball at Quanah Saturday, when he collided with another player. He was pitching for Chillicothe in a game played with Quanah.

Mr. and Mrs. Lee Coffey, and Mr.

and Mrs. Carrie Adams visited Mrs. M. A. Coffey Saturday night.

Tom Brannon is at home again after being away for several months.

Miss Ottilie Gauntt visited Miss Cora Lee Patterson Sunday afternoon.

Mr. and Mrs. Lee Armstrong and daughter, Ruth and Doris of Doans visited Rev. and Mrs. W. W. Adams Saturday night and Sunday.

Mrs. W. W. Adams and daughter, Una Mae and Mrs. Brannon visited Mrs. R. L. Sellers Monday afternoon.

Mrs. S. E. Floyd and children and Mrs. Perry White and children went on a plum hunt this week.

### Wife Helps

#### Elect Hubby

"After having been in bed half the time for a year with severe pains in my right side over the appendix, stomach trouble and bloating, which the doctors seemed unable to reach with medicine, and advised operation as the only remedy, my nurse advised me to try Mayr's Wonderful Remedy, and its results have truly been wonderful as I am now entirely well and strong, and at the last election worked hard to elect my husband." It is a simple,

## Baptists Defeat Methodists.

The Baptists baseball team continued its undefeated record yesterday afternoon at the fairgrounds when it defeated the Methodist aggregation 6 to 1 in a well played game. Baptists outthrew and outscored their opponents, but the contest was nevertheless a pitchers' battle. Baptists led from the start and were never headed.

Following is the box score and summary:

## THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep And Daylight Was Always Welcome.

"With the exception of a little milk toast which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I ac-

tually dreaded to see night come as I could not sleep and was always too restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it.

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

Tanlac is sold in Vernon by Ferguson Drug Company, in Odell by R. J. Belcher, in Harrold by Wilson Drug Company and leading druggists everywhere.

Every successful man's advice to-day, is, "Save your Money." Heed it. Start today.

Saving makes men!

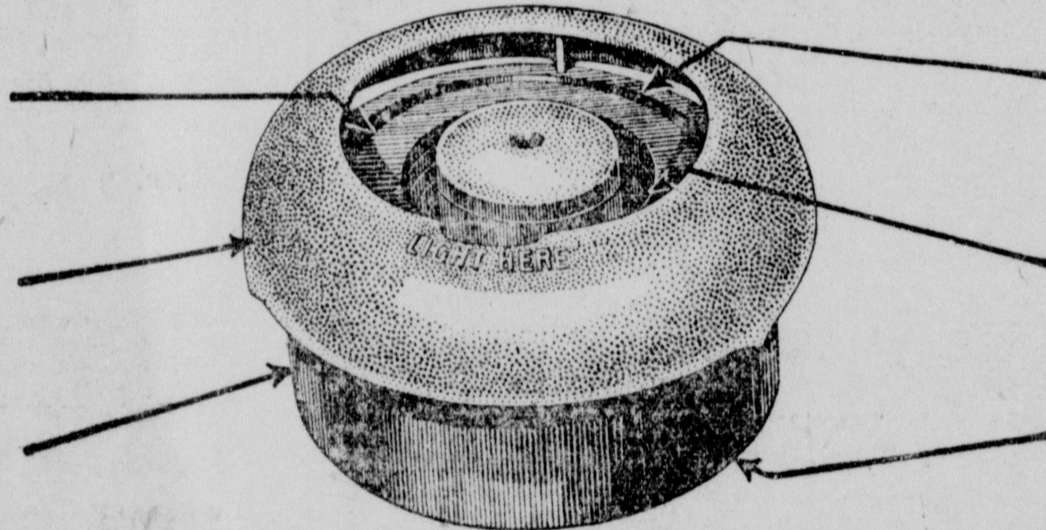

THE FARMERS STATE BANK  
VERNON TEXAS

Red Star Burners have no wicks or wick substitutes. Fuel is vaporized into gas, giving a clear, blue flame.

Heat condenser is an inverted cone-shaped casting which holds the heat and forces it to strike a metal square.

Burners are made from solid grey iron castings annealed to withstand heating and cooling; last a lifetime.

Double ring flame of intense heat directly under cooking. Burns all the fuel without smoke or smell.

Castings fit in place without fastening. Easily taken apart for cleaning. Seldom needs any attention.

Fuel flows directly into the double vaporizing rings and is mixed with air to give perfect blue flame.

## YOU NEVER SAW A BURNER LIKE THIS

Cooking efficiency on any oil stove depends upon the burner. Construction gives beauty and ruggedness and convenience. But the heat you can get and the way you can regulate it depends upon the burner.

Oil stove progress is expressed in its most convincing form in the Red Star Burner. This wonderful burner is the primary cause of Red Star Success. It is an achievement which has made the oil stove a national success.

Due to this burner, real heat is now a fact in an oil stove. No housewife need put up with a medium heat from her stove. No woman need deny her home the good things that require intense heat to cook. This burner requires no wicks. It uses no asbestos rings or wick substitutes of any kind.

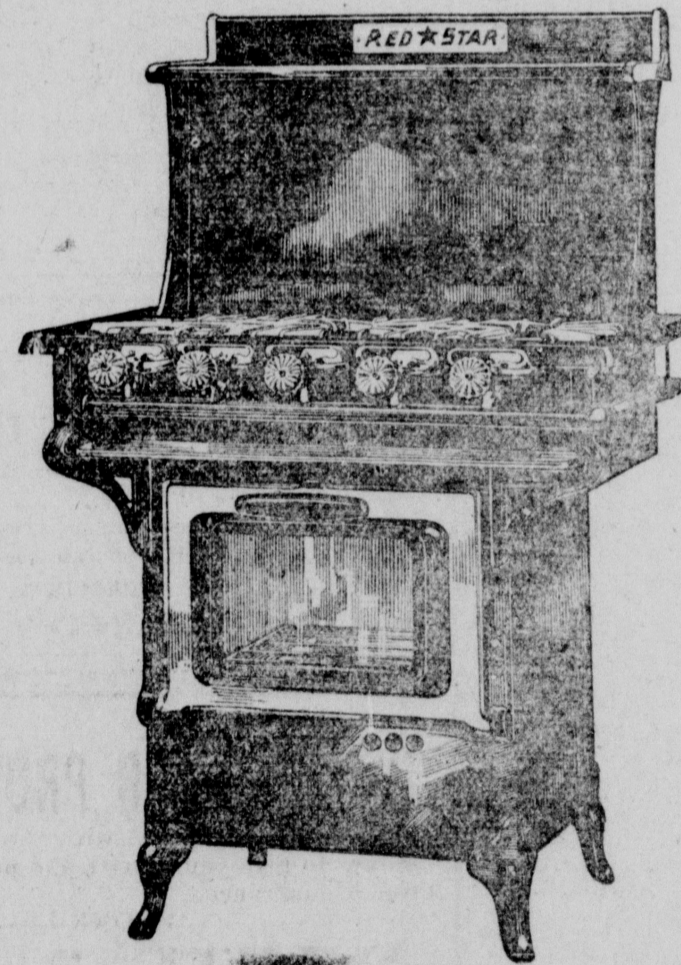

The Red Star Burner gives two rings of hot blue gas flame instead of the usual one. In addition, the burner becomes red hot and adds this steady heat to the double ring of flame.

A feature which pleases all women is the extreme durability of the Red Star Burner. It is made of grey annealed iron and weighs 8 1-2 pounds when assembled.

It is easily kept clean. This big strong burner lasts for years. There is nothing to replace—nothing to get out of order.

And besides producing such wonderful heat, it saves 25 per cent of your fuel.

Come in and see a complete demonstration of this wonderful burner in the Red Star Stove.

No. 381  
An Ordinance Regulating the Parking of Trucks, Wagons, Floats, Drays and Other Vehicles Used in the Business of Hauling and Transporting Freight for the Public for Hire as Common Carriers and Providing Adequate Penalties for the Violation Thereof.  
Be It Enacted by the City (Commission) of Vernon, Texas:  
Sec. 1. It shall be unlawful for any person driving, using or operating any Truck, Wagon, Float, Dray or other vehicle within the City of Vernon engaged in the business of hauling or transporting freight for the public for hire to park same at any point on Main street between the North line of Marshall Street and the South line of Maiden street, or at any point on Wilbarger street between the East line of Fannin street and the West line of Cumberland street, or at any point on Peace street between the East line of Fannin street and the West line of Cumberland street, or at any point on Texas street between the East line of Fannin street and the West line of Cumberland street; provided this ordinance shall not be construed so as to prohibit any such vehicle from being stopped or parked for a reasonable time while actually loading or unloading freight.  
Sec. 2. Any person who shall violate any provision of the foregoing section shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not more than two hundred dollars.  
Sec. 3. That this ordinance shall take effect from and after its approval and publication.  
Witness my hand and seal of said City, this 15th day of June, A. D. 1921.  
Attest: S. H. HALL, CLERK. HARRY MASON, Mayor

MAKE CUSTARDS AND WHIPS  
WHEN EGGS ARE PLENTIFUL

Eggs Form Basis of Many Delicious Desserts—Simple Dishes of This Type Are Nutritious and Easily Digested—How to Make Several Kinds.

In early spring and summer, when eggs are plentiful and cheap, the thrifty among the housekeepers utilize plenty of them for desserts. When this is done, the rest of the meal does not need to be quite so "hearty."

The following recipes are recommended by food specialists of the United States Department of Agriculture:

## Soft Custard.

1 cup milk, 1-4 teaspoon vanilla, 1 egg, 2 tablespoons sugar, 1-16 teaspoon salt.

Heat the milk in a double boiler. Mix the eggs in a bowl with the sugar and salt. Add hot milk slowly, stirring, and return mixture to the double boiler. Cook until custard will coat a silver spoon. Strain and serve. If the custard curdles, set the pan into cold water and beat the custard until smooth.

## Steamed or Baked Custard.

1 pint milk, 2 eggs, 1-8 teaspoon nutmeg or cinnamon, 1-4 cup sugar, 1-8 teaspoon salt.

Mix eggs as for soft custard. Strain into custard cups and steam until firm over hot water, which is boiling gently. To bake, strain the custard into cups and place in a pan of warm water. Bake in a moderate oven until the custard is firm. To test a steamed or baked custard, slip a knife blade to the bottom of the cup in the center of the custard and draw out without turning. If the knife is not coated the custard has cooked enough. Grate the nutmeg over the surface and cool before serving.

## Floating Island.

1 quart milk, 1-4 teaspoon salt, 1-2 cup sugar, 5 eggs (yolks), 1-4 teaspoon vanilla.

Prepare as a soft custard. The whites should be beaten light and 2 tablespoons powdered sugar added for the meringue. When the custard is cool it may be poured into sauce dishes and the meringue dropped in large spoonfuls into it.

## Custard Pudding.

1-2 cup pearl tapioca or rice, 2 eggs (yolks), 1-2 teaspoon vanilla, 1-2 cup sugar, 2 cups milk, 2 eggs (whites), 1-8 teaspoon salt.

Soak the tapioca in enough cold wa-

ter to cover it until it absorbs the water. Add the milk and cook in a double boiler until the tapioca is soft and transparent. Combine the yolks of eggs with sugar and salt and add to the mixture in the double boiler. Cook until it thickens. Add stiffly beaten whites and flavoring, and when cold serve. Rice must be cooked in boiling water until soft.

## Apple Whip.

2 cups apple sauce, 3 eggs (whites), Cream for serving.

Cook 6 or 8 medium-sized tart apples until soft in just enough water to keep them from burning. Add sirup to sweeten sufficiently and one-eighth teaspoon grated nutmeg. Cool. Press the apple sauce through a strainer and add to it the stiffly beaten whites of eggs. Beat until light and foamy. Pile onto saucers and serve with fresh cream or a custard sauce made of the egg yolks. This sauce may be prepared by the same method as for soft custard, omitting the whites of eggs. Canned fruit, such as peaches, figs, cherries, or guava may be substituted in the same proportion for the apples.

## THESE ARE FIGHTING TIMES

There was a time when business came without courting—now it means a fight, and a good stiff one, to bring home the bacon.

And how many are really fighting—how many are using all legitimate weapons to get what business there is and to be in position to reap the harvest when it comes, as it surely must and will?

## ARE YOU ONE OF THE FIGHTERS?

Are you really satisfied with the effort you are putting forth to get more business and to hold what you have?

One time Sapolio was the most widely used cleaning compound offered and sold on the America market. Today—try to buy a package.

Sunny Jim used to be a familiar personage in every day life. Ever hear of him now?

And there are thousands of other examples where manufacturers, jobbers, and retailers thought they needed no further publicity for they were so well known. They became satisfied. They stopped progressing and started slipping.

## ARE YOU ONE WHO IS SLIPPING?

Some argue both ways. When business is good "what's the use of advertising?" When business is bad "what's the use of advertising?" And yet consistent and persistent advertising has made and held the big business of the world—and history keeps repeating itself.

## ARE YOU MAKING THE MOST OF THE PRESENT SITUATION?

Are you drawing in your horns and mistakenly waiting until times get better or are you "hitting the ball," fighting from every angle, making the most of the situation, making today pay a little more than today's cost? Are you really doing all that you can to make things better or are you encouraging the present conditions by falling into the same sleep that you condemn in others? Be honest with yourself—what's the matter with you?

## STIMULATE YOURSELF AND YOUR BUSINESS THRU ADVERTISING.

Take advantage of every possible way of making good with your customer and the many more who will be attracted to you when you come alive—while the other fellow keeps sleeping. Use every form of advertising that will hook you up with what business there is now and what the future holds in the way of increased business. Be ready and waiting for the change.

## USE NEWSPAPER ADVERTISING

There is no form of advertising offered any business man which returns as big results for the amount INVESTED as in newspaper advertising. It is not possible for you to reach so many, hold their attention at a time when they are in a mood for reading in their own homes, at anything like the low cost of newspaper advertising.

## USE DIRECT MAIL ADVERTISING

Fight for business with the same weapons that the successful mail order houses fight for it—and get it. Use direct advertising. Use it frequently and effectively. It costs more than newspaper advertising but it's good.

## USE ADVERTISING NOVELTIES

Please the child and you get the good will of the parent. The use of effective novelties bought locally, with the high commissions and traveling expenses of the peddler eliminated offers a fine opportunity of getting into the home and staying there with your message. The novelty may be in the form of some useful article for the mother, the father, or the kiddies, yet each will appreciate it and appreciate your giving it.

## ALL THESE ARE GOOD AND WE OFFER YOU ALL

The Record is equipped with the necessary firearms for you to do your business fighting—all cocked and primed to go. If its newspaper advertising we offer a medium of real conveyance. If its direct advertising our job presses and ideas of better printing are waiting for you to say the word. If its advertising novelties, calendars, blotters, or similar worthwhile articles we offer the largest showing ever brought to this part of Texas, minus the sting of the traveling expense and high commissions of the peddler.

## USE US FREELY—USE US OFTEN

We are ready to serve you with ideas and with the goods. Let's go. Let us help you wake up—and together we will awaken the other fellow—or at least be ready for him when he does awaken.

Call 171 for "Consultation."

Christian Endeavor at 7:15 p. m.  
Prayer meeting Wednesday at 8 p. m.

## Christian Science.

Services are held every Sunday morning at 11 o'clock in the City Hall auditorium.

## HAS BUMPER CABBAGE YIELD.

Mrs. R. D. Hurt Sells \$30 Worth From Twelve Short Rows And Supply Continues.

"You can't grow cabbage in Wilbarger county" was the warning given Mrs. R. D. Hurt, when she and her husband moved here from North Texas about three years ago. Mr. Hurt paid \$250 an acre for his farm 2 miles west of Vernon.

But Mrs. Hurt was not discouraged. She believed cabbage would grow, and her experience has proven true her theory. "It just takes careful preparation of the soil and the right sort of cultivation," Mrs. Hurt says. "In fact, I have never found anything old Wilbarger wouldn't grow," Mr. Hurt added.

This year Mrs. Hurt has twelve rows of cabbage about 30 feet long. From this patch she has sold \$30 worth of cabbage and in addition thereto has put up a liberal supply of kraut and chow chow for winter use. Mrs. Hurt's supply of cabbage seems little diminished. Yesterday she brought two immense heads to The Record—as fine specimens as the editor has ever seen.

Mr. and Mrs. Hurt practice the policy of living at home. They grow their own vegetables, chickens, pork, milk, butter and fruit.

## Golf Finals This Afternoon.

Finals in the Hill Crest Country Club golf tournament were scheduled to be played off this afternoon when Jed Morrow meets Hub Colley in an eighteen hole match. Colley enters the finals by virtue of the default of E. C. Christian who was unable to meet him in the semi-final round because of pressing business. The winner of the match this afternoon will receive the L. K. Johnson trophy, a golf club.

## Bear Performs On Court House Lawn.

A black cub bear used as an advertisement for a picture Thursday at the Pictorial amused countless spectators on the court house lawn yesterday. Bruin wrestled with the boys in the crowd, climbed trees, and in other ways performed antics that kept those present cheering and laughing most of the time.

## SOCIETY BEAUTY FILES SUIT FOR DIVORCE.

Mrs. Angier Buchanan Duke, beautiful young society matron, of New York and Philadelphia, has filed suit for divorce against her millionaire husband, asking \$100,000 a year alimony. Although the action was not entirely unexpected, society was shocked. The charges made by the young society woman are kept secret. Mr. Duke is the son of Benjamin N. Duke, "American tobacco king." Mrs. Duke is the vivacious daughter of Major Anthony Drexel Biddle, millionaire sportsman and society man. The couple were married in 1915 and have two sons. It is reported that Mr. Duke will not contest the action and will not dispute the young mother's custody of the boys.

## HINDS WOMEN ORGANIZE HOME DEMONSTRATION CLUB

The ladies of Hinds spent a delightful afternoon at the home of Mrs. O. H. Muller, June 14, as guest of the girls' demonstration club.

With Miss Eula Goodfellow acting as chairman, a woman's club was organized, called the Home Bureau of Hinds. They will meet the second Tuesday in each month at 2:30 o'clock. The officers are: Mrs. A. D. Anderson, president; Mrs. Claud Muller, vice-president; Mrs. J. R. Caldwell, secretary-treasurer. The girls' club served delicious fruit salad and cake of their own making.

Both clubs will meet with Mrs. Anderson July 12, for a demonstration of jelly making, after which they will enjoy the sport of bathing and swimming in the Anderson lake.

## FARMER EAST OF TOWN HAS BLOOM OF COTTON

H. B. Cox, living on the W. S. Lundy place five miles east of town, has produced the first cotton bloom that has come to the attention of The Record office this season. The blossom is well developed and indicates that the cotton will be of an excellent grade.

Mr. Cox has thirty-five acres in cotton, and last year had fifty. It is planted in sandy soil. Two years ago the Wilbarger county farmer received the premium offered by local merchants for the first bale of cotton.

## Want Harvest Hands.

White Bear, Texas is clamoring for harvest hands, according to a communication received by the local Chamber of Commerce. White Bear is in Carson county, north of Claude.

## CHILLICOTHE AND VERNON GET EDUCATIONAL QUOTA

Chillicothe and Vernon Methodist Churches have pledged their quotas to the \$23,000,000 Educational Fund to be paid in the next five years. Chillicothe's quota was \$5,745. The pledges amount to \$6,122.50.

The Vernon Methodist Church pledged their quotas are Quannah, Crowell, Margaret and Dumont.

O. A. Brunson and R. B. Gibson are in Crowell today.

NUMBER 47

## CHAUTAUQUA JUST CLOSED CONSIDERED ONE OF FINEST

Seven Day Performances Well Attended and Town Is Complimented On Its Enthusiastic Support—Final Days Offer Exceptional Programs—Plans Made for Next Year.

The seven day chautauqua which closed in Vernon Thursday was considered by many who have witnessed past performances of this character to be probably the finest of any of its predecessors. Entertainments from the start, both afternoons and evenings, were well attended and the management of the chautauqua enthusiastically commended local townspeople for their whole-hearted support. Talent appearing here was also profuse in its appreciation of the responsive audiences.

Tuesday the Glenn Wells and Mme. Selivanova entertained in the afternoon and Dr. Ng. Poon Chew and the Glenn Wells Company in the evening. Mme. Selivanova, who is a Russian described her harrowing experiences in that great country when the Bolsheviks began their drive against nobility. Her story was told in a straightforward, entertaining style that held the rapt attention of her audience at all times.

### Wells Company Pleases.

The Glenn Wells Company presented delightful little dramas that touched the hearts of all who witnessed them. The best of these was "Atonement," presented in the evening. These artists complement one another beautifully and their offering was very well received.

The sixth day was considered by many chautauqua goers as offering the most attractive programs of all the entertainments. The Philharmonic Orchestra, composed of ten young ladies, entertained the audience in the afternoon in connection with Miss Clarissa Harrold, reader, and in the evening the orchestra performed alone. Both music and readings were of a high order, and those who participated showed excellent training and far more than average ability.

The singing of a quintet of the girls, and a stringed quartet were especially fine offerings on the part of the orchestra. Miss Athel Lindorff, harpist, also played several delightful selections.

Montague Light Opera Singers and Hon. John Temple Graves offered the program for the last day of the chautauqua. The singers rendered numbers of delightful interpretations from musical opera, and their singing was of a high order.

### Plan Association.

Those in charge of bringing the chautauqua here next year are planning for a different sort of organization to handle the entertainment. In all probability, a chautauqua association will be formed, the members to be those who signed the guarantee. A concerted effort to sell season tickets will be begun earlier than usual. Those promoting the chautauqua will impress local patrons that the entertainment in no way is being staged by Vernon individuals, but is strictly under the direction of the company bringing it here. According to workers, there often exists the impression that patronage of the chautauqua is a favor to the guarantors of the city and means money in their pockets.

Those who have signed the guarantee for next year are R. D. L. Killough, M. V. McDougal, J. W. Wheatley, O. T. Warlick, O. H. Jackson, J. A. Shaffer, A. P. Howard, Mrs. J. L. Swartwood, Tom Loran, C. A. Kressenburgh, J. H. Pendleton, O. L. Pearson, F. M. Taylor, Steve Maryold, T. L. Rouse, W. N. Stokes, C. S. McCulloch, Buford O. Brown, Gus Ramage, W. C. Baker, B. F. Holcomb, E. P. Robertson, Miss Ida Baker, E. G. Gross, C. K. Smith, E. W. Cabel, L. P. Kramer, Paul Goetze, William Crutchfield, J. T. Glover, C. V. King, J. B. Ross, E. B. Owen, and Mrs. C. J. Farrell.

### Ford Roadster Is Stolen.

A new Ford roadster belonging to W. R. Antle was taken Wednesday night from its parking place before the home of Rupert Sewell on North Maiden St., where Mr. Antle rooms. The theft was not discovered until morning. The car was covered by insurance.

## WHEAT MAY YIELD HIGHER THAN WAS FIRST ANTICIPATED

With Threshing Under Way It Is Found Production Is Greater Than Early Estimate—Some Smut Is Found In Grain Cut First—Farmers Marketing Quickly.

Wheat is expected by many closely interested in Wilbarger county farming to yield a higher average this season than was at first expected. With harvest practically over everywhere and threshing well under way, many farmers who were expecting nine bushels to the acre are getting twelve, and others who anticipated twelve are getting fourteen and fifteen.

A little smut has been found in the wheat but on the whole it is threshing out well. Wheat harvested last is in the best condition. Grain that was in the shock was damaged somewhat by the heavy rains and is not in the best of condition.

### Are Marketing Quickly.

There is a marked tendency on the part of Wilbarger county farmers to market their wheat as soon as it is threshed. Several causes contribute to this movement, the chief of which is the tight money market. Many agriculturists are in need of ready cash, and embrace the present market as a means of affording it.

Dampness in the wheat is another reason why farmers wish to dispose of it as quickly as possible. In the event that it is stored in granaries there is the danger of steaming and consequent spoiling.

The present price of wheat is also pretty generally satisfactory in its relation to other farm products. There is some apprehension on the part of farmers lest the scale sink still lower, and many are desirous of taking advantage of the present market before this occurs.

### Yield About Same.

Number one wheat has been marketing this week in the neighborhood of \$1.15 per bushel. Last year the price was twice this amount. Average this year in Wilbarger county has been from fifty to sixty per cent larger than last, but the yield will be considerably smaller per acre. In view of this fact the total production is expected to be only a trifle larger this year. A safe estimate at the present time is that Wilbarger wheat will average close to twelve bushels to the acre.

Results of the hail that occurred in the northern part of the county about two weeks ago are now clearly evident. Wheat is sprouting up around the shocks and mesquite trees are quite bare.

### RING SIDE SEATS JULY 4.

Prices For Boxing And Wrestling Exhibitions Here Will Range From One Dollar To Fifty Cents.

Ring side seats will be one of the features of the boxing and wrestling carnival that will be staged July 4 by the Vernon Athletic Club. Accommodations for a considerable number of spectators will be provided in this manner.

Prices have been announced at one dollar for ring side seats, seventy-five cents for half the grand stand, and fifty cents for the remainder of the seating space. A large crowd is expected by the management.

Local lads who will appear in preliminaries, are already hard at work in preparation for their contests. No definite arrangements for a ball game have as yet been made by the local post of the American Legion.

### Electra Dokkies Through Vernon.

Dokkies of Electra, a fraternal body, passed through Vernon Wednesday morning on their way to Frederick, Okla. for the ceremonial staged in that city Wednesday. The lodge members were held up here for some time while arrangements were made to reach the Red River bridge over which the Frisco travels. A washout of this structure prevented the running of trains, and the trip was made that far by automobile. The members were met on the other side of the river by Frederick Dokkies.

### Frisco Bridge Washes Out.

Two crippled bents in the Frisco Red River bridge interrupted service on that line out of Vernon Wednesday and Thursday. This bridge has given the railroad company considerable difficulty the past year through washouts.

MRS. CARNEGIE HONORED BY NEW YORK UNIVERSITY.

Mrs. Louise Whitfield Carnegie, widow of Andrew Carnegie receiving the honorary degree of Master of Humane Letters at the New York University commencement exercises. Chancellor Elmer Brown is shown handing the degree to Mrs. Carnegie. Mrs. Finley J. Shepard and Secretary of War Weeks, shown at the left, also received letters.

## URGE CLEANUP TO STOP MOSQUITOES

HEAVY RAINS AID MATERIALLY IN INCREASING NUMBERS OF PEST LOCALLY.

There is now more than ever a need for caution on the part of toxoprophs in guarding against breeding places for mosquitoes, according to several local physicians. Heavy rains of the past weeks have encouraged tremendously the multiplication of these insects, and they are especially annoying in Vernon at this time.

Tubs, broken crockery, discarded tin cans and other litter offer the most favorable breeding places for mosquitoes, in the opinion of Dr. H. H. Rhoads, county health officer. Long grass, too, is a favorite haven of the insects.

"If each person will exercise great care," said Dr. Rhoads, "in keeping his premises cleaned thoroughly, mosquitoes will not be nearly so annoying. Mosquito grass is an especially sought after refuge by these pests, and unless it is kept cut short will serve to greatly increase their numbers."

The mosquito in town can be largely eliminated if some of these precautions are observed, according to the county physician.

## MANY FRIENDS ATTEND FUNERAL OF DROWNED GIRL

Funeral services for Miss Agnes Godhanson were conducted from the family residence on South Fannin Street Wednesday morning at 10 o'clock with great numbers of the girl's friends in attendance. The principal sermon was preached by Rev. J. A. Binbaum, and a short talk was also made by Rev. W. T. Rouse. Pall bearers were Messrs. Aubrey Foster, Frank Wood, Sam Napier, Ed Krebs, Walter Teinert, and Ernest Lehman.

Out-of-town relatives and friends in attendance were Mrs. Roy Watkins, Rowie; Mr. and Mrs. W. F. Claer, Wichita Falls; Mr. and Mrs. Ray Morris, Wichita Falls; Mrs. H. C. Luecke and family, Wichita Falls; D. K. Glass, Denison; Mr. and Mrs. E. O. Steeham, Electra; Mr. and Mrs. Carl Morris, Harrold; Mr. and Mrs. Covey and Mr. and Mrs. Fred Little of Harrold; Mrs. B. C. Wood and family, Mrs. M. Brock and family, Mr. and Mrs. H. Wood, Rev. and Mrs. R. V. Tooley and family, and Mr. and Mrs. C. Brock all of Tolbert.

### Directors Will Meet Tonight.

A joint meeting of senior and junior directors of the Chamber of Commerce will be held this evening in the rooms of the local commercial organization for the purpose of hearing the report of Everett Haney, representative last week at the national convention of junior members in Dallas. The meeting will be held at 8 o'clock.

### Not To Use Air Dome.

The Central Christian Church will continue to have services in the church building and will not use the air dome on Sunday nights as it was announced a week ago.

## OUSLEY INDORSES COTTON POOL PLAN

SUPPLY NO MORE THAN NEEDED BY MILLS, FOLMER A. & M. MAN SAYS.

Dallas, Texas, June 24.—Appealing to the bankers and credit merchants of Texas to free themselves and their farmer debtors from disaster through the annual dumping of the cotton crop, Clarence Ousley, formerly director of extension work of Texas A. & M. College is urging support of the cotton pooling plan of the Farm Bureau Co-operative Cotton Growers' Association.

"The break in cotton prices is fair warning of what may happen to us in marketing the surplus we are carrying over and the new crop we are bringing in," Mr. Ousley says. "The bankers and credit merchants of Texas have it in their power to avert a disaster which looms ominously, for the cotton will not pay the debt due on it. Waiting For Dumping."

"The mills have neither the disposition nor the credit resources to buy within the first three or four months of the season all the cotton they will need for a year, though the surplus and the new crop will be more than they will need for consumption and reserves. They are calmly waiting for us to commit the annual folly of dumping. Making due allowance for the cotton on hand and the maximum yield upon the present reduced acreage, and estimating the slowest conceivable increase of demand, it is perfectly plain that the supply of 1921-22 will show no ponderable surplus. Hence judicious marketing throughout the cotton year is bound to bring better average prices than hasty marketing within four months."

"It is vain to advise farmers, acting singly, to market gradually. It is hazardous to advise them to hold."

### Pooling Only Wise Course.

"The only wise course is to pool the cotton, to sell some of it every week—every day—as the mills can take it through nine or ten months, instead of three or four months, and to save \$15 or \$20 a bale heretofore lost to the farmer in waste and graft."

"The business farmers of Texas are trying to organize for merchandising of cotton through a co-operative association which will save waste and insure the average economic value of cotton. They mean to employ sales managers of high skill and unimpeachable character. Their cotton will not be dumped; it will not be held; it will be merchandised, as dry goods and groceries are merchandised, every day, every month, and debts will be reduced every day, every month, as merchants and manufacturers reduce debts."

### Will Save Waste.

"The cotton will move through the same transportation channels heretofore used; it will be entitled to the same banking credits at primary markets, at concentration points, at the ports, because it will be the same commodity and will be in the hands of men as skilled and as honorable as

## DISTRICTS CALLING SCHOOL ELECTIONS

COMMUNITIES WISH TO MEET OWN NEEDS IF STATE AID FAILS.

A petition has been presented by Elliott school district number 32 requesting the calling of a special school election. This will be for the purpose of submitting to the voters the proposition of increasing the school tax from fifty cents to a limit not to exceed one dollar.

James district 44 has an election pending for the same purpose. Lockett school district 11 has ordered a similar proposition submitted to its tax payers and voters.

These projects are being carried out so that in case there is no State aid forthcoming during the next year, these individual localities will be enabled to care for their needs with their own funds. County Superintendent of Schools J. N. Fulcher is still hopeful that help will be offered by the State. The bill providing such aid was vetoed at the last regular session of the legislature, but Governor Neff has indicated that it will be reconsidered and that the measure will be the second submitted to the called session July 18.

## CHILLICOTHE BEATS VERNON IN GAME LAST WEDNESDAY

Vernon's town baseball team was defeated at the fairgrounds Wednesday afternoon by Chillicothe 3 to 2 in a game characterized by much wrangling. The locals were unable to play concerted ball, and garnered but three hits off the opposing pitcher, McAbee, of Wichita Falls. The visitors hit Vernon pitchers rather freely. There were few errors made on either side.

Delmasso and Teal did the honors from the mound for Vernon, and Gilliland caught. Vernon and Chillicothe have each won two games of the four played this year.

### Wheat Moving Slowly.

Wheat is as yet moving slowly, according to advices from the Kell Mill, and no rush of business is expected for several days. Wet weather, it is said, has hindered materially the advancement of harvest and threshing. Some grain is being hauled to the elevators.

any now in the trade.

"This organization will not perform any price miracle; it will not suspend the law of supply and demand it will merely save waste, stop graft and avert the terrible depression of autumnal dumping."

### Must Act Now.

The crisis is just ahead of us; we can pass it safely if we are wise and if we act resolutely. If we falter, if we allow ourselves to drift, I fear that the worst is yet to come.

"I make this final appeal to the bankers and credit merchants of Texas to save themselves and their farmer debtors while they can. It will be too late when the dumping begins, for momentum will be irresistible."

## BELIEVES CHANGE IN CHINA IS ONE OF AGES' MARVELS

Dr. Ng. Poon Chew Says Transformation From Monarchy To Republic In Land Of Yellow People Never Before Equaled In History—Dwells On Japanese Menace To World.

"I have spoken before audiences representing many of the world's nations, I have traveled extensively in the countries representing these nationalities, but I have never addressed any people with the extreme pleasure it gives me to talk to an American audience," said Dr. Ng. Poon Chew, the noted Chinese editor and lecturer, in his address at the chautauqua Tuesday night. Dr. Chew complimented Americans on their responsiveness, their generosity, and the feeling they express.

The transformation of China from a monarchy to a republic the editor regards as one of the marvels of the ages. He traced the causes of this change from earliest beginnings and gave to the Chinese people a personality it is safe to assume seldom attributed to them by the outside world.

### Vast Size of China.

The vast area embraced by the United States is not nearly so large as China, Dr. Chew declared. It would require the United States, Mexico, and part of Canada to equal the territory embraced by the Orientals. In this great domain more than four hundred million people live.

The history of China is one of forty-five centuries, the audience was told. The yellow race is tied to the past by a long string of traditions, and breaking away from these is the Herculean task of the nation. China's evolution from the ignorance of the past has come through the efforts of the missionaries, Dr. Chew declared. Today thousands of Chinese boys are coming to the United States to pursue studies in the schools and universities of this country and then return to their native land. The education they are receiving in this country is making them dissatisfied with their former environment, and many are again emigrating or attempting to remodel their home land.

### Wanted Republic.

During the revolution in China, the lecturer said, friends of the revolutionists endeavored to persuade the leaders to model their government after the form of England. The consensus of opinion, however, favored the establishment of a republic like that of the United States and it is this kind of rule that exists in China today.

"I believe that China can work out her own destiny if permitted to do so," Dr. Chew told his audience. "As yet she has had no chance. It will be a long and tedious process."

Comparing China and the United States, the Chinese editor declared that the people of this nation do not realize what a land of milk and honey they live in. Hard times such as exist in the United States at present would be a time overflowing with blessing and riches in China. There are one hundred fifty million people living in the area affected by the drought, and more have died in the last two years than were claimed by death during the great World War. Dr. Chew appealed for aid for these sufferers, pointing out that only three cents a day is necessary to sustain life in one individual.

### People Are Conservative.

The extreme conservatism of the Chinese people was blamed by the lecturer for the slow development of his nation. The change cannot be made all at once or "while you wait," he said, as the old monarchistic ideas are still clinging to with a dogged persistency.

The process of Chinese education was explained to Vernon people, and the lecturer stated that the old system has been most strict. Until a short while ago Chinese children started to school at 4:30 in the morning and attended until late in the evening. Their text books were the same as those studied by Confucius many centuries before Christ.

Customs in China are changing now, those present were told. Education is teaching the brotherhood of man and the time is coming when this principle will be universally recognized.

### China Being Recognized.

The Americanization of China is progressing surely, said Dr. Chew, and indications of this can be seen on every hand. The editor mentioned an even-

## J. C. MORRISON DIES THURSDAY WHILE IN DALLAS

Local Oil Man Taken To Hospital Wednesday Following Severe Attack of Stomach Trouble—Was Interested In Oil Acreage and Formerly Manager Of a Gin Here.

J. C. Morrison, for nearly seven years a resident of Vernon, died Thursday morning in the Baptist Sanitarium of Dallas after a critical illness lasting one day. Mr. Morrison was taken from a hotel to the hospital Wednesday following an attack of stomach trouble which ended in his death. He was 47 years old.

J. C. Morrison was manager for two years of the Harris-Irby gin in Vernon and has since been engaged in the oil business. His holdings embraced acreage at Wichita Falls, Graham, Breckinridge, and Iowa Park. Several local men were associated with Mr. Morrison in his oil business.

### Highly Thought Of.

Mr. Morrison came to Vernon six or seven years ago from Oklahoma. He made many friends here and was highly thought of by all who knew him. He was a member of the Odd Fellows' Lodge. Mr. Morrison is survived by his wife, four daughters, and a son. The daughters are Misses Lois, Bernice, Nettie Mae, and Mary Virginia. The son is Roy Morrison.

Funeral services were conducted at 3 o'clock this afternoon from the residence at 412 East Maiden St. Rev. S. W. Hayne preached the sermon, and the ceremonies were in charge of the local I. O. O. F.

## SEYMOUR TO STAGE BIG CELEBRATION JULY 4

A two day celebration honoring the official opening of Seymour's sixty-two acre park, bathing pool, and children's playground will be staged in that city July 4 and 5 and elaborate preparations are being made by the Baylor county metropolis to outdo itself in the matter of free barbecue, swimming and high diving, and boxing contests.

Free automobile camping grounds will be provided visitors. The general public is invited to the Seymour entertainment.

After spent in China several years ago when he was the guest of honor at a gathering of Chinese men and women who had formerly attended schools in this country. All were attired in conventional American evening clothes, he said, and during the entire affair no other language but English was spoken. These present even enjoyed an American dance. One certain indication of American influence, he said, is the spectacle of small Chinese boys chewing American gum.

The Japanese menace was dwelt upon at length by Dr. Ng. Poon Chew who branded the neighbors of his country as the "Germany among nations." Japan is aggressive, he said, and has closely modeled its government after that of Germany under the regime of Prince Bismarck. The present Japanese constitution is closely modeled after that of the old German empire, he said.

Japan has a two-fold policy, the speaker asserted. First, she is gathering gold for the establishment of a tremendous navy; and secondly, she is attempting to transform herself from an insular to a continental power. To do this it will be necessary to absorb China. A defeated Japan, Dr. Chew said, will result from the mass of "broken China" within her.

### Shantung Deal Injustice.

The Shantung deal as arranged by the chautauqua speaker as a great injustice. China contributed fully as much to the World War as did Japan, he said, and should not have been denied this province. He declared that Japan is today responsible for at least eighty per cent of the internal troubles in China just as Germany was responsible for the great outbreak in Russia.

China has great confidence in America, Dr. Chew said in closing. The love of fair play and liberty which characterizes this nation has won the respect of the people beyond the Pacific. China is looking to this country to lead it out of darkness, and to awaken that spirit that will mean new life and new hope for all those millions of people.

## GO TO THEATRE

At the Pictorium.  
Today and tomorrow—Constance Talmadge in "Lessons in Love."

In this play, which is adapted from the stage play, "The Man From Toronto," Constance has the role of Lella Calhorne, a young and winsome heiress whose elderly guardian "conspires" with the family lawyer to marry her to a man she has never seen. Kenneth Harlan, who appeared with her in "Dangerous Business," is again her support. It is a wholesome, human story and, according to reports, is the best Constance has ever done.

Monday—George Walsh in "Dynamite Allen."

The father, Sid Allen, is sent to jail to do reparation for the crime of another man. The son, "Dynamite," played by George Walsh, seeks to avenge the wrong against his father and bring about his vindication. He accomplishes this at the risk of stirring broils and interruptions. They include a café fight from which he rescues the girl whose return to the community has important bearing upon the crime secret; an episode wherein he drives an engine over a divided trestle, and his rescue of his family from the haunt of criminals.

### At More's Theater.

Today—Marion Davies in "The Restless Sex."

The story centers around Stephanie Cleland, adopted daughter of a rich New Yorker, who has a great craving for excitement. Her restlessness leads her into a loveless marriage from which a real romance and a turn of fate extricate her.

Saturday—Buck Jones in "The One Man Trail."

This is another of Buck Jones' cowboy pictures, the ninth he has made for William Fox, who discovered him following his trade as a real cowboy and made an actor of him.

Monday—William S. Hart in "The Testing Block."

"Sierra" Bill fights seven men of his band to save Nelly from their embraces. Then under the influence of liquor, he forces her to marry him. She learns that in his heart he is a real man and in making for her a real husband he finds his "testing block." Eva Novak heads the supporting cast.

## IN SOCIETY

### Celebrates Fourth Birthday.

Mrs. Luther Webb entertained a number of little folks in honor of her daughter Dorothy's fourth birthday this afternoon at her home on West Paradise street. Lunch was served the guests during the play hours and later in the afternoon they were given ice cream and birthday cake. Those present were Mary Jeanette Bennett, Willy Bennett, Jr., Margaret Boger, Anna Bailey, Billie Bond, Rosa Mary Crawford, Katherine Dodson, Mary Dodson, James Dodson, Adelle Honsells, John Kelly Honsells, Cornelia Johnson, Louise Johnson, Josephine Kilbough, Sarah King, Warren King, Newel King, Dorothy Fay Lisman, Mary Tom Lisman, Howard Lisman, Jr., Cy Long, Jr., Martha Long, Elizabeth Hicks, Virginia McCaleb, Frances Murchison, Frank Murchison, Jr., Dorothy Piper, Minerva Price Rhoads, Emory Rhoads, Mary Louise Rogers, Tom Summerour, Jr., Catherine Warren, Nora Warren, Helen Thompson and Roy Martin, Jr.

Did you ever see a bag of Armor Mesh which is as fine and light as the finest silk? This Debutante Armor Mesh Bag, the newest addition to Milady's houndoir, is of such fine texture that it weighs no more than a bag of finest silk.

### RED CROSS HINTS.

#### Clean Homes.

Clean homes often insure health of the members of the family living therein, and too much attention cannot be paid by housemakers and housekeepers to keeping the home spotless, from the standpoint of health as well as personal comfort.

With the opening of summer every home should be thoroughly gone over, all dark corners, all depositories for unused articles should be looked into. Get rid of the superfluous. There is a real trait in human nature to hoard and closets, attics and store places often contain heaps of things that should have gone into the trash pile long ago. They are prolific breeding places for dust and dirt.

Here are a few simple suggestions for every housewife:

If there is a vacant lot adjoining your home see that it is clear of rubbish and that no high weeds are allowed to grow thereon.

Be sure that plenty of light and air is brought into damp cellars.

Keep the windows clean and keep them open as much as possible. Fresh air and sunlight are allies of good health.

See that all rubbish is removed from your back yard, your cellar, or other store rooms.

Clean all carpets and draperies for the summer season.

Scrub the floors and all unvarnished woodwork, using plenty of soap and water.

Co-operate with your neighbors to remove neighborhood nuisances, such as stagnant pools, trash heaps and dumping grounds.

Keep the plumbing in good repair and have leaky roofs mended.

## QUALITY

### AND THE COURAGE TO BACK IT UP

True courage is neither blind nor spectacular; true courage is patient, careful, intelligent; it holds to an ideal and lives up to it in the face of danger and difficulty.

We have never catered to our price cutting competitors for we have never carried anything in stock but high class merchandise; for our customers are all of the better class, therefore nothing but quality goods will do on our shelves.

We pride ourselves on having more friends than any other institution of its kind in Vernon.

Thirty-two years ago this business was founded in this city and we believe it is only reasonable to state that our present business is built on nothing else than the reliability of our goods and the fairness of our business policy.

**PARKER-DONGES**

## MAY SHIP BUTTER IN WARM WEATHER BY PARCEL POST

Thoroughly Practical If Proper Conditions Are Maintained—Cleanliness, Suitable Temperatures, Good Packages, and Plenty of Wrappings About the Butter Are Important.

Parcel post shipments of butter are likely to be subjected to conditions, especially during the summer, which may cause deterioration and injure the quality of the butter. It is highly desirable, say specialists of the United States Department of Agriculture, that every possible precaution be taken before shipment. Particularly is this true of farm-made butter, because conditions affecting its quality and condition usually can not be controlled as in creameries. Farm-made butter, however, should be marketed just as satisfactorily as creamery-made butter when it is properly made and prepared for shipment.

It is necessary to maintain proper conditions in the care of the milk and cream and the making of butter if a marketable product is to be produced. Too much importance, it is said, can not be given to maintaining cleanly conditions in the stable and in other places where the milk, cream, or butter are produced or kept, for they absorb odors and spoil very quickly. It is important, too, that these products be kept in a cool place. High temperatures should always be avoided, as they produce a soft, oily condition of the butter which is undesirable.

#### Cleanliness Is Most Important

In manufacturing butter on the farm or in a factory the butter milk must be removed and washed out, and the proper amount of salt must be incorporated evenly. Frequently parcel post shipments of farm butter are unsatisfactory to customers because proper methods were not used in making it, and the quality and condition of the butter thereby injured before it was shipped. For the satisfaction of customers it is important that a uniform quality of butter be produced.

Methods used in preparing butter for parcel post shipping depend largely upon the local conditions and style of package used. To insure delivery in the best possible state, butter, after being packed or printed and placed in cartons, should be chilled or hardened thoroughly before it is shipped.

One of the most satisfactory ways of preparing butter for shipment is in regular 1-pound prints, the standard print measuring 2 1/2 by 2 1/2 by 4 5/8 inches. Every pound print should be neatly wrapped in regular butter parchment or paper. A second thickness of such paper has been found to add materially to the carrying possibility of the butter. Waxed paper may be used for the second wrapping.

As a further protection to the print, it should be placed in heavy manilla paraffin cartons, which may be obtained from folding paper-box companies, either plain or printed as a

stock carton or with a special private brand.

#### Packages That Protect Against Heat.

Corrugated fiber-board shipping containers of various sizes may be obtained for shipping 1-pound prints of butter. These boxes or containers practically insulate the butter and furnish much protection against heat. Further protection may be obtained by wrapping the container in stout wrapping paper. The whole should be tied securely with a strong cord. In tying the twine it should be drawn tightly around the package so as to insure its proper carriage. Not infrequently packages are broken open or otherwise damaged because they are insecurely tied. The corrugated containers are also useful for carrying shipments of butter put up in other styles.

Some persons ship butter by parcel post in improvised or homemade containers. Clean, discarded, corrugated paper board cartons are obtained from the grocer or other merchant at small cost or frequently without any cost at all. It is possible to cut a piece of paper board in such shape and size that when it is folded it will form a satisfactory carton.

Butter shipped in an improvised container should be wrapped in parchment paper and several thicknesses of newspaper and then should be securely tied with string. The package should then be inclosed in a piece of corrugated paper board with the projections so folded as to form a container. The container should then be tied with twine, wrapped in heavy paper, and again securely tied with a strong cord. If butter that is prepared for ship-

ment in this manner is thoroughly chilled before being mailed, it should carry safely even in warm weather if it is not in transit more than 24 to 36 hours.

#### Chill Thoroughly Before Mailing.

Experimental shipments made by the Bureau of Markets were satisfactory where the temperature and distance were not too great. Butter that had softened much in transit from the creamery to the bureau when later shipped to the experiment stations did not arrive in as good condition as that in which the grain had not been previously injured. In general the shipments from Washington were successful when forwarded as far north as Maine and as far west as Michigan and Indiana. Shipments into the South were successful for shorter distances.

The result of these experimental shipments indicates that well-made butter, thoroughly chilled before shipping, when packed in a suitable container, may be marketed satisfactorily by parcel post when extremely high temperatures are not encountered. Under ordinary conditions, where the butter does not melt and a firm or semifirm condition is maintained, the shipping of butter by parcel post generally may be satisfactory. Even though proper safeguards were taken, the shipments made during extremely hot weather frequently arrived in an oily and unsatisfactory condition.

# GREAT WAR WAS GOD'S PUNISHMENT DECLARES ORATOR

**Nations Involved in Conflict Were But Atoning For Sins Committed, Hon. John Temple Graves Tells Audience—Appeals For Support of Church and Government.**

There are many who would tell us to forget the War, said Hon. John Temple Graves in his address before the chautauqua audience yesterday afternoon. They would have us go about our affairs as though the great calamity had never happened.

The cost in lives and treasure, however, prohibits this, said the orator, and we cannot but remember the millions of lives and the billions of dollars spent in the prosecution of the conflict. In view of this tremendous destruction we ask ourselves why God permitted such an occurrence. If He sees the fall of every sparrow, how could He witness the death of millions of His children and not raise His hand to stop proceedings.

## Is A Jealous God.

The Georgia speaker attributed as the two great principles of God—justice and mercy. We are ever ignoring one and depending upon the other, he said, and when the one principle is exhibited we clamor for the other. God is a jealous God and He will not permit the disobedience of His teachings.

Therefore, said Mr. Graves, there must have been a punitive and corrective purpose in His permission of the World War. He must have intended that out of the tribulation there would be brought hope and gladness and freedom from sin.

What are the sins the nations have committed, the speaker asked? What have they done to bring on the vengeance of God? Mr. Graves considered separately each nation involved in the conflict and pointed out the sins that were sure to bring retribution. Selfishness, greed, Sabbath breaking and all modern transgressions were held up to the attention of the audience. All these nations were guilty, he said, and all were obliged to pay the penalty. In the face of all this evidence, he pointed out, there can be brought no argument against God's work.

## Scores Capital And Labor.

Capital and Labor were roundly scored by the Georgia orator. Capital he defined as big business and declar-

ed that it has made American Labor of today a menace. There was a time, said the speaker, when Labor was thoroughly American, but capital has brought anarchy and Bolshevism in to its midst to make it distrusted by the general public. Capital has built warehouses and stored the necessities of life in order to force people to pay exorbitant prices for the same.

On the other hand, Labor rebels against American laws, said Mr. Graves. It is indifferent to the welfare of the people and puts its own interests before all others. The few are making the many suffer. Mr. Graves criticised severely the statement of Samuel Gompers that the "Strike is justifiable because it is the only weapon the unions possess." He inquired whether or not murder would be justifiable under similar circumstances.

## Need Strong Government.

We need a strong government for a time of trouble, the Georgia orator declared. It must be a government that is right, that deals justice to all though the heavens fall. We need a government that is not afraid to stand for the better principles than those expressed concisely in "Work or starve; save or suffer; play together or play hell; be an American or get out of the country."

The situation today Mr. Graves likened to Armageddon. We are fighting for the Lord, he said, and we cannot lose. The Church is one of the leading factors in the great fight and its potentiality is becoming more and more recognized.

## Appeals For Support.

The Old South orator appealed for support for the Red Cross, fraternal organizations, charities, and chautauquas, giving as his reasons the fact that they represent the best things in American life.

There is peace now in God's heart, he said, and we must heed our way lost we stand again obstructed as before with a great war. Great good is coming again and there is much optimism due the future. The President of the United States is deserving of our hearty support, said Mr. Graves. Upon him rests the responsibility for much of the future happiness of American people; he is trying to lead the nations of the world in the paths of peace, and furthermore, he has shown himself to have at heart the interests of the Southland.

## Money, Money, Money.

We have an endless chain of money to lend on farms, in Wilbarger, Foard, Hardeman, and other Western Texas counties. Long time, and at rates as low as can be had any where.

101-lfc T. P. LISMAN, & SON.

# WHEAT IS MOVING TO MARKET FAST

**YIELD AND PRICE IS BETTER THAN MANY FARMERS HAD ANTICIPATED.**

While one would exaggerate the facts to say that you can stand at the F. W. & D. C. depot and see a continual string of wagons loaded down with wheat—yet, the wagons are coming rapidly; fast enough, in fact, to load five cars yesterday. That quantity represents nearly six thousand bushels, or about eighty wagon loads.

Five carloads of wheat were likewise shipped from Harrold yesterday, according to Little & Company, local elevator men. Oklahoma is in the lead, with seven cars loaded Thursday.

The yield seems to run reasonably uniform in different parts of the county. That is, reports indicate an average of twelve to fourteen bushels to an acre. The highest yield reported is twenty-six bushels.

Hugh J. King of Oklaunion reports an average of a little more than fourteen bushels for his entire crop.

The price being paid is \$1.15 a bushel, which is better than many expected thirty days ago. Reports from Chicago indicate an advance of 1c to 2 1/2c at the close of yesterday's market.

## Notice To Taxpayers.

The Commissioners Court of Wilbarger County, Texas will convene at the Court House in Vernon, Texas, on Monday and Tuesday, June 27 and 28, 1921, as a Board of Equalization to equalize the taxes for the year 1921, and this is to notify you to appear before said Court on said dates to show cause, if any you have, why the valuation of your property should not be raised.

VERNA LUCKY, County Clerk, Wilbarger County, Tex. 44-4c

Mrs. W. C. Cawood, who has been visiting her daughter, Mrs. R. D. L. Killough, for the last two weeks, left yesterday for Memphis, Tenn., to visit her son, S. T. Cawood. From there she will return to her home in Danville, Ill.

See the Trubpruf Tires at J. E. Lutz's office, corner Texas and Fannin streets. 63-lfc

Rev. S. W. Hayne returned today from Dallas, where he has been since Monday, attending lectures in the Summer School of Theology of Southern Methodist University.

## WANT TOURISTS SENT OVER COLORADO-TO-GULF HIGHWAY

A communication addressed to all Chambers of Commerce has come to the local body from the Panhandle section of the State requesting that tourists be not misinformed on the condition of roads between Childress and Amarillo. The letter states that some tourists out of Childress are being routed over the Dallas-Canadian-Denver route much to the disapproval of Amarillo. The latter city has threatened to retaliate by sending automobilists headed this way over the south plains route.

The Colorado-to-Gulf highway is said to be in good shape, and easily passable.

O—U Money. We have plenty to loan on improved farms. Davis & Summerour. 87-lfc

WANTED—Clean cotton rags at The Record Office.

## Dance At Elk Club Rooms.

An informal dance was held Wednesday night in the Elk club rooms and was well attended. Music was furnished by an out-of-town orchestra. Guests danced from about 9:30 until 1 o'clock.

Mrs. Eunice Wilson and children and Mr. and Mrs. Robert Boyle returned this morning from a visit in Mineral Wells.

See the Trubpruf tires at Lutz & Schmoker's. Corner Texas and Fannin. 77-lfc

 THE AMERICAN PRESS ASSOCIATION

Vernon, Texas, Friday, June 24, 1921.

## SEE TEXAS FIRST.

Fifty thousand Texas vacationists  
 spend annually \$8,000,000 or more of  
 Texas money at out-of-state resorts, ac-  
 cording to figures of the Texas Cham-  
 ber of Commerce publicity department,  
 which propounds the following ques-  
 tions to such seekers of far away  
 places of recreation:

Do you want salt water swimming  
 and fishing?

Then remember that Texas has the  
 third longest coast line of any state in  
 the union; that it is indented with  
 bays from the Rio Grande to the Sa-  
 bine affording protected fishing  
 grounds for the amateur sailor who  
 would spend his days in a "cat rig"  
 or motor boat. Further that it is  
 one of the best fishing areas in North  
 America and has unexcelled bathing  
 beaches.

Want altitude

Then Texas has a whole plateau  
 which is racially as high and as  
 beautiful as the Yellow Stone Park.  
 The Chambers of Commerce of the  
 Trans-Pecos region have started a  
 movement for a state park in that sec-  
 tion of the country, and have already  
 made provisions to take care of tour-  
 ists in the Davis mountains and sur-  
 rounding country.

Want a high dry bracing atmos-  
 phere?

Texas has more of it than Colorado.

Want to spend your days on a cry-  
 stal clear stream with rod and line?

Then why go to Glenwood Springs  
 while the beautiful Pedernales, Comal  
 and other streams flow through Texas.

Want mineral waters?

Then Marlin and Mineral Wells are  
 the equal of Carlsbad.

Want to camp on the shores of a  
 lake within easy motoring distance of  
 theaters and good hotels?

Then there are lakes at Wichita  
 Falls, San Antonio, Fort Worth, Aus-  
 tin and a number of other cities of the  
 state which offer unexcelled advan-  
 tages for fishing, boating and swim-  
 ming, while keeping the vacationist  
 within motoring distance of a city's  
 advantages.

Texas has everything for the pleas-  
 ure-seekers but these resources need  
 advertising. A "See Texas First"  
 sentiment, however, is being created  
 throughout the state through com-  
 mercial organizations and newspapers, and  
 much saving of Texas money for Texas  
 can be looked for.

## THE ZONE POSTAL RATE.

Representative Mondell has, or will,  
 introduce into Congress a bill repeal-  
 ing the Zone Law. Only a few years  
 ago such a proposal would have met  
 with the hearty support of a great ma-  
 jority of folk living in the rural dis-  
 tricts. It will always get the most  
 active backing of magazine publishers,  
 mail order houses, and others living  
 in the cities who are anxious to bring  
 into their coffers the shekels of the  
 multitude.

The Zone Law provides a graduated  
 rate of postage for second class mail.  
 There is a distinction, too, between  
 the news and advertising sections of  
 magazines, the charge for the latter  
 being considerably higher than for the

news sections.

There are two reasons for this. In  
 the first place second class mail was  
 being transported at a glaring loss.  
 Efficiency in the Postoffice suggested  
 that some plan be evolved for making  
 those benefitted pay at least more  
 nearly the cost of the service they got.  
 In the second place, publications in  
 New England and elsewhere in the  
 United States that were being circu-  
 lated for 50c and even 25c a year evi-  
 denced the fact that their advertising  
 sections might well be taxed somewhat  
 more than a penny a pound for trans-  
 portation from Maine to Texas, or from  
 New York to San Francisco.

Naturally these publications howled.  
 A rich source of revenue was being  
 cut off. What was, in effect, a gov-  
 ernment subsidy had been removed.  
 And they took up the fight by suggest-  
 ing to local publishers and others that  
 the Zone Law was just another bit of  
 red tape as a result of which nobody  
 was benefitted.

Either there must be a zone law, or  
 the second class rate must be materi-  
 ally increased. To the writer it seems  
 fair that if a New York advertiser  
 wants to get his wares before Vernon  
 people he should pay enough for the  
 advertising to cover the cost of getting  
 it to Vernon. Surely Vernon people,  
 and people all over the United States  
 should not be taxed to pay for carry-  
 ing his advertisement.

The Zone Law has helped the local  
 newspaper, just as it has helped the  
 local merchant. It has helped build  
 the community by helping build local  
 institutions, and has saved every man  
 and woman in the community from a  
 higher tax for their reading matter.

These are some of the reasons why  
 The Record is for the Zone Law. If  
 you are for it write your Congressman  
 to that effect.

## A SPIRIT OF OPTIMISM.

"Panhandle Bankers predict pros-  
 perity on greater scale" is the head-  
 ing of a communication from Lubbock,  
 where the Panhandle bankers are in  
 session. They base this statement on  
 the bumper yield of wheat which is  
 practically assured the Plains country.

The same word comes from Dallas,  
 where the statement is based upon pur-  
 chases by retail dealers over the state.  
 Similar word comes, too from Kansas  
 City, from Chicago, from New York  
 City. Business seems to be picking up.

Money is becoming more plentiful.  
 Of larger importance, however, than  
 that the price being offered for wheat  
 is higher than many anticipated, is  
 the fact that debts are being paid, and  
 that many of the farmers will have  
 some money out of the present wheat  
 crop which represents actual saving  
 to them—saving for work they have  
 done.

Willbarger county is unusually fortu-  
 nate. Recent rains have damaged our  
 crops perhaps less than has been the  
 case in most counties, the yield is bet-  
 ter than was expected, and—most im-  
 portant of all—a sentiment of opti-  
 mism pervades the people; not blind  
 optimism, but a determination to go  
 forward and a faith that we can bring  
 everything out right. Good cheer,  
 hard work, and thorough co-operation  
 will make all of us prosperous again.

## Thompson Community

Thompson, June 23.—(By special  
 correspondence.)—Bill Crites of Gran-  
 bury, Texas, is here visiting his broth-  
 ers, Messrs. Arthur and O. P. Crites  
 and family.

Miss Lucile Rainwater and her  
 brother, Roscoe of Vernon are visiting  
 relatives of this community.

Lucian Sellers of Tolbert visited his  
 uncle, T. M. Dennis and family Sun-  
 day.

A fruit supper was given at the  
 home of Mr. and Mrs. A. F. Gaston  
 Saturday night.

Miss Grace Cheatham of near Chillico-  
 the has been visiting Miss Alverda  
 and Leora Cheatham of this commu-  
 nity.

Lewis Sherman is ill with Typhoid  
 fever.

## Oklaunion Club To Meet.

The Oklaunion Home Improvement  
 Club will meet at 2 o'clock Tuesday  
 afternoon at the home of Mrs. Logan  
 Creager.

Mrs. Fred Halsel and Mrs. Lawrence  
 Smith of Fort Worth are in Vernon  
 today.

See us for money on farms. Davis  
 & Summers.

## Foster's Weather Bulletin.

Washington, D. C., June 24, 1921.—  
 Near June 25 the northern Rockies  
 and all the northern parts of the conti-  
 nent west of meridian 90 will be cov-  
 ered by a great warm wave moving  
 southward. When west of the great  
 lakes near June 26 the center of this  
 great wave of warm air will turn  
 southeastward and, in a few days, will  
 cover all the cotton States and south-  
 ern Rockies east of the Mississippi. It  
 will then turn northeastward and by  
 June 29 will cover all the Atlantic  
 States.

A radical weather change will fall  
 in behind that great warm wave and  
 nearly all kinds of Summer weather  
 will march over the wide swath made  
 by the previous warm wave. You  
 should have a care about that storm;  
 it looks ugly on my June weather  
 chart, but I regret that I cannot tell  
 you exactly the kind of a storm it will  
 be nor the exact spot where it will  
 strike hardest. I repeatedly told you  
 that the greatest storms of the Sum-  
 mer would strike east of Rockies ear-  
 ly in June. That set of storms was so  
 great that three tornadoes resulted.  
 One of these tornadoes was called a  
 cloud burst which caused the immense  
 loss of life and property near Pueblo.  
 The latter was so great that little  
 damage resulted to eastern sections.  
 The coming storm will not be so great  
 but it will be dangerous and some-  
 where along the wide path of the early  
 June storms.

It is time for our race to war no  
 more and devote the time and money  
 fed to the war god in studying Na-  
 ture's laws; then we could save all  
 these millions of lives now destroyed  
 by the elements, because then we could  
 give positive advice when and where  
 to run to shelter. Watch for those  
 dangerous storms during the week  
 centering on June 28.

Next storm period will occur dur-  
 ing week centering on July 5. It is  
 not expected to be so severe as the  
 two great storm periods in June but  
 you should not get careless about it.  
 The storms destroy more lives and  
 property than war; principally because  
 people do not hide from the storms be-  
 hind breastworks. The warm wave of  
 this July storm will cross meridian 90,  
 west of the great lakes, and its gen-  
 eral path eastward will pass near or  
 a little south of the great lakes not  
 far from July 5. I expect the most  
 dangerous storms near that date and  
 along that path.

Just now the markets are in a  
 chaotic condition, particularly for  
 grain and cotton. The grain markets  
 are almost wiped out. But do not be  
 discouraged; there is a rift in the  
 clouds and this probably is the darkest  
 hour just before the dawn. A great  
 battle is on between the Chicago board  
 of trade and the farmers. As I see  
 it this is the beginning of the end.  
 Agriculture has sent forth the tones  
 of its liberty bell. Foreseeing this I  
 advised those who could not hold a  
 month or more to sell their grain and  
 cotton. Now I advise all who can to  
 wait on the markets and put their  
 time in on their crops. Everything  
 comes to those who work and wait.  
 Dealers who are friends of my work  
 are advised to go slow or wait till they  
 hear from me. The depression storm  
 is nearly over.

June 25 a hurricane will organize  
 near west coast of Africa; will reach  
 Gulf of Mexico about July 1. Partic-  
 ulars in next Bulletin.

For auto, truck and tractor repair-  
 ing of all kinds see Jimmie Henderson  
 at Creath and Kerr's Hupmobile Sales  
 and Service, 408 N. Main Street.  
 47-2tc Fri.

## Sanitation

Sanitation during the hot months is one of  
 the greatest problems that confronts the  
 merchant who handles food.

We have endeavored to make our shop as  
 perfectly protected as possible.

The shop is absolutely screened in and all  
 of our food is under a fly-proof cover.

Cleanliness, Quality and Service.

## HILL CREST CLUB TO BE FORMALLY OPENED JULY 1

Preparations Are Under Way For Reception In Afternoon and Dance In Evening—Members Will Invite Many Outsiders—Attractive Program Arranged By Committee.

Friday, July 1, will mark the formal dedication of Hill Crest Country Club and preparations are under way for a reception beginning at 4 o'clock in the afternoon, and a dance in the evening. Members have been granted the privilege of inviting numbers of their friends to both occasions and a large number of guests are expected.

In the afternoon a program of entertainment will be observed. Most of this will be musical in character. Mrs. John Brown and Mrs. W. N. Stokes will offer a violin and piano duet; Mrs. E. C. Christian will render a vocal solo; Mrs. C. J. Farrell will give a reading; Mrs. Wallace Huggins will render a piano solo; Miss Geraldine Parker will give a reading; Miss Enid McCarroll will play a piano solo; Edwin Lisman will sing a solo; and there will be a song by Miss Mildred Young.

### Will Decorate House.

The house will be profusely decorated in flowers. The house party will be made up of Mesdames W. O. Anderson, L. G. Hawkins, B. O. Brown, L. W. Campbell, J. E. Lutz, John Williams, and C. S. McColloch in the receiving line; Mesdames W. M. Schindler, Basil King, Tom King, and B. D. Flaniken will preside at the punch bowls, and Mrs. Joe Parker and Y. G. Babasin will direct the guests who enter the house.

A committee will be in each of the first floor rooms of the new club house for the purpose of directing guests and pointing out attractive features of the building. In the dining room will be Mesdames G. W. Backus, J. A. Dixon, and H. K. Greever; in the ladies' parlor Mesdames D. H. Henry, Wheeler Lundy, and Charles Ladd. In the kitchen will be Mesdames Homer Rogers, Willie Bennett, and A. C. Rayzor.

### Dance In Evening.

In the evening an informal dance will be conducted in the new club house, and music will be furnished by a local orchestra. The affair will begin at 9 o'clock. Punch will be served those in attendance. The entertainment committee consisting of Mesdames Luther Webb, Lloyd Sigler, Hub Colley, and Arthur Vernon will be assisted in receiving in the evening by Mesdames E. P. Hicks, Della Housells, Myatt Napier, L. E. Piper, W. K. Long, Dan Bond, and J. E. Dodson, Jr.

The new Hill Crest club house is considered one of the finest in this section of the State. Its location is especially favorable due to the natural setting provided at Condon Springs for a country club. The house is as yet unfurnished, although a beautiful Baldwin grand piano and Columbia talking machine are in possession of the club.

### BLAIR HONORED AT MEETING

Local Tax Collector Put On Legislative Committee At Fort Worth Convention.

C. M. Blair, county tax collector, was made a member of the legislative committee during the State convention of tax collectors held at Fort Worth last week. This body is composed of five men, and only two, including Mr. Blair, are from west Texas. Ben Golden of Amarillo is the other representative from this section of the State.

The honor coming to Mr. Blair is a signal one inasmuch as the legislative committee is entrusted with the formation of important regulations and measures forming the policy of State tax collectors. One of the most significant duties of the committee deals with highway legislation.

Mr. and Mrs. C. M. Blair returned Sunday from their trip to Fort Worth. While in the city they visited Mr. Blair's mother.

### Fourth of July Celebration.

Independence Day, the greatest day in American History, will be celebrated at Condon Springs as usual. The Declaration of Independence will be read publicly. Ball that evening and night and swimming and diving contests.

46-4p JAMES CONDON, Manager.

Mrs. A. B. Swartwood and Mrs. Hub Colley and son motored to Cleburne Wednesday.

John Storey returned Monday from a visit with the parents in Dallas.

Money on improved farms. Davis & Summerour. 87-tfc

Never trouble, trouble till trouble troubles you. Then go to Lutz & Schmoker's and get a set of Troubleproof tires for your car, then your tire troubles will be over. 77-tfc

## JULIA GERAGHTY TO WED AGAIN.

Mrs. Julia Estelle French Geraghty

Mrs. Julia Estelle French Geraghty, daughter of the Amos Tuck Frenches, of New York, and heiress to the French millions, who divorced her former chauffeur, "Handsome Jack" Geraghty, in 1919, is to be married again. Mrs. Geraghty made the announcement herself at Newport, R. I. Her second husband, she said, is to be Howard Williams, Boston insurance man.

### White City.

White City, June 20.—(By special correspondence.)—Crops are very good in this community, but several weeks of dry weather are needed so they may be cultivated. Some of the farmers have fine cotton and have it chopped and plowed, while others neglected the planting until after the rains, which will cause much late cotton. Corn is good. Wheat and oats are being harvested rapidly. Some is very poor, as the extended drought of a few weeks ago hurt the grain crop considerably. Almost every family is enjoying the benefit of good gardens. There are plenty of beans, potatoes, onions, beets, and cabbages while peas and cucumbers will soon be plentiful.

Many are canning peaches and plums this week. The fruit crop was shortened by the early freezes, but there are several orchards in this vicinity that are yielding well.

The White City Sunday School is progressing well. Everybody is invited to attend each Sunday morning at 10:30 o'clock. There is preaching every second and fourth Sundays at

eleven o'clock by pastor W. W. Adams. A large crowd enjoyed singing at the home of Rev. and Mrs. W. W. Adams Sunday night.

J. P. Starr is recovering from an extended illness.

A boy was born to Mr. and Mrs. R. L. Sellers, Sunday night, June 19.

Mrs. Clifton Starr has been very sick the past few days, but is improving today.

Luther Gauntt of the Tolbert community visited his parents, Mr. and Mrs. J. B. Gauntt at White City Sunday.

Mesdames W. W. Adams, J. H. Adams, Carrie Adams, Mrs. Luther Anderson and Miss Una Mae Adams visited Mrs. R. L. Olive and daughter, Murriel of Hank Hill Wednesday afternoon.

Little Glenn Knapp is improving slowly after being seriously ill for some time.

Seymour Dunson received some painful bruises while playing ball at Quanah Saturday, when he collided with another player. He was pitching for Chillicothe in a game played with Quanah.

Mr. and Mrs. Lee Coffey, and Mr.

and Mrs. Carrie Adams visited Mrs. M. A. Coffey Saturday night.

Tom Brannon is at home again after being away for several months.

Miss Ottilie Gauntt visited Miss Cora Lee Patterson Sunday afternoon.

Mr. and Mrs. Lee Armstrong and daughter, Ruth and Doris of Dooms, visited Rev. and Mrs. W. W. Adams Saturday night and Sunday.

Mrs. W. W. Adams and daughter, Una Mae and Mrs. Brannon visited Mrs. R. L. Sellers Monday afternoon.

Mrs. S. E. Floyd and children and Mrs. Perry White and children went on a plum hunt this week.

### Wife Helps

#### Elect Hubby

"After having been in bed half the time for a year with severe pains in my right side over the appendix, stomach trouble and bloating, which the doctors seemed unable to reach with medicine, and advised operation as the only remedy, my nurse advised me to try Mayr's Wonderful Remedy, and its results have truly been wonderful as I am now entirely well and strong, and at the last election worked hard to elect my husband." It is a simple,

## Fargo News

Fargo, June 23.—(By special correspondence.)—W. H. Olives is throwing this week.

Prof. R. S. Covey and wife of Harrold are visiting Mrs. Covey's parents. Mr. and Mrs. R. B. Richardson this week.

Miss Mitie Lee Allen left last week for Denton to attend the C. I. A. She has been visiting her sister Mrs. R. L. May.

Miss Bonnie Deal of San Angelo is visiting friends here this week.

There will be preaching Saturday night and Sunday, June 25 and 26, at the Christian Church. Elder Winn of Dallas will preach. There will also be singing in the afternoon.

Mrs. A. F. Hutchinson is quite ill this week.

Cecil Greene spent the week-end with Tommy Smith of Vernon.

Misses Dorothy Heath, Melba Ruth Pickens and Elsie O'Neal are visiting Miss Rita Holt Brennan in Childress this week. They will visit in Chillicothe as they return home.

Record classified ads bring results.

THIS MAN DREADED  
TO SEE NIGHT COME

Was So Restless He Couldn't Sleep  
And Daylight Was Always  
Welcome.

"With the exception of a little milk toast which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I actu-

ally dreaded to see night come as I could not sleep and was always too restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it.

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

Tanlac is sold in Vernon by Ferguson Drug Company, in Odell by R. J. Belcher, in Harrold by Wilson Drug Company and leading druggists everywhere.

EATING HOUSE

"Young man, what do you mean to be?"

Take time—consider. You are the designer; you must select the pattern for your future. A hasty start won't hasten success. Each time you change your mind and shift your occupation you must relearn and re-earn. Until you elect a definite course, you must accept guidance.

Every successful man's advice to-day, is, "Save your Money." Heed it. Start today.

Saving  
makes  
men!

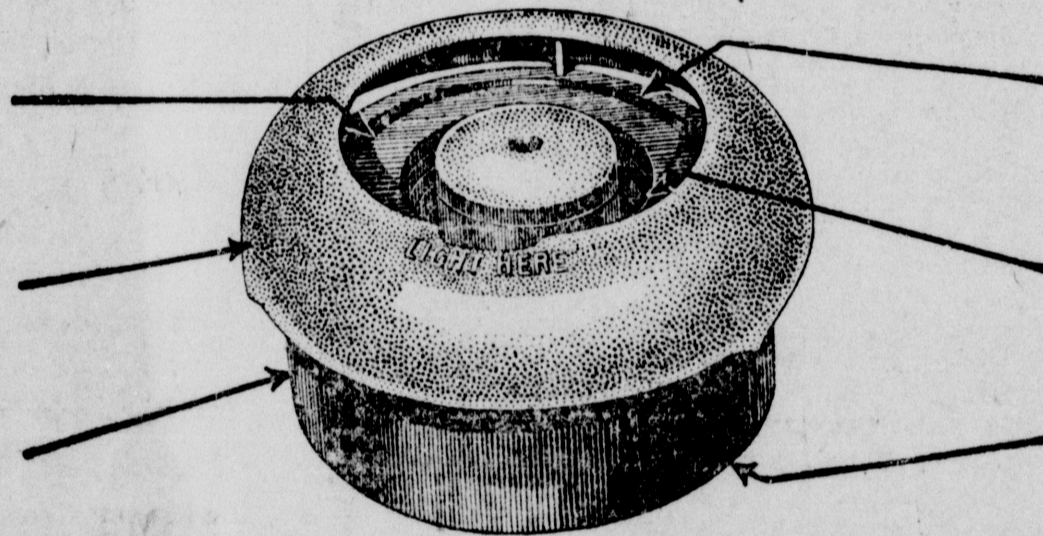

THE FARMERS STATE BANK  
VERNON TEXAS

Red Star Burners have no wicks or wick substitutes. Fuel is vaporized into gas, giving a clear, blue flame.

Heat condenser is an inverted cone-shaped casting which holds the heat and forces it to strike a mesh squarely.

Burners are made from solid grey iron castings annealed to withstand heating and cooling; last a lifetime.

Double ring flame of intense heat directly under cooking. Burns all the fuel without smoke or smell.

Castings fit in place without fastening. Easily taken apart for cleaning. Seldom needs any attention.

Fuel flows directly into the double vaporizing rings and is mixed with air to give perfect blue flame.

## YOU NEVER SAW A BURNER LIKE THIS

Cooking efficiency on any oil stove depends upon the burner. Construction gives beauty and ruggedness and convenience. But the heat you can get and the way you can regulate it depends upon the burner.

Oil stove progress is expressed in its most convincing form in the Red Star Burner. This wonderful burner is the primary cause of Red Star Success. It is an achievement which has made the oil stove a national success.

Due to this burner, real heat is now a fact in an oil stove. No housewife need put up with a medium heat from her stove. No woman need deny her home the good things that require intense heat to cook. This burner requires no wicks. It uses no asbestos rings or wick substitutes of any kind.

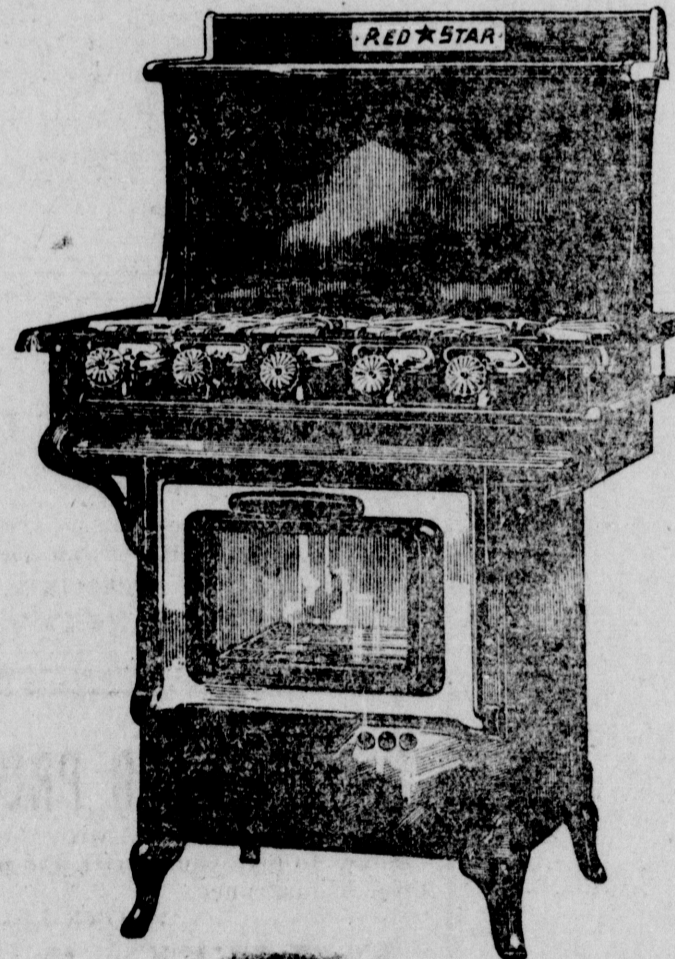

The Red Star Burner gives two rings of hot blue gas flame instead of the usual one. In addition, the burner becomes red hot and adds this steady heat to the double ring of flame.

A feature which pleases all women is the extreme durability of the Red Star Burner. It is made of grey annealed iron and weighs 8 1-2 pounds when assembled.

It is easily kept clean. This big strong burner lasts for years. There is nothing to replace—nothing to get out of order.

And besides producing such wonderful heat, it saves 25 per cent of your fuel.

Come in and see a complete demonstration of this wonderful burner in the Red Star Stove.

No. 381  
An Ordinance Regulating the Parking of Trucks, Wagons, Floats, Drays and Other Vehicles Used in the Business of Hauling and Transporting Freight for the Public for Hire as Common Carriers and Providing Adequate Penalties for the Violation Thereof.  
Be it Ordained by the City (Commission) of Vernon, Texas:  
Sec. 1. It shall be unlawful for any person driving, using or operating any Truck, Wagon, Float, Dray or other vehicle within the City of Vernon engaged in the business of hauling or transporting freight for the public for hire to park same at any point on Main street between the North line of Marshall Street and the South line of Maiden street, or at any point on Wilbarger street between the East line of Faulth street and the West line of Cumberland street, or at any point on Pease street between the East line of Faulth street and the West line of Cumberland street; provided this ordinance shall not be construed so as to prohibit any such vehicle from being stopped or parked for a reasonable time while actually loading or unloading freight.  
Sec. 2. Any person who shall violate any provision of the foregoing section shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not more than two hundred dollars.  
Sec. 3. That this ordinance shall take effect from and after its approval and publication.  
Witness my hand and seal of said City, this 15th day of June, A. D. 1921.  
Attest: S. H. HALL, HARRY MASON,  
City Secretary Mayor

## Dance At Mason Home.

About forty-eight young people enjoyed a dance at the home of Mr. and Mrs. Harry Mason last night. The orchestra which came to play for the Elks dance Wednesday night furnished the music.

## Department Buys More Hose.

Eleven hundred feet of new hose was ordered Thursday by the Vernon fire department. It is of standard size, and will bring the total amount of such equipment possessed by the local force to about 2,700 feet.

MAKE CUSTARDS AND WHIPS  
WHEN EGGS ARE PLENTIFUL

Eggs Form Basis of Many Delicious Desserts—Simple Dishes of This Type Are Nutritious and Easily Digested—How to Make Several Kinds.

In early spring and summer, when eggs are plentiful and cheap, the thrifty among the housekeepers utilize plenty of them for desserts. When this is done, the rest of the meal does not need to be quite so "hearty."

The following recipes are recommended by food specialists of the United States Department of Agriculture:

## Soft Custard.

1 cup milk, 1-4 teaspoon vanilla, 1 egg, 2 tablespoons sugar, 1-16 teaspoon salt.

Heat the milk in a double boiler. Mix the eggs in a bowl with the sugar and salt. Add hot milk slowly, stirring, and return mixture to the double boiler. Cook until custard will coat a silver spoon. Strain and serve. If the custard curdles, set the pan into cold water and beat the custard until smooth.

## Steamed or Baked Custard.

1 pint milk, 2 eggs, 1-8 teaspoon nutmeg or cinnamon, 1-4 cup sugar, 1-8 teaspoon salt.

Mix eggs as for soft custard. Strain into custard cups and steam until firm over hot water, which is boiling gently. To bake, strain the custard into cups and place in a pan of warm water. Bake in a moderate oven until the custard is firm. To test a steamed or baked custard, slip a knife blade to the bottom of the cup in the center of the custard and draw out without turning. If the knife is not coated the custard has cooked enough. Grate the nutmeg over the surface and cool before serving.

## Floating Island.

1 quart milk, 1-4 teaspoon salt, 1-2 cup sugar, 5 eggs (yolks), 1-4 teaspoon vanilla.

Prepare as a soft custard. The whites should be beaten light and 2 tablespoons powdered sugar added for the meringue. When the custard is cool it may be poured into sauce dishes and the meringue dropped in large spoonfuls into it.

## Custard Pudding.

1-2 cup pearl tapioca or rice, 2 eggs (yolks), 1-2 teaspoon vanilla, 1-2 cup sugar, 2 cups milk, 2 eggs (whites), 1-8 teaspoon salt.

Soak the tapioca in enough cold wa-

ter to cover it until it absorbs the water. Add the milk and cook in a double boiler until the tapioca is soft and transparent. Combine the yolks of eggs with sugar and salt and add to the mixture in the double boiler. Cook until it thickens. Add stiffly beaten whites and flavoring, and when cold serve. Rice must be cooked in boiling water until soft.

## Apple Whip.

2 cups apple sauce, 3 eggs (whites), Cream for serving.

Cook 6 or 8 medium-sized tart apples until soft in just enough water to keep them from burning. Add sirup to sweeten sufficiently and one-eighth teaspoon grated nutmeg. Cool. Press the apple sauce through a strainer and add to it the stiffly beaten whites of eggs. Beat until light and foamy. Pile onto saucers and serve with fresh cream or a custard sauce made of the egg yolks. This sauce may be prepared by the same method as for soft custard, omitting the whites of eggs. Canned fruit, such as peaches, figs, cherries, or guava may be substituted in the same proportion for the apples.

## THESE ARE FIGHTING TIMES

There was a time when business came without courting—now it means a fight, and a good stiff one, to bring home the bacon.

And how many are really fighting—how many are using all legitimate weapons to get what business there is and to be in position to reap the harvest when it comes, as it surely must and will?

## ARE YOU ONE OF THE FIGHTERS?

Are you really satisfied with the effort you are putting forth to get more business and to hold what you have?

One time Sapolio was the most widely used cleaning compound offered and sold on the America market. Today—try to buy a package.

Sunny Jim used to be a familiar personage in every day life. Ever hear of him now?

And there are thousands of other examples where manufacturers, jobbers, and retailers thought they needed no further publicity for they were so well known. They became satisfied. They stopped progressing and started slipping.

## ARE YOU ONE WHO IS SLIPPING?

Some argue both ways. When business is good "what's the use of advertising?" When business is bad "what's the use of advertising?" And yet consistent and persistent advertising has made and held the big business of the world—and history keeps repeating itself.

## ARE YOU MAKING THE MOST OF THE PRESENT SITUATION?

Are you drawing in your horns and mistakenly waiting until times get better or are you "hitting the ball," fighting from every angle, making the most of the situation, making today pay a little more than today's cost? Are you really doing all that you can to make things better or are you encouraging the present conditions by falling into the same sleep that you condemn in others? Be honest with yourself—what's the matter with you?

## STIMULATE YOURSELF AND YOUR BUSINESS THRU ADVERTISING.

Take advantage of every possible way of making good with your customer and the many more who will be attracted to you when you come alive—while the other fellow keeps sleeping. Use every form of advertising that will hook you up with what business there is now and what the future holds in the way of increased business. Be ready and waiting for the change.

## USE NEWSPAPER ADVERTISING

There is no form of advertising offered any business man which returns as big results for the amount INVESTED as in newspaper advertising. It is not possible for you to reach so many, hold their attention at a time when they are in a mood for reading in their own homes, at anything like the low cost of newspaper advertising.

## USE DIRECT MAIL ADVERTISING

Fight for business with the same weapons that the successful mail order houses fight for it—and get it. Use direct advertising. Use it frequently and effectively. It costs more than newspaper advertising but it's good.

## USE ADVERTISING NOVELTIES

Please the child and you get the good will of the parent. The use of effective novelties bought locally, with the high commissions and traveling expenses of the peddler eliminated offers a fine opportunity of getting into the home and staying there with your message. The novelty may be in the form of some useful article for the mother, the father, or the kiddies, yet each will appreciate it and appreciate your giving it.

## ALL THESE ARE GOOD AND WE OFFER YOU ALL

The Record is equipped with the necessary firearms for you to do your business fighting—all cocked and primed to go. If its newspaper advertising we offer a medium of real conveyance. If its direct advertising our job presses and ideas of better printing are waiting for you to say the word. If its advertising novelties, calendars, blotters, or similar worthwhile articles we offer the largest showing ever brought to this part of Texas, minus the sting of the traveling expense and high commissions of the peddler.

## USE US FREELY—USE US OFTEN

We are ready to serve you with ideas and with the goods. Let's go. Let us help you wake up—and together we will awaken the other fellow—or at least be ready for him when he does awaken.

Call 171 for "Consultation."

Christian Endeavor at 7:15 p. m.  
Prayer meeting Wednesday at 8 p. m.

### Christian Science.

Services are held every Sunday morning at 11 o'clock in the City Hall auditorium.

### HAS BUMPER CABBAGE YIELD.

Mrs. R. D. Hurt Sells \$30 Worth From Twelve Short Rows And Supply Continues.

"You can't grow cabbage in Wilbarger county" was the warning given Mrs. R. D. Hurt, when she and her husband moved here from North Texas about three years ago. Mr. Hurt paid \$250 an acre for his farm 2 miles west of Vernon.

But Mrs. Hurt was not discouraged. She believed cabbage would grow, and her experience has proven true her theory. "It just takes careful preparation of the soil and the right sort of cultivation," Mrs. Hurt says. "In fact, I have never found anything old Wilbarger wouldn't grow," Mr. Hurt added.

This year Mrs. Hurt has twelve rows of cabbage about 30 feet long. From this patch she has sold \$30 worth of cabbage and in addition thereto has put up a liberal supply of kraut and chow chow for winter use. Mrs. Hurt's supply of cabbage seems little diminished. Yesterday she brought two immense heads to The Record—as fine specimens as the editor has ever seen.

Mr. and Mrs. Hurt practice the policy of living at home. They grow their own vegetables, chickens, pork, milk, butter and fruit.

### Golf Finals This Afternoon.

Finals in the Hill Crest Country Club golf tournament were scheduled to be played off this afternoon when Jed Morrow meets Hub Colley in an eighteen hole match. Colley enters the finals by virtue of the default of E. C. Christian who was unable to meet him in the semi-final round because of pressing business. The winner of the match this afternoon will receive the L. K. Johnson trophy, a golf club.

### Bear Performs On Court House Lawn.

A black cub bear used as an advertisement for a picture Thursday at the Pictorium amused countless spectators on the court house lawn yesterday. Bruin wrestled with the boys in the crowd, climbed trees, and in other ways performed antics that kept those present cheering and laughing most of the time.

### Dr. J. G. Sherman

DENTIST  
210 Wagoner National Building  
Phone 100

## SOCIETY BEAUTY FILES SUIT FOR DIVORCE.

Mrs. Angier Buchanan Duke, beautiful young society matron, of New York and Philadelphia, has filed suit for divorce against her millionaire husband, asking \$100,000 a year alimony. Although the action was not entirely unexpected, society was shocked. The charges made by the young society woman are kept secret. Mr. Duke is the son of Benjamin N. Duke, "American tobacco king." Mrs. Duke is the vivacious daughter of Major Anthony Drexel Biddle, millionaire sportsman and society man. The couple were married in 1915 and have two sons. It is reported that Mr. Duke will not contest the action and will not dispute the young mother's custody of the boys.

### HINDS WOMEN ORGANIZE HOME DEMONSTRATION CLUB

The ladies of Hinds spent a delightful afternoon at the home of Mrs. O. H. Muller, June 14, as guest of the girls' demonstration club.

With Miss Eula Goodfellow acting as chairman, a woman's club was organized, called the Home Bureau of Hinds. They will meet the second Tuesday in each month at 2:30 o'clock. The officers are: Mrs. A. D. Anderson, president; Mrs. Claud Muller, vice-president; Mrs. J. R. Caldwell, secretary-treasurer. The girls' club served delicious fruit salad and cake of their own making.

Both clubs will meet with Mrs. Anderson July 12, for a demonstration of jelly making, after which they will enjoy the sport of bathing and swimming in the Anderson lake.

### FARMER EAST OF TOWN HAS BLOOM OF COTTON

H. B. Cox, living on the W. S. Lundy place five miles east of town, has produced the first cotton bloom that has come to the attention of The Record office this season. The blossom is well developed and indicates that the cotton will be of an excellent grade.

Mr. Cox has thirty-five acres in cotton, and last year had fifty. It is planted in sandy soil. Two years ago the Wilbarger county farmer received the premium offered by local merchants for the first bale of cotton.

### Want Harvest Hands.

White Beer, Texas is clamoring for harvest hands, according to a communication received by the local Chamber of Commerce. White Beer is in Carson county, north of Claude.

## CHILLICOTHE AND VERNON GET EDUCATIONAL QUOTA

Chillicothe and Vernon Methodist Churches have pledged their quotas to the \$33,000,000 Educational Fund to be paid in the next five years. Chillicothe's quota was \$5,745. The pledges amount to \$6,122.50.

The Vernon Methodist Church pledged their quotas are Quannah, Crowell, Margaret and Dumont.

O. A. Brunson and K. B. Gibson are in Crowell today.

## CHAUTAUQUA JUST CLOSED CONSIDERED ONE OF FINEST

Seven Day Performances Well Attended and Town Is Complimented On Its Enthusiastic Support—Final Days Offer Exceptional Programs—Plans Made for Next Year.

The seven day chautauqua which closed in Vernon Thursday was considered by many who have witnessed past performances of this character to be probably the finest of any of its predecessors. Entertainments from the start, both afternoons and evenings, were well attended and the management of the chautauqua enthusiastically commended local townspeople for their whole-hearted support. Talent appearing here was also profuse in its appreciation of the responsive audiences.

Tuesday the Glenn Wells and Mue, Selivanova, entertained in the afternoon and Dr. Ng. Poon Chew and the Glen Wells Company in the evening. Mue, Selivanova, who is a Russian described her harrowing experiences in that great country when the Bolsheviks began their drive against nobility. Her story was told in a straightforward, entertaining style that held the rapt attention of her audience at all times.

### Wells Company Pleases.

The Glen Wells Company presented delightful little dramas that touched the hearts of all who witnessed them. The best of these was "Atonement," presented in the evening. These artists complement one another beautifully and their offering was very well received.

The sixth day was considered by many chautauqua goers as offering the most attractive programs of all the entertainments. The Philharmonic Orchestra, composed of ten young ladies, entertained the audience in the afternoon in connection with Miss Clarissa Harrold, reader, and in the evening the orchestra performed alone. Both music and readings were of a high order, and those who participated showed excellent training and far more than average ability.

The singing of a quintet of the girls, and a stringed quartet were especially fine offerings on the part of the orchestra. Miss Athel Lindorff, harpist, also played several delightful selections.

Montague Light Opera Singers and Hon. John Tangle Graves offered the program for the last day of the chautauqua. The singers rendered numbers of delightful interpretations from musical opera, and their singing was of a high order.

### Plan Association.

Those in charge of bringing the chautauqua here next year are planning for a different sort of organization to handle the entertainment. In all probability, a chautauqua association will be formed, the members to be those who signed the guarantee. A concerted effort to sell season tickets will be begun earlier than usual. Those promoting the chautauqua will impress local patrons that the entertainment in no way is being staged by Vernon individuals, but is strictly under the direction of the company bringing it here. According to workers, there often exists the impression that patronage of the chautauqua is a favor to the guarantors of the city and means money in their pockets.

Those who have signed the guarantee for next year are R. D. L. Killough, M. V. McDougal, J. W. Wheatley, O. T. Wardick, O. H. Jackson, J. A. Shaffer, A. P. Howard, Mrs. J. L. Swartwood, Tom Loran, C. A. Kressen, J. H. Pendleton, O. L. Pearson, F. M. Taylor, Steve Mayall, T. L. Rouse, W. N. Stokes, C. S. McCulloch, Buford O. Brown, Gus Ramage, W. C. Baker, B. F. Holcomb, E. P. Robertson, Miss Ida Baker, E. G. Gross, C. K. Smith, E. W. Cobe, L. P. Kramer, Paul Goetze, William Cutchfield, J. T. Glover, C. V. King, J. B. Ross, E. B. Owen, and Mrs. C. J. Farrell.

### Ford Roadster Is Stolen.

A new Ford roadster belonging to W. B. Antle was taken Wednesday night from its parking place before the home of Rupert Sewell on North Main St., where Mr. Antle resides. The theft was not discovered until morning. The car was valued at \$1,000.

## WHEAT MAY YIELD HIGHER THAN WAS FIRST ANTICIPATED

With Threshing Under Way It Is Found Production Is Greater Than Early Estimate—Some Smut Is Found in Grain Cut First—Farmers Marketing Quickly.

Wheat is expected by many closely interested in Wilbarger county farming to yield a higher average this season than was at first expected. With harvest practically over everywhere and threshing well under way, many farmers who were expecting nine bushels to the acre are getting twelve, and others who anticipated twelve are getting fourteen and fifteen.

A little smut has been found in the wheat but on the whole it is threshing out well. Wheat harvested last is in the best condition. Grain that was in the shock was damaged somewhat by the heavy rains and is not in the best of condition.

### Are Marketing Quickly.

There is a marked tendency on the part of Wilbarger county farmers to market their wheat as soon as it is threshed. Several causes contribute to this movement, the chief of which is the tight money market. Many agriculturists are in need of ready cash, and embrace the present market as a means of affording it.

Dampness in the wheat is another reason why farmers wish to dispose of it as quickly as possible. In the event that it is stored in granaries there is the danger of steaming and consequent spoiling.

The present price of wheat is also pretty generally satisfactory in its relation to other farm products. There is some apprehension on the part of farmers lest the scale sink still lower, and many are desirous of taking advantage of the present market before this occurs.

### Yield About Same.

Number one wheat has been marketed this week in the neighborhood of \$1.15 per bushel. Last year the price was twice this amount. Average this year in Wilbarger county has been from fifty to sixty per cent larger than last, but the yield will be considerably smaller per acre. In view of this fact the total production is expected to be only a trifle larger this year. A safe estimate at the present time is that Wilbarger wheat will average close to twelve bushels to the acre.

Results of the hail that occurred in the northern part of the county about two weeks ago are now clearly evident. Wheat is sprouting up around the shocks and mesquite trees are quite bare.

### RING SIDE SEATS JULY 4.

Prices for Boxing and Wrestling Exhibitions Here Will Range From One Dollar To Fifty Cents.

Ring side seats will be one of the features of the boxing and wrestling carnival that will be staged July 4 by the Vernon Athletic Club. Accommodations for a considerable number of spectators will be provided in this manner.

Prices have been announced at one dollar for ring side seats, seventy-five cents for half the grand stand, and fifty cents for the remainder of the seating space. A large crowd is expected by the management.

Local lads who will appear in preliminaries, are already hard at work in preparation for their contests. No definite arrangements for a ball game have as yet been made by the local post of the American Legion.

### Electra Docks Through Vernon.

Dockies of Electra, a fraternal body, passed through Vernon Wednesday morning on their way to Frederick, Okla. for the ceremonial staged in that city Wednesday. The lodge members were held up here for some time while arrangements were made to reach the Red River bridge over which the Frisco travels. A washout of this structure prevented the running of trains, and the trip was made that far by automobile. The members were met on the other side of the river by Frederick Dockies.

### Kriser Bridge Washes Out.

Two crippled boats in the Frisco Red River bridge interrupted service on that line end of Vernon Wednesday and Thursday. This bridge has given the railroad company considerable trouble during the past year through washouts.

MRS. CARNEGIE HONORED BY NEW YORK UNIVERSITY.

Mrs. Louise Whitfield Carnegie, widow of Andrew Carnegie, receiving the honorary degree of Master of Humane Letters at the New York University commencement exercises. Chancellor Elmer Brown is shown handing the degree to Mrs. Carnegie. Mrs. Finley J. Shepard and Secretary of War Weeks, shown at the left, also received letters.

## URGE CLEANUP TO STOP MOSQUITOES

HEAVY RAINS AID MATERIALLY IN INCREASING NUMBERS OF PEST LOCALLY.

There is now more than ever a need for caution on the part of townpeople in guarding against breeding places for mosquitoes, according to several local physicians. Heavy rains of the past weeks have encouraged tremendously the multiplication of these insects, and they are especially annoying in Vernon at this time.

Tubs, broken crockery, discarded tins and other litter offer the most favorable breeding places for mosquitoes, in the opinion of Dr. H. H. Rhoads, county health officer. Long grass, too, is a favorite haven of the insects.

"If each person will exercise great care," said Dr. Rhoads, "in keeping his premises cleaned thoroughly, mosquitoes will not be nearly so annoying. Mosquito grass is an especially sought after refuge by these pests, and unless it is kept cut short will serve to greatly increase their numbers."

The mosquito in town can be largely eliminated if some of these precautions are observed, according to the county physician.

## MANY FRIENDS ATTEND FUNERAL OF DROWNED GIRL

Funeral services for Miss Agnes Gelhausen were conducted from the family residence on South Main Street Wednesday morning at 10 o'clock with great numbers of the girl's friends in attendance. The principal sermon was preached by Rev. J. A. Birnbaum, and a short talk was also made by Rev. W. T. Rouse. Pall bearers were Messrs. Aubrey Foster, Frank Wood, Sam Napier, Ed Krebs, Walter Teibert, and Ernest Lehman.

Out-of-town relatives and friends in attendance were Mrs. Roy Watkins, Bowler; Mr. and Mrs. W. F. Claer, Wichita Falls; Mr. and Mrs. Ray Morris, Wichita Falls; Mrs. H. C. Luecke and family, Wichita Falls; D. K. Glass, Denison; Mr. and Mrs. E. O. Steinhilber, Electra; Mr. and Mrs. Carl Morris, Harrold; Mr. and Mrs. Corey and Mr. and Mrs. Fred Little of Harrold; Mrs. B. C. Wood and family, Mrs. M. Brock and family, Mr. and Mrs. H. Wood, Rev. and Mrs. R. V. Tooley and family, and Mr. and Mrs. C. Brock all of Tolbert.

Directors Will Meet Tonight. A joint meeting of senior and junior directors of the Chamber of Commerce will be held this evening in the rooms of the local commercial organization for the purpose of hearing the report of Everett Haney, representative last week at the national convention of Junior members in Dallas. The meeting will be held at 8 o'clock.

### Not To Use Air Domes.

The Central Christian Church will continue to have services in the chapel building and will not use the air dome for Sunday nights as it was announced last week.

## OUSLEY INDORSES COTTON POOL PLAN

SUPPLY NO MORE THAN NEEDED BY MILLS, FORMER A. & M. MAN SAYS.

Dallas, Texas, June 24.—Appealing to the bankers and credit merchants of Texas to save themselves and their farmer debtors from disaster through the annual dumping of the cotton crop, Clarence Ousley, formerly director of extension work of Texas A. & M. College is urging support of the cotton pooling plan of the Farm Bureau Co-operative Cotton Growers' Association.

"The break in cotton prices is fair warning of what may happen to us in marketing the surplus we are carrying over and the new crop we are bringing in," Mr. Ousley says. "The bankers and credit merchants of Texas have it in their power to avert a disaster which looms ominously, for the cotton will not pay the debt due on it."

### Waiting For Dumping.

"The mills have neither the disposition nor the credit resources to buy within the first three or four months of the season all the cotton they will need for a year, though the surplus and the new crop will not be more than they will need for consumption and reserves. They are calmly waiting for us to commit the annual folly of dumping. Making the allowance for the cotton on hand and the maximum yield upon the present reduced acreage, and estimating the slowest conceivable increase of demand, it is perfectly plain that the supply of 1921-22 will show no ponderable surplus. Hence judicious marketing throughout the cotton year is bound to bring better average prices than hasty marketing within four months."

"It is vain to advise farmers, acting singly, to market gradually. It is hazardous to advise them to hold."

### Pooling Only Wise Course.

"The only wise course is to pool the cotton, to sell some of it every week—every day—as the mills can take it through nine or ten months, instead of three or four months, and to save \$15 or \$20 a bale heretofore lost to the farmer in waste and graft."

"The business farmers of Texas are trying to organize for merchandising of cotton through a co-operative association which will save waste and insure the average economic value of cotton. They mean to employ sales managers of high skill and unimpeachable character. Their cotton will not be dumped; it will not be held; it will be merchandised, as dry goods and groceries are merchandised, every day, every month, and debts will be reduced every day, every month, as merchants and manufacturers reduce debts."

### Will Save Waste.

"The cotton will move through the same transportation channels heretofore used, it will be entitled to the same banking credits at primary markets, at concentration points, at the ports, because it will be the same commodity and will be in the hands of the same shippers and forwarders."

## DISTRICTS CALLING SCHOOL ELECTIONS

COMMUNITIES WISH TO MEET OWN NEEDS IF STATE AID FAILS.

A petition has been presented by Elliott school district number 32 requesting the calling of a special school election. This will be for the purpose of submitting to the voters the proposition of increasing the school tax from fifty cents to a limit not to exceed one dollar.

James district 44 has an election pending for the same purpose. Lockett school district 11 has ordered a similar proposition submitted to its tax payers and voters.

These projects are being carried out so that in case there is no State aid forthcoming during the next year, these individual localities will be enabled to care for their needs with their own funds. County Superintendent of Schools J. N. Fulcher is still hopeful that help will be offered by the State. The bill providing such aid was vetoed at the last regular session of the legislature, but Governor Neff has indicated that it will be reconsidered and that the measure will be the second submitted to the called session July 18.

## CHILLICOTHE BEATS VERNON IN GAME LAST WEDNESDAY

Vernon's town baseball team was defeated at the fairgrounds Wednesday afternoon by Chillicothe 3 to 2 in a game characterized by much wrangling. The locals were unable to play concerted ball, and garnered but three hits off the opposing pitcher, McAbes, of Wichita Falls. The visitors hit Vernon pitchers rather freely. There were few errors made on either side.

Delmas, and Teat did the honors from the mound for Vernon, and Gilliland caught. Vernon and Chillicothe have each won two games of the four played this year.

### Wheat Moving Slowly.

Wheat is as yet moving slowly, according to advices from the Kell Mill, and no rush of business is expected for several days. Wet weather, it is said, has hindered materially the advancement of harvest and threshing. Some grain is being hauled to the elevators.

any now in the trade.

"This organization will not perform any price miracle; it will not suspend the law of supply and demand. It will merely save waste, stop graft and avert the terrible depression of autumnal dumping."

### Must Act Now.

The crisis is just ahead of us; we can pass it safely if we are wise and if we act resolutely. If we falter, if we allow ourselves to drift, I fear that the worst is yet to come."

"I make this final appeal to the bankers and credit merchants of Texas to save themselves and their farmer debtors while they can. It will be too late when the dumping begins, for the merchants will be ruined."

## BELIEVES CHANGE IN CHINA IS ONE OF AGES' MARVELS

Dr. Ng. Poon Chew Says Transformation From Monarchy To Republic In Land Of Yellow People Never Before Equaled In History—Dwells On Japanese Menace To World.

"I have spoken before audiences representing many of the world's nations, I have traveled extensively in the countries representing these nationalities, but I have never addressed any people with the extreme pleasure it gives me to talk to an American audience," said Dr. Ng. Poon Chew, the noted Chinese editor and lecturer, in his address at the chautauqua Tuesday night. Dr. Chew complimented Americans on their responsiveness, their generosity, and the feeling they express.

The transformation of China from a monarchy to a republic the editor regards as one of the marvels of the ages. He traced the causes of this change from earliest beginnings and gave to the Chinese people a personality it is safe to assume seldom attributed to them by the outside world.

### Vast Size of China.

The vast area embraced by the United States is not nearly so large as China, Dr. Chew declared. It would require the United States, Mexico, and part of Canada to equal the territory embraced by the Orientals. In this great domain more than four hundred million people live.

The history of China is one of forty-five centuries, the audience was told. The yellow race is tied to the past by a long string of traditions, and breaking away from these is the Herculean task of the nation. China's evolution from the ignorance of the past has come through the efforts of the missionaries, Dr. Chew declared. Today thousands of Chinese boys are coming to the United States to pursue studies in the schools and universities of this country and then return to their native land. The education they are receiving in this country is making them dissatisfied with their former environment, and many are again emigrating or attempting to remodel their home land.

### Wanted Republic.

During the revolution in China, the lecturer said, friends of the revolutionists endeavored to persuade the leaders to model their government, after the form of England. The consensus of opinion, however, favored the establishment of a republic like that of the United States and it is this kind of rule that exists in China today.

"I believe that China can work out her own destiny if permitted to do so," Dr. Chew told his audience. "As yet she has had no chance. It will be a long and tedious process."

Comparing China and the United States, the Chinese editor declared that the people of this nation do not realize what a land of milk and honey they live in. Hard times such as exist in the United States at present would be a time overflowing with blessing and riches in China. There are one hundred fifty million people living in the area affected by the drought, and more have died in the last two years than were claimed by death during the great World War. Dr. Chew appealed for aid for these sufferers, pointing out that only three cents a day is necessary to sustain life in one individual.

### People Are Conservative.

The extreme conservatism of the Chinese people was blamed by the lecturer for the slow development of his nation. The change cannot be made all at once or "while you wait," he said, as the old monarchistic ideas are still clinging to with a dogged persistency.

The process of Chinese education was explained to Vernon people, and the lecturer stated that the old system has been most strict. Until a short while ago Chinese children started to school at 4:30 in the morning and attended until late in the evening. Their text books were the same as those studied by Confucius many centuries before Christ.

Customs in China are changing now, those present were told. Education is teaching the brotherhood of man and the time is coming when this principle will be universally recognized.

### China Being Recognized.

The Americanization of China is progressing surely, said Dr. Chew, and indications of this can be seen on every hand. The editor mentioned an even-

## J. C. MORRISON DIES THURSDAY WHILE IN DALLAS

Local Oil Man Taken To Hospital Wednesday Following Severe Attack of Stomach Trouble—Was Interested In Oil Acreage and Formerly Manager Of a Gin Here.

J. C. Morrison, for nearly seven years a resident of Vernon, died Thursday morning in the Baptist Sanitarium of Dallas after a critical illness lasting one day. Mr. Morrison was taken from a hotel to the hospital Wednesday following an attack of stomach trouble which ended in his death. He was 47 years old.

J. C. Morrison was manager for two years of the Harris-Irby gin in Vernon and has since been engaged in the oil business. His holdings embraced acreage at Wichita Falls, Graham, Breckenridge, and Iowa Park. Several local men were associated with Mr. Morrison in his oil business.

### Highly Thought Of.

Mr. Morrison came to Vernon six or seven years ago from Oklahoma. He made many friends here and was highly thought of by all who knew him. He was a member of the Odd Fellows' Lodge. Mr. Morrison is survived by his wife, four daughters, and a son. The daughters are Misses Lois, Bernice, Nettie Mae, and Mary Virginia. The son is Roy Morrison.

Funeral services were conducted at 3 o'clock this afternoon from the residence at 412 East Main St. Rev. S. W. Hayne preached the sermon, and the ceremonies were in charge of the local I. O. O. F.

## SEYMOUR TO STAGE BIG CELEBRATION JULY 4

A two day celebration honoring the official opening of Seymour's sixty-two acre park, bathing pool, and children's playground will be staged in that city July 4 and 5 and elaborate preparations are being made by the Baylor county metropolis to outdo itself in the matter of free barbecue, swimming and high diving, and boxing contests.

Free automobile camping grounds will be provided visitors. The general public is invited to the Seymour entertainment.

but spent in China several years ago when he was the guest of honor at a gathering of Chinese men and women who had formerly attended schools in this country. All were attired in conventional American evening clothes, he said, and during the entire affair no other language but English was spoken. Those present even enjoyed an American dance. One certain indication of American influence, he said, is the spectacle of small Chinese boys chewing American gum.

The Japanese menace was dwelt upon at length by Dr. Ng. Poon Chew who branded the neighbors of his country as the "Germany among nations." Japan is aggressive, he said, and has closely modeled its government after that of Germany under the regime of Prince Bismarck. The present Japanese constitution is closely modeled after that of the old German empire, he said.

Japan has a two-fold policy, the speaker asserted. First, she is gathering gold for the establishment of a tremendous navy; and secondly, she is attempting to transform herself from an insular to a continental power. To do this it will be necessary to absorb China. A defeated Japan, Dr. Chew said, will result from the mass of "broken China" within her.

### Shantung Deal Injustice.

The Shantung deal as arranged by the chautauqua speaker as a great injustice. China contributed fully as much to the World War as did Japan, he said, and should not have been denied this province. He declared that Japan is today responsible for at least eighty per cent of the internal troubles in China just as Germany was responsible for the great outbreak in Russia.

China has great confidence in American Dr. Chew said in closing. The love of fair play and liberty which characterizes this nation has won the respect of the people beyond the Pacific. China is looking to this country to lead it out of darkness, and to awaken that spirit that will mean new life and new hope for all those millions of people.

## GO TO THEATRE

At the Pictorium.  
Today and tomorrow—Constance Talmadge in "Lessons in Love."  
In this play, which is adapted from the stage play, "The Man From Toronto," Constance has the role of Lella Caliborpe, a young and winsome heiress whose elderly guardian "conspires" with the family lawyer to marry her to a man she has never seen. Kenneth Harlan, who appeared with her in "Dangerous Business," is again her support. It is a wholesome, human story and, according to reports, is the best Connie has ever done.

Monday—George Walsh in "Dynamite Allen."  
The father, Sid Allen, is sent to jail to do reparation for the crime of another man. The son, "Dynamite," played by George Walsh, seeks to avenge the wrong against his father and bring about his vindication. He accomplishes this at the risk of stirring broils and interruptions. They include a safe fight from which he rescues the girl whose return to the community has important bearing upon the crime secret; an episode wherein he drives an engine over a divided trestle, and his rescue of his family from the hands of criminals.

At More's Theater.  
Today—Marion Davies in "The Restless Sex."  
The story centers around Stephanie Cleland, adopted daughter of a rich New Yorker, who has a great craving for excitement. Her restlessness leads her into a loveless marriage from which a real romance and a turn of fate extricate her.

Saturday—Buck Jones in "The One Man Trail."  
This is another of Buck Jones' cowboy pictures, the ninth he has made for William Fox, who discovered him following his trade as a real cowboy and made an actor of him.

Monday—William S. Hart in "The Testing Block."  
"Sierra" Bill fights seven men of his hand to save Nellie from their embraces. Then under the influence of liquor, he forces her to marry him. She learns that in his heart he is a real man and in making for her a real husband he finds his "testing block." Eva Novak heads the supporting cast.

## IN SOCIETY

**Celebrates Fourth Birthday.**  
Mrs. Luther Webb entertained a number of little folks in honor of her daughter Dorothy's fourth birthday this afternoon at her home on West Paradise street. Punch was served the guests during the play hours and later in the afternoon they were given ice cream and birthday cake. Those present were Mary Jeanette Bennett, Willy Bennett, Jr., Margaret Boger, Anna Bailey, Billie Bond, Rosa Mary Crawford, Katherine Dodson, Mary Dodson, James Dodson, Adelle Housels, John Kelly Housels, Cornelia Johnson, Louise Johnson, Josephine Kilgough, Sarah King, Warren King, Newel King, Dorothy Fay Lisman, Mary Tom Lisman, Howard Lisman, Jr., Cy Long, Jr., Martha Long, Elizabeth Hicks, Virginia McCaleb, Frances Marchison, Frank Marchison, Jr., Dorothy Piper, Minerva Price Rhoads, Emory Rhoads, Mary Louise Rogers, Tom Summerour, Jr., Catherine Warren, Nora Warren, Helen Thompson and Roy Martin, Jr.

**YOU NEVER PAY MORE**  
Than is absolutely right for your papering and painting if you call  
**W. B. JAMESON**

Corner Bowie and Maiden streets

**QUALITY AND THE COURAGE TO BACK IT UP**  
True courage is neither blind nor spectacular; true courage is patient, careful, intelligent; it holds to an ideal and lives up to it in the face of danger and difficulty.  
We have never catered to our price cutting competitors for we have never carried anything in stock but high class merchandise; for our customers are all of the better class, therefore nothing but quality goods will do on our shelves.  
We pride ourselves on having more friends than any other institution of its kind in Vernon.  
Thirty-two years ago this business was founded in this city and we believe it is only reasonable to state that our present business is built on nothing else than the reliability of our goods and the fairness of our business policy.

**PARKER-DONGES**

## AS FINE AS SILK IS THIS ARMOR MESH BAG

Did you ever see a bag of Armor Mesh which is as fine and light as the finest silk? This Delafante Armor Mesh Bag, the newest addition to Millady's wardrobe, is of such fine texture that it weighs no more than a bag of finest silk.

## RED CROSS HINTS.

### Clean Homes.

Clean homes often insure health of the members of the family living therein, and too much attention cannot be paid by homemakers and housekeepers to keeping the home spotless, from the standpoint of health as well as personal comfort.

With the opening of summer every home should be thoroughly gone over, all dark corners, all depositories for unused articles should be looked into. Get rid of the superfluous. There is a real trait in human nature to hoard and closets, attics and store places often contain heaps of things that should have gone into the trash pile long ago. They are prolific breeding places for dust and dirt.

Here are a few simple suggestions for every housewife:

If there is a vacant lot adjoining your home see that it is clear of rubbish and that no high weeds are allowed to grow thereon.

Be sure that plenty of light and air is brought into dancy cellars.

Keep the windows clean and keep them open as much as possible. Fresh air and sunlight are allies of good health.

See that all rubbish is removed from your back yard, your cellar, or other store rooms.

Clean all carpets and draperies for the summer season.

Scrub the floors and all unvarnished woodwork, using plenty of soap and water.

Co-operate with your neighbors to remove neighborhood nuisances, such as stagnant pools, trash heaps and dumping grounds.

Keep the plumbing in good repair and have leaky roofs mended.

### NOTICE

I haul anything anywhere. I never want too much for my services.

## MAY SHIP BUTTER IN WARM WEATHER BY PARCEL POST

Thoroughly Practical If Proper Conditions Are Maintained—Cleanliness, Suitable Temperatures, Good Packages, and Plenty of Wrappings About the Butter Are Important.

Parcel post shipments of butter are likely to be subjected to conditions, especially during the summer, which may cause deterioration and injure the quality of the butter. It is highly desirable, say specialists of the United States Department of Agriculture, that every possible precaution be taken before shipment. Particularly is this true of farm-made butter, because conditions affecting its quality and condition usually can not be controlled as in creameries. Farm-made butter, however, should be marketed just as satisfactorily as creamery-made butter when it is properly made and prepared for shipment.

It is necessary to maintain proper conditions in the care of the milk and cream and the making of butter if a marketable product is to be produced. Too much importance, it is said, can not be given to maintaining cleanly conditions in the stable and in other places where the milk, cream, or butter are produced or kept, for they absorb odors and spoil very quickly. It is important, too, that these products be kept in a cool place. High temperatures should always be avoided, as they produce a soft, oily condition of the butter which is undesirable.

**Cleanliness Is Most Important**  
In manufacturing butter on the farm or in a factory the butter milk must be removed and washed out, and the proper amount of salt must be incorporated evenly. Frequently parcel post shipments of farm butter are unsatisfactory to customers because proper methods were not used in making it, and the quality and condition of the butter thereby injured before it was shipped. For the satisfaction of customers it is important that a uniform quality of butter be produced.

Methods used in preparing butter for parcel post shipping depend largely upon the local conditions and style of package used. To insure delivery in the best possible state, butter, after being packed or printed and placed in cartons, should be chilled or hardened thoroughly before it is shipped.

One of the most satisfactory ways of preparing butter for shipment is in regular 1-pound prints, the standard print measuring 2 1/2 by 2 1/2 by 4 5/8 inches. Every pound print should be neatly wrapped in regular butter parchment or paper. A second thickness of such paper has been found to add materially to the carrying possibility of the butter. Waxed paper may be used for the second wrapping. As a further protection to the print, it should be placed in heavy manilla paraffin cartons, which may be obtained from folding paper-box companies, either plain or printed as a

stock carton or with a special private brand.

**Packages That Protect Against Heat.**  
Corrugated fiber-board shipping containers of various sizes may be obtained for shipping 1-pound prints of butter. These boxes or containers practically insulate the butter and furnish much protection against heat. Further protection may be obtained by wrapping the container in stout wrapping paper. The whole should be tied securely with a strong cord. In tying the twine it should be drawn tightly around the package so as to insure its proper carriage. Not infrequently packages are broken open or otherwise damaged because they are insecurely tied. The corrugated containers are also useful for carrying shipments of butter put up in other styles.

Some persons ship butter by parcel post in improvised or homemade containers. Clean, discarded, corrugated paper board cartons are obtained from the grocer or other merchant at small cost or frequently without any cost at all. It is possible to cut a piece of paper board in slab shape and size that when it is folded it will form a satisfactory carton.

Butter shipped in an improvised container should be wrapped in parchment paper and several thicknesses of newspaper and then should be secured with string. The package should then be inclosed in a piece of corrugated paper board with the projections so folded as to form a container. The container should then be tied with twine, wrapped in heavy paper, and again secured with a strong cord.

If butter that is prepared for ship

ment in this manner is thoroughly chilled before being mailed, it should carry safely even in warm weather if it is not in transit more than 24 to 36 hours.

**Chill Thoroughly Before Mailing.**  
Experimental shipments made by the Bureau of Markets were satisfactory where the temperature and distance were not too great. Butter that had softened much in transit from the creamery to the bureau when later shipped to the experiment stations did not arrive in as good condition as that in which the grain had not been previously injured. In general the shipments from Washington were successful when forwarded as far north as Maine and as far west as Michigan and Indiana. Shipments into the South were successful for shorter distances.

The result of these experimental shipments indicates that well-made butter, thoroughly chilled before shipping, when packed in a suitable container, may be marketed satisfactorily by parcel post when extremely high temperatures are not encountered. Under ordinary conditions, where the butter does not melt and a firm or semifirm condition is maintained, the shipping of butter by parcel post generally may be satisfactory. Even though proper safeguards were taken, the shipments made during extremely hot weather frequently arrived in an oily and unsatisfactory condition.

## GREAT WAR WAS GOD'S PUNISHMENT DECLARES ORATOR

Nations Involved in Conflict Were But Atoning For Sins Committed, Hon. John Temple Graves Tells Audience—Appeals For Support of Church and Government.

There are many who would tell us to forget the War, said Hon. John Temple Graves in his address before the chautauque audience yesterday afternoon. They would have us go about our affairs as though the great calamity had never happened.

The cost in lives and treasure, however, prohibits this, said the orator, and we cannot but remember the millions of lives and the billions of dollars spent in the prosecution of the conflict. In view of this tremendous destruction we ask ourselves why God permitted such an occurrence. If He sees the fall of every sparrow, how could He witness the death of millions of His children and not raise His hand to stop proceedings.

Is A Jealous God. The Georgia speaker attributed as the two great principles of God—justice and mercy. We are ever ignoring one and depending upon the other, he said, and when the one principle is exhibited we clamor for the other. God is a jealous God and He will not permit the disobedience of His teachings. Therefore, said Mr. Graves, there must have been a punitive and corrective purpose in His permission of the World War. He must have intended that out of the tribulation there would be brought hope and gladness and freedom from sin.

What are the sins the nations have committed, the speaker asked? What have they done to bring on the vengeance of God? Mr. Graves considered separately each nation involved in the conflict and pointed out the sins that were sure to bring retribution. Selfishness, greed, Sabbath breaking and all modern transgressions were held up to the attention of the audience. All these nations were guilty, he said, and all were obliged to pay the penalty. In the face of all this evidence, he pointed out, there can be brought no argument against God's work.

Scores Capital And Labor. Capital and Labor were roundly scored by the Georgia orator. Capital he defined as big business and declar-

ed that it has made American Labor of today a menace. There was a time, said the speaker, when Labor was thoroughly American, but capital has brought anarchism and Bolshevism in to its midst to make it distrusted by the general public. Capital has built warehouses and stored the necessities of life in order to force people to pay exorbitant prices for the same.

On the other hand, Labor rebels against American laws, said Mr. Graves. It is indifferent to the welfare of the people and puts its own interests before all others. The few are making the many suffer. Mr. Graves criticized severely the statement of Samuel Gompers, that the "strike is justifiable because it is the only weapon the unions possess." He inquired whether or not murder would be justifiable under similar circumstances.

Need Strong Government. We need a strong government for a time of trouble, the Georgia orator declared. It must be a government that is right, that deals justice to all though the heavens fall. We need brief party platforms, and there can be no better principles than those expressed concisely in "Work or starve; save or suffer; play together or play hell; be an American or get out of the country."

The situation today Mr. Graves likened to Armageddon. We are fighting for the Lord, he said, and we cannot lose. The Church is one of the leading factors in the great fight and its potentiality is becoming more and more recognized.

Appeals For Support. The Old South orator appealed for support for the Red Cross, fraternal organizations, charities, and chautauques, giving as his reasons the fact that they represent the best things in American life.

There is peace now in God's heart, he said, and we must heed our way lest we stand again obstructed as before with a great war. Great good is coming again and there is much optimism due the future. The President of the United States is deserving of our hearty support, said Mr. Graves. Upon him rests the responsibility for much of the future happiness of American people; he is trying to lead the nations of the world in the paths of peace, and furthermore, he has shown himself to have at heart the interests of the Southland.

Money, Money, Money. We have an endless chain, of money to lend on farms, in Wilbarger, Ford Hardeman, and other Western Texas counties. Long time, and at rates, as low as can be had anywhere. 101-tfc T. P. LISMAN, & SON.

## WHEAT IS MOVING TO MARKET FAST

YIELD AND PRICE IS BETTER THAN MANY FARMERS HAD ANTICIPATED.

While one would exaggerate the facts to say that you can stand at the F. W. & D. C. depot and see a continual string of wagons loaded down with wheat—yet, the wagons are coming rapidly; fast enough, in fact, to load five cars yesterday. That quantity represents nearly six thousand bushels, or about eighty wagon loads.

Five carloads of wheat were likewise shipped from Harrold yesterday, according to Little & Company, local elevator men. Oklahoma is in the lead, with seven cars loaded Thursday.

The yield seems to run reasonably uniform in different parts of the country. That is, reports indicate an average of twelve to fourteen bushels to an acre. The highest yield reported is twenty-six bushels.

Hugh J. King of Oklahoma reports an average of a little more than fourteen bushels for his entire crop.

The price being paid is \$1.15 a bushel, which is better than many expected thirty days ago. Reports from Chicago indicate an advance of 1c to 2 1/2c at the close of yesterday's market.

### Notice To Taxpayers.

The Commissioners Court of Wilbarger County, Texas will convene at the Court House in Vernon, Texas, on Monday and Tuesday, June 27 and 28, 1921, as a Board of Equalization to equalize the taxes for the year 1921, and this is to notify you to appear before said Court on said dates to show cause, if any you have, why the valuation of your property should not be raised.

VERNA LUCKY, County Clerk, Wilbarger County, Tex. 44-tfc

Mrs. W. C. Cawood, who has been visiting her daughter, Mrs. R. D. L. Killough, for the last two weeks, left yesterday for Memphis, Tenn., to visit her son, S. T. Cawood. From there she will return to her home in Danville, Ill.

See the Trublpruf Tires at J. E. Lutz's office, corner Texas and Fannin streets. 63-tfc

Rev. S. W. Hayne returned today from Dallas, where he has been since Monday, attending lectures in the Summer School of Theology of Southern Methodist University.

## WANT TOURISTS SENT OVER COLORADO-TO-GULF HIGHWAY

A communication addressed to all Chambers of Commerce has come to the local body from the Panhandle section of the State requesting that tourists be not misinformed on the condition of roads between Childress and Amarillo. The letter states that some tourists out of Childress are being routed over the Dallas-Canadian-Denver route much to the disapproval of Amarillo. The latter city has threatened to retaliate by sending automobilists headed this way over the south plains route.

The Colorado-to-Gulf highway is said to be in good shape, and easily passable.

O—U Money. We have plenty to loan on improved farms. Davis & Sammeron. 57-tfc

WANTED—Clean cotton rags at The Record Office.

Dance At Elk Club Rooms. An informal dance was held Wednesday night in the Elk club rooms and was well attended. Music was furnished by an out-of-town orchestra. Guests danced from about 9:30 until 1 o'clock.

Mrs. Eunice Wilson and children and Mr. and Mrs. Robert Boyle returned this morning from a visit in Mineral Wells.

THE AMERICAN PRESS ASSOCIATION

Vernon, Texas, Friday, June 24, 1921.

### SEE TEXAS FIRST.

Fifty thousand Texas vacationists spend annually \$5,000,000 or more of Texas money at out-of-state resorts, according to figures of the Texas Chamber of Commerce publicity department, which propounds the following questions to such seekers of far away places of recreation:

Do you want salt water swimming and fishing?

Then remember that Texas has the third longest coast line of any state in the union; that it is indented with bays from the Rio Grande to the Sabine affording protected fishing grounds for the amateur sailor who would spend his days in a "cat rig" or motor boat. Further that it is one of the best fishing areas in North America and has unexcelled bathing beaches.

Want altitude?

Then Texas has a whole plateau which is factually as high and as beautiful as the Yellow Stone Park. The Chambers of Commerce of the Trans-Pecos region have started a movement for a state park in that section of the country, and have already made provisions to take care of tourists in the Davis mountains and surrounding country.

Want a high dry bracing atmosphere?

Texas has more of it than Colorado. Want to spend your days on a crystal clear stream with rod and line?

Then why go to Glenwood Springs while the beautiful Pedernales, Comal and other streams flow through Texas.

Want mineral waters?

Then Marlin and Mineral Wells are the equal of Carlsbad.

Want to camp on the shores of a lake within easy motoring distance of theaters and good hotels?

Then there are lakes at Wichita Falls, San Antonio, Fort Worth, Austin and a number of other cities of the state which offer unexcelled advantages for fishing, boating and swimming, while keeping the vacationist within motoring distance of a city's advantages.

Texas has everything for the pleasure seekers but these resources need advertising. A "See Texas First" sentiment, however, is being created throughout the state through commercial organizations and newspapers, and much saving of Texas money for Texas can be looked for.

### THE ZONE POSTAL RATE.

Representative Mondell has, or will, introduce into Congress a bill repealing the Zone Law. Only a few years ago such a proposal would have met with the hearty support of a great majority of folk living in the rural districts. It will always get the most active backing of magazine publishers, mail order houses, and others living in the cities who are anxious to bring into their coffers the checkbook of the multitude.

The Zone Law provides a graduated rate of postage for second class mail. There is a distinction, too, between the news and advertising sections of magazines, the charge for the latter

news sections.

There are two reasons for this. In the first place second class mail was being transported at a glaring loss. Efficiency in the Postoffice suggested that some plan be evolved for making those benefitted pay at least more nearly the cost of the service they got. In the second place, publications in New England and elsewhere in the United States that were being circulated for 50c and even 25c a year evidenced the fact that their advertising sections might well be taxed somewhat more than a penny a pound for transportation from Maine to Texas, or from New York to San Francisco.

Naturally these publications howled. A rich source of revenue was being cut off. What was, in effect, a government subsidy had been removed. And they took up the fight by suggesting to local publishers and others that the Zone Law was just another bit of red tape as a result of which nobody was benefitted.

Either there must be a zone law, or the second class rate must be materially increased. To the writer it seems fair that if a New York advertiser wants to get his wares before Vernon people he should pay enough for the advertising to cover the cost of getting it to Vernon. Surely Vernon people, and people all over the United States should not be taxed to pay for carrying his advertisement.

The Zone Law has helped the local newspaper, just as it has helped the local merchant. It has helped build the community by helping build local institutions, and has saved every man and woman in the community from a higher tax for their reading matter.

These are some of the reasons why The Record is for the Zone Law. If you are for it write your Congressman to that effect.

### A SPIRIT OF OPTIMISM.

"Panhandle Bankers predict prosperity on greater scale" is the heading of a communication from Lubbock, where the Panhandle bankers are in session. They base this statement on the bumper yield of wheat which is practically assured the Plains country.

The same word comes from Dallas, where the statement is based upon purchases by retail dealers over the state. Similar word comes, too from Kansas City, from Chicago, from New York City. Business seems to be picking up.

Money is becoming more plentiful. Of larger importance, however, than that the price being offered for wheat is higher than many anticipated, is the fact that debts are being paid, and that many of the farmers will have some money out of the present wheat crop which represents actual saving to them—saving for work they have done.

Willbarger county is unusually fortunate. Recent rains have damaged our crops perhaps less than has been the case in most counties, the yield is better than was expected, and—most important of all—a sentiment of optimism pervades the people; not blind optimism, but a determination to go forward and a faith that we can bring everything out right. Good cheer, hard work, and thorough co-operation will make all of us prosperous again.

### Thompson Community

Thompson, June 23.—(By special correspondence.)—Bill Crites of Granbury, Texas, is here visiting his brothers, Messrs. Arthur and O. P. Crites and family.

Miss Lucile Rainwater and her brother, Roscoe of Vernon are visiting relatives of this community.

Lucian Sellers of Tolbert visited his uncle, T. M. Dennis and family Sunday.

A fruit supper was given at the home of Mr. and Mrs. A. E. Gaston Saturday night.

Miss Gracie Cheatham of near Chillicothe has been visiting Miss Alverda and Leora Cheatham of this community.

Lewis Sherman is ill with Typhoid fever.

### Oklahoma Club To Meet

The Oklahoma Home Improvement Club will meet at 3 o'clock Tuesday afternoon at the home of Mrs. Logan Creager.

Mrs. Fred Hest and Mrs. Lawrence Smith of Fort Worth are in Vernon today.

See us for money on farms. Davis 27 1/2

## Foster's Weather Bulletin.

Washington, D. C., June 24, 1921.—Near June 25 the northern Rockies and all the northern parts of the continent west of meridian 90 will be covered by a great warm wave moving southward. When west of the great lakes near June 26 the center of this great wave of warm air will turn southeastward and, in a few days, will cover all the cotton States and southern Rockies east of the Mississippi. It will then turn northeastward and by June 29 will cover all the Atlantic States.

A radical weather change will fall in behind that great warm wave and nearly all kinds of Summer weather will march over the wide swath made by the previous warm wave. You should have a care about that storm; it looks ugly on my June weather chart, but I regret that I cannot tell you exactly the kind of a storm it will be nor the exact spot where it will strike hardest. I repeatedly told you that the greatest storms of the Summer would strike east of Rockies early in June. That set of storms was so great that three tornadoes resulted. One of these tornadoes was called a cloud burst which caused the immense loss of life and property near Pueblo. The latter was so great that little damage resulted to eastern sections. The coming storm will not be so great but it will be dangerous and somewhere along the wide path of the early June storms.

It is time for our race to war no more and devote the time and money to the war god in studying Nature's laws; then we could save all these millions of lives now destroyed by the elements, because then we could give positive advice when and where to run to shelter. Watch for those dangerous storms during the week centering on June 28.

Next storm period will occur during week centering on July 5. It is not expected to be so severe as the two great storm periods in June but you should not get careless about it. The storms destroy more lives and property than war; principally because people do not hide from the storms behind breastworks. The warm wave of this July storm will cross meridian 90, west of the great lakes, and its general path eastward will pass near or a little south of the great lakes not far from July 5. I expect the most dangerous storms near that date and along that path.

Just now the markets are in a chaotic condition, particularly for grain and cotton. The grain markets are almost wiped out. But do not be discouraged; there is a rift in the clouds and this probably is the darkest hour just before the dawn. A great battle is on between the Chicago board of trade and the farmers. As I see it this is the beginning of the end. Agriculture has sent forth the tones of its liberty bell. Foreseeing this I advised those who could not hold a month or more to sell their grain and cotton. Now I advise all who can to wait on the markets and put their time in on their crops. Everything comes to those who work and wait. Dealers who are friends of my work are advised to go slow or wait till they hear from me. The depression storm is nearly over.

June 25 a hurricane will organize near west coast of Africa; will reach Gulf of Mexico about July 1. Particulars in next Bulletin.

For auto, truck and tractor repairing of all kinds see Jimmie Henderson at Creath and Kerr's Automobile Sales and Service, 408 N. Main Street. 47-2c Fri.

## Sanitation

Sanitation during the hot months is one of the greatest problems that confronts the merchant who handles food.

We have endeavored to make our shop as perfectly protected as possible.

The shop is absolutely screened in and all of our food is under a fly-proof cover.

## HILL CREST CLUB TO BE FORMALLY OPENED JULY 1

Preparations Are Under Way For Reception In Afternoon and Dance In Evening—Members Will Invite Many Outsiders—Attractive Program Arranged By Committee.

Friday, July 1, will mark the formal dedication of Hill Crest Country Club and preparations are under way for a reception beginning at 4 o'clock in the afternoon, and a dance in the evening. Members have been granted the privilege of inviting numbers of their friends to both occasions and a large number of guests are expected.

In the afternoon a program of entertainment will be observed. Most of this will be musical in character. Mrs. John Brown and Mrs. W. N. Stokes will offer a violin and piano duet; Mrs. E. C. Christian will render a vocal solo; Mrs. C. J. Farrell will give a reading; Mrs. Wallace Huggins will render a piano solo; Miss Geraldine Parker will give a reading; Miss Enid McCarroll will play a piano solo, Edwin Lasman will sing a solo; and there will be a song by Miss Mildred Young.

### Will Decorate House.

The house will be profusely decorated in flowers. The house party will be made up of Mesdames W. O. Anderson, L. G. Hawkins, B. O. Brown, L. W. Campbell, J. E. Lutz, John Williams, and C. S. McColloch in the receiving line; Mesdames W. M. Schindler, Basil King, Tom King, and B. D. Flaniken will preside at the punch bowls, and Mrs. Joe Parker and Y. G. Babasin will direct the guests who enter the house.

A committee will be in each of the first floor rooms of the new club house for the purpose of directing guests and pointing out attractive features of the building. In the dining room will be Mesdames G. W. Backus, J. A. Dixon, and H. K. Greever; in the ladies' parlor Mesdames D. H. Henry, Wheeler Lundy, and Charles Ladd. In the kitchen will be Mesdames Homer Rogers, Wylie Bennett, and A. C. Rayzor.

### Dance In Evening.

In the evening an informal dance will be conducted in the new club house, and music will be furnished by a local orchestra. The affair will begin at 9 o'clock. Punch will be served there in attendance. The entertainment committee consisting of Mesdames Luther Webb, Lloyd Sigler, Hub Colley, and Arthur Vernon will be assisted in receiving in the evening by Mesdames E. P. Hicks, Della Housells, Myrti Napier, L. E. Piper, W. K. Long, Dan Bond, and J. E. Dodson, Jr.

The new Hill Crest club house is considered one of the finest in this section of the State. Its location is especially favorable due to the natural setting provided at Condon Springs for a country club. The house is as yet unfurnished, although a beautiful Baldwin grand piano and Columbia talking machine are in possession of the club.

### BLAIR HONORED AT MEETING

Local Tax Collector Put On Legislative Committee At Fort Worth Convention.

C. M. Blair, county tax collector, was made a member of the legislative committee during the State convention of tax collectors held at Fort Worth last week. This body is composed of five men and only two, including Mr. Blair are from west Texas. Ben Golden of Amarillo is the other representative from this section of the State.

The honor coming to Mr. Blair is a signal one inasmuch as the legislative committee is entrusted with the formation of important regulations and measures forming the policy of State tax collectors. One of the most significant duties of the committee deals with highway legislation.

Mr. and Mrs. C. M. Blair returned Sunday from their trip to Fort Worth. While in the city they visited Mr. Blair's mother.

### Fourth of July Celebration.

Independence Day, the greatest day in American History, will be celebrated at Condon Springs as usual. The Declaration of Independence will be read publicly. Ball that evening and night and swimming and diving contests. 46-4tp JAMES CONDON, Manager.

Mrs. A. B. Swartwood and Mrs. Hub Colley and son motored to Cleburne Wednesday.

John Storey returned Monday from a visit with the parents in Dallas.

Money on improved farms. Davis & Associates.

Never trouble trouble till trouble troubles you. Then go to Zuts & Schmoker's and get a set of Troubleproof tires for your car, then your tire troubles will be over. 77-ttc

## JULIA GERAGHTY TO WED AGAIN.

Mrs. Julia French Geraghty.

Mrs. Julia Estelle French Geraghty, daughter of the Amos Tuck Frenches, of New York, and heiress to the French millions, who divorced her former chauffeur, "Handsome Jack" Geraghty, in 1919, is to be married again. Mrs. Geraghty made the announcement herself at Newport, R. I. Her second husband, she said, is to be Howard Williams, Boston insurance man.

### White City.

White City, June 20.—(By special correspondence.)—Crops are very good in this community, but several weeks of dry weather are needed so they may be cultivated. Some of the farmers have fine cotton and have it chopped and plowed, while others neglected the planting until after the rains, which will cause much late cotton. Corn is good. Wheat and oats are being harvested rapidly. Some is very poor, as the extended drought of a few weeks ago hurt the grain crop considerably. Almost every family is enjoying the benefit of good gardens. There are plenty of beans, potatoes, onions, beets, and cabbages while peas and cucumbers will soon be plentiful.

Many are canning peaches and plums this week. The fruit crop was shortened by the early freezes, but there are several orchards in this vicinity that are yielding well.

The White City Sunday School is progressing well. Everybody is invited to attend each Sunday morning at 10:30 o'clock. There is preaching every second and fourth Sundays at

eleven o'clock by pastor W. W. Adams. A large crowd enjoyed singing at the home of Rev. and Mrs. W. W. Adams Sunday night.

J. P. Starr is recovering from an extended illness.

A boy was born to Mr. and Mrs. R. L. Sellers, Sunday night, June 19.

Mrs. Clifton Starr has been very sick the past few days, but is improving today.

Luther Gaunt of the Tolbert community visited his parents, Mr. and Mrs. J. B. Gaunt at White City Sunday.

Mesdames W. W. Adams, J. H. Adams, Carrie Adams, Mrs. Luther Anderson and Miss Una Mae Adams visited Mrs. R. L. Olive and daughter, Murriel of Hank Hill Wednesday afternoon.

Little Glenn Knapp is improving slowly after being seriously ill for some time.

Seymour Dunson received some painful bruises while playing ball at Quamah Saturday, when he collided with another player. He was pitching for Chillicothe in a game played with Quamah.

Mr. and Mrs. Lee Coffey, and Mr.

and Mrs. Carrie Adams visited Mrs. M. A. Coffey Saturday night.

Tom Braum is at home again after being away for several months.

Miss Ottilie Gaunt visited Miss Cora Lee Patterson Sunday afternoon.

Mr. and Mrs. Lee Armstrong and daughter, Ruth and Doris of Doans, visited Rev. and Mrs. W. W. Adams Saturday night and Sunday.

Mrs. W. W. Adams and daughter, Una Mae and Mrs. Brannon visited Mrs. R. L. Sellers Monday afternoon.

Mrs. S. E. Floyd and children and Mrs. Perry White and children went on a plum hunt this week.

### Wife Helps

#### Elect Hubby

"After having been in bed half the time for a year with severe pains in my right side over the appendix, stomach trouble and bloating, which the doctors seemed unable to reach with medicine, and advised operation as the only remedy, my nurse advised me to try Mayr's Wonderful Remedy, and its results have truly been wonderful as I am now entirely well and strong, and at the last election worked hard to elect my husband." It is a simple,

## Baptists Defeat Methodists.

The Baptists baseball team continued its undefeated record yesterday afternoon at the fairgrounds when it defeated the Methodist aggregation 6 to 1 in a well played game. Baptists outstayed and outscored their opponents, but the contest was nevertheless a pitchers' battle. Baptists led from the start and were never headed.

Following is the box score and summary:

Canal Zone, where Miss Lamphier is at present the guest of the famous Red, White and Blue swimming troupe.

## Fargo News

Fargo, June 23.—(By special correspondence.)—W. H. Olives is threshing this week.

Prof. R. S. Covey and wife of Harbald are visiting Mrs. Covey's parents, Mr. and Mrs. R. B. Richardson this week.

Miss Milla Lee Allen left last week for Denton to attend the C. I. A. She has been visiting her sister Mrs. R. L. May.

Miss Bonnie Deal of San Angelo is visiting friends here this week.

There will be preaching Saturday night and Sunday, June 25 and 26, at the Christian Church. Elder Wain of Dallas will preach. There will also be singing in the afternoon.

Mrs. A. F. Hutchinson is quite ill this week.

Cecil Greene spent the week-end with Tommy Smith of Vernon.

Misses Dorothy Heath, Melba Ruth Pickens and Elsie O'Neal are visiting Miss Etta Holt Brennan in Childress this week. They will visit in Childress as they return home.

Record classified ads bring results.

## THIS MAN DREADED TO SEE NIGHT COME

Was So Restless He Couldn't Sleep And Daylight Was Always Welcome.

"With the exception of a little milk toast which comprised my diet for more than eight weeks, I could not eat anything," said Capt. Geo. W. Womble, residing at 105 Jennings St., Knoxville, Tenn., a highly respected citizen of that city.

"I am now able," continued Captain Womble, "after taking two bottles of Tanlac, to eat practically anything. I had a bad form of stomach and intestinal trouble for a long time and for months my condition had been such that I suffered agony. I got so I could not eat the simplest food. I tried doctor after doctor and all kinds of medicine but nothing that was prescribed for me seemed to do me any good. I had a terrible pain in my breast just over my heart and for weeks and weeks I got no relief.

"I finally got so nervous that I actu-

ally dreaded to see night come as I could not sleep and was always too restless that I would rejoice to see daylight come. I was also constipated all of the time. In fact, life seemed a burden and I was so miserable that I was almost on the verge of despair. Several of my neighbors told me about Tanlac and advised me to try it.

"I am personally acquainted with Mr. Dan M. Chambliss, of the firm of Kuhlman & Chambliss, and when I told him of my condition and how I suffered he advised me to begin taking Tanlac without delay and that it had relieved hundreds of the best people in Knoxville. I have now taken two bottles of Tanlac and am giving you this testimonial in the hope that it may induce others to take it. Since taking this medicine I actually feel like I had been made all over again with the youth, energy and ambition of a sixteen year old boy."

Tanlac is sold in Vernon by Ferguson Drug Company, in Odell by R. J. Belcher, in Harbald by Wilson Drug Company and leading druggists everywhere. Adv. 11

## College President Coming.

An opportunity to hear exceptionally fine addresses will be brought to the people of Vernon next Sunday, when Dr. J. C. Hardy of Belton, President of Baylor Female College, will speak. We especially invite the young people from the communities round about Vernon to come and hear these inspirational addresses. As president of the Mississippi A. & M. College, and as President of Baylor Female College, Dr. Hardy has proved himself to be one of the greatest College men in the country. Let our friends from the country come and worship with us Sunday.

W. T. ROUSE.

L. G. Hawkins is in Dallas this week.

Mrs. Fred Hanna of Altus, Okla. is visiting her mother, Mrs. J. C. Sumner.

## Liberty Cafe

Vernon's Best EATING HOUSE

"Young man, what do you mean to be?"

Take time—consider. You are the designer; you must select the pattern for your future. A hasty start won't hasten success. Each time you change your mind and shift your occupation you must relearn and re-earn. Until you elect a definite course, you must accept guidance.

Every successful man's advice to-day is, "Save your Money." Heed it. Start today.

Saving makes men!

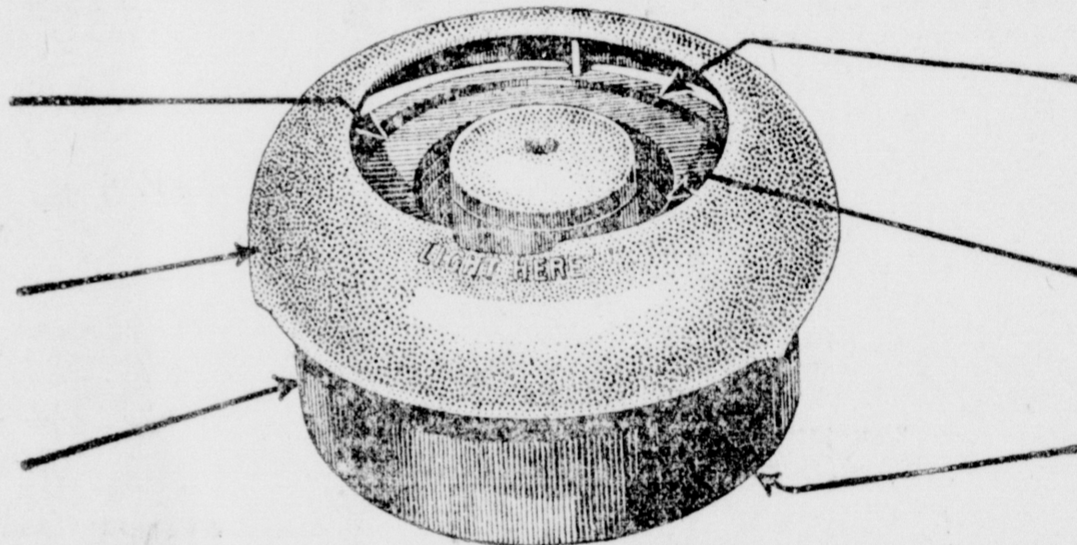

THE FARMERS STATE BANK VERNON TEXAS

Red Star Burners have no wicks or wick substitutes. Fuel is vaporized into gas, giving a clear, blue flame.

Heat condenser is an inverted cone-shaped casting which holds the heat and forces it to strike a nail squarely.

Burners are made from solid grey iron castings annealed to withstand heating and cooling; last a lifetime.

Double ring flame of intense heat directly under cooking. Burns all the fuel without smoke or smell.

Castings fit in place without fastening. Easily taken apart for cleaning. Seldom needs any attention.

Fuel flows directly into the double vaporizing rings and is mixed with air to give perfect blue flame.

## YOU NEVER SAW A BURNER LIKE THIS

Cooking efficiency on any oil stove depends upon the burner. Construction gives beauty and ruggedness and convenience. But the heat you can get and the way you can regulate it depends upon the burner.

Oil stove progress is expressed in its most convincing form in the Red Star Burner. This wonderful burner is the primary cause of Red Star Success. It is an achievement which has made the oil stove a national success.

Due to this burner, real heat is now a fact in an oil stove. No housewife need put up with a medium heat from her stove. No woman need deny her home the good things that require intense heat to cook. This burner requires no wicks. It uses no asbestos rings or wick substitutes of any kind.

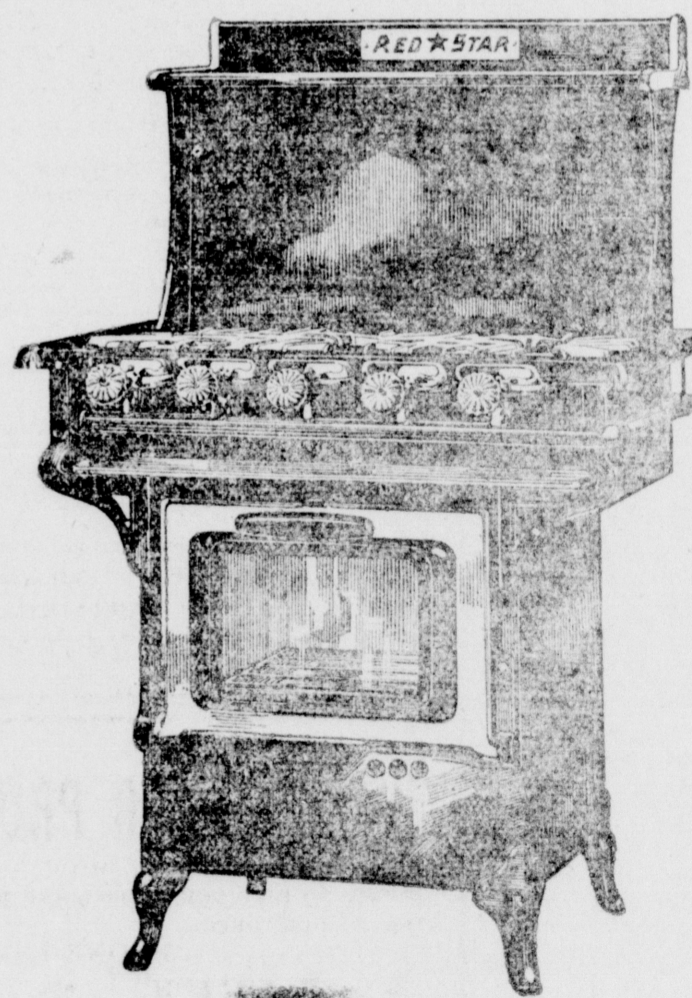

The Red Star Burner gives two rings of hot blue gas flame instead of the usual one. In addition, the burner becomes red hot and adds this steady heat to the double ring of flame.

A feature which pleases all women is the extreme durability of the Red Star Burner. It is made of grey annealed iron and weighs 8 1-2 pounds when assembled.

It is easily kept clean. This big strong burner lasts for years. There is nothing to replace—nothing to get out of order.

And besides producing such wonderful heat, it saves 25 per cent of your fuel.

Come in and see a complete demonstration of this wonderful burner in the Red Star Stove.

No. 581  
An Ordinance Regulating the Parking of Trucks, Wagons, Floats, Drays and Other Vehicles Used in the Business of Hauling and Transporting Freight for the Public for Hire as Common Carriers and Providing Adequate Penalties for the Violation Thereof.  
Be It Ordained by the City (Commission) of Vernon, Texas:

Sec. 1. It shall be unlawful for any person driving, using or operating any Truck, Wagon, Float, Dray or other vehicle within the City of Vernon engaged in the business of hauling or transporting freight for the public for hire to park same at any point on Main street between the North line of Marshall street and the South line of Maiden street, or at any point on Wilbarger street between the East line of Fannin street and the West line of Cumberland street, or at any point on Peace street between the East line of Fannin street and the West line of Cumberland street, or at any point on Texas street between the East line of Fannin street and the West line of Cumberland street; provided this ordinance shall not be construed so as to prohibit any such vehicle from being stopped or parked for a reasonable time while actually loading or unloading freight.

Sec. 2. Any person who shall violate any provision of the foregoing section shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not more than two hundred dollars.

Sec. 3. That this ordinance shall take effect from and after its approval and publication.  
Witness my hand and seal of said City, this 16th day of June, A. D. 1921.  
Attest: S. H. HALL, CLERK, HARRY MASON, Mayor

Good Printing Is the Dress of Business. That Is the Kind We Do.

Let Us Show You

MAKE CUSTARDS AND WHIPS  
WHEN EGGS ARE PLENTIFUL

Eggs Form Basis of Many Delicious Desserts—Simple Dishes of This Type Are Nutritious and Easily Digested—How to Make Several Kinds.

In early spring and summer, when eggs are plentiful and cheap, the thrifty among the housekeepers utilize plenty of them for desserts. When this is done, the rest of the meal does not need to be quite so "hearty."

The following recipes are recommended by food specialists of the United States Department of Agriculture:

## Soft Custard.

1 cup milk, 1-4 teaspoon vanilla, 1 egg, 2 tablespoons sugar, 1-16 teaspoon salt.

Heat the milk in a double boiler. Mix the eggs in a bowl with the sugar and salt. Add hot milk slowly, stirring, and return mixture to the double boiler. Cook until custard will coat a silver spoon. Strain and serve. If the custard curdles, set the pan into cold water and beat the custard until smooth.

## Steamed or Baked Custard.

1 pint milk, 2 eggs, 1-8 teaspoon nutmeg or cinnamon, 1-4 cup sugar, 1-8 teaspoon salt.

Mix eggs as for soft custard. Strain into custard cups and steam until firm over hot water, which is boiling gently. To bake, strain the custard into cups and place in a pan of warm water. Bake in a moderate oven until the custard is firm. To test a steamed or baked custard, slip a knife blade to the bottom of the cup in the center of the custard and draw out without turning. If the knife is not coated the custard has cooked enough. Grate the nutmeg over the surface and cool before serving.

## Floating Island.

1 quart milk, 1-4 teaspoon salt, 1-2 cup sugar, 5 eggs (yolks), 1-4 teaspoon vanilla.

Prepare as a soft custard. The whites should be beaten light and 2 tablespoons powdered sugar added for the meringue. When the custard is cool it may be poured into sauce dishes and the meringue dropped in large spoonfuls into it.

## Custard Pudding.

1-2 cup pearl tapioca or rice, 2 eggs (yolks), 1-2 teaspoon vanilla, 1-2 cup sugar, 2 cups milk, 2 eggs (whites), 1-8 teaspoon salt.

Soak the tapioca in enough cold wa-

ter to cover it until it absorbs the water. Add the milk and cook in a double boiler until the tapioca is soft and transparent. Combine the yolks of eggs with sugar and salt and add to the mixture in the double boiler. Cook until it thickens. Add stiffly beaten whites and flavoring, and when cold serve. Rice must be cooked in boiling water until soft.

## Apple Whip.

2 cups apple sauce, 3 eggs (whites), Cream for serving.

Cook 6 or 8 medium-sized tart apples until soft in just enough water to keep them from burning. Add sirup to sweeten sufficiently and one-eighth teaspoon grated nutmeg. Cool. Press the apple sauce through a strainer and add to it the stiffly beaten whites of eggs. Beat until light and foamy. Pile onto saucers and serve with fresh cream or a custard sauce made of the egg yolks. This sauce may be prepared by the same method as for soft custard, omitting the whites of eggs. Canned fruit, such as peaches, figs, cherries, or guava may be substituted in the same proportion for the apples.

## THESE ARE FIGHTING TIMES

There was a time when business came without courting—now it means a fight, and a good stiff one, to bring home the bacon.

And how many are really fighting—how many are using all legitimate weapons to get what business there is and to be in position to reap the harvest when it comes, as it surely must and will?

## ARE YOU ONE OF THE FIGHTERS?

Are you really satisfied with the effort you are putting forth to get more business and to hold what you have?

One time Sapolio was the most widely used cleaning compound offered and sold on the America market. Today—try to buy a package.

Sunny Jim used to be a familiar personage in every day life. Ever hear of him now?

And there are thousands of other examples where manufacturers, jobbers, and retailers thought they needed no further publicity for they were so well known. They became satisfied. They stopped progressing and started slipping.

## ARE YOU ONE WHO IS SLIPPING?

Some argue both ways. When business is good "what's the use of advertising?" When business is bad "what's the use of advertising?" And yet consistent and persistent advertising has made and held the big business of the world—and history keeps repeating itself.

## ARE YOU MAKING THE MOST OF THE PRESENT SITUATION?

Are you drawing in your horns and mistakenly waiting until times get better or are you "hitting the ball," fighting from every angle, making the most of the situation, making today pay a little more than today's cost? Are you really doing all that you can to make things better or are you encouraging the present conditions by falling into the same sleep that you condemn in others? Be honest with yourself—what's the matter with you?

## STIMULATE YOURSELF AND YOUR BUSINESS THRU ADVERTISING.

Take advantage of every possible way of making good with your customer and the many more who will be attracted to you when you come alive—while the other fellow keeps sleeping. Use every form of advertising that will hook you up with what business there is now and what the future holds in the way of increased business. Be ready and waiting for the change.

## USE NEWSPAPER ADVERTISING

There is no form of advertising offered any business man which returns as big results for the amount INVESTED as in newspaper advertising. It is not possible for you to reach so many, hold their attention at a time when they are in a mood for reading in their own homes, at anything like the low cost of newspaper advertising.

## USE DIRECT MAIL ADVERTISING

Fight for business with the same weapons that the successful mail order houses fight for it—and get it. Use direct advertising. Use it frequently and effectively. It costs more than newspaper advertising but it's good.

## USE ADVERTISING NOVELTIES

Please the child and you get the good will of the parent. The use of effective novelties bought locally, with the high commissions and traveling expenses of the peddler eliminated offers a fine opportunity of getting into the home and staying there with your message. The novelty may be in the form of some useful article for the mother, the father, or the kiddies, yet each will appreciate it and appreciate your giving it.

## ALL THESE ARE GOOD AND WE OFFER YOU ALL

The Record is equipped with the necessary firearms for you to do your business fighting—all cocked and primed to go. If its newspaper advertising we offer a medium of real conveyance. If its direct advertising our job presses and ideas of better printing are waiting for you to say the word. If its advertising novelties, calendars, blotters, or similar worthwhile articles we offer the largest showing ever brought to this part of Texas, minus the sting of the traveling expense and high commissions of the peddler.

## USE US FREELY—USE US OFTEN

We are ready to serve you with ideas and with the goods. Let's go. Let us help you wake up—and together we will awaken the other fellow—or at least be ready for him when he does awaken.

Call 171 for "Consultation."

Prayer meeting Wednesday at 8 p. m.

## Christian Science.

Services are held every Sunday morning at 11 o'clock in the City Hall auditorium.

## HAS BUMPER CABBAGE YIELD.

Mrs. R. D. Hurt Sells \$30 Worth From Twelve Short Rows And Supply Continues.

"You can't grow cabbage in Wilbarger county" was the warning given Mrs. R. D. Hurt, when she and her husband moved here from North Texas about three years ago. Mr. Hurt paid \$250 an acre for his farm 2 miles west of Vernon.

But Mrs. Hurt was not discouraged. She believed cabbage would grow, and her experience has proven true her theory. "It just takes careful preparation of the soil and the right sort of cultivation," Mrs. Hurt says. "In fact, I have never found anything old Wilbarger wouldn't grow," Mr. Hurt added.

This year Mrs. Hurt has twelve rows of cabbage about 30 feet long. From this patch she has sold \$30 worth of cabbage and in addition thereto has put up a liberal supply of kraut and chow chow for winter use. Mrs. Hurt's supply of cabbage seems little diminished. Yesterday she brought two immense heads to The Record—as fine specimens as the editor has ever seen.

Mr. and Mrs. Hurt practice the policy of living at home. They grow their own vegetables, chickens, pork, milk, butter and fruit.

## Golf Finals This Afternoon.

Finals in the Hill Crest Country Club golf tournament were scheduled to be played off this afternoon when Jed Morrow meets Hub Colley in an eighteen hole match. Colley enters the finals by virtue of the default of E. C. Christian who was unable to meet him in the semi-final round because of pressing business. The winner of the match this afternoon will receive the L. K. Johnson trophy, a golf club.

## Bear Performs On Court House Lawn.

A black cub bear used as an advertisement for a picture Thursday at the Pictorium amused countless spectators on the court house lawn yesterday. Bruin wrestled with the boys in the crowd, climbed trees, and in other ways performed antics that kept those present cheering and laughing most of the time.

Dr. J. G. Sherman  
DENTIST

Office 200 Waggoner National Building  
Phone 100

## SOCIETY BEAUTY FILES SUIT FOR DIVORCE.

Mrs. Angier Buchanan Duke, beautiful young society matron, of New York and Philadelphia, has filed suit for divorce against her millionaire husband, asking \$100,000 a year alimony. Although the action was not entirely unexpected, society was shocked. The charges made by the young society woman are kept secret. Mr. Duke is the son of Benjamin N. Duke, "American tobacco king." Mrs. Duke is the vivacious daughter of Major Anthony Drexel Biddle, millionaire sportsman and society man. The couple were married in 1915 and have two sons. It is reported that Mr. Duke will not contest the action and will not dispute the young mother's custody of the boys.

## HINDS WOMEN ORGANIZE HOME DEMONSTRATION CLUB

The ladies of Hinds spent a delightful afternoon at the home of Mrs. O. H. Muller, June 14, as guest of the girls' demonstration club.

With Miss Eula Goodfellow acting as chairman, a woman's club was organized, called the Home Bureau of Hinds. They will meet the second Tuesday in each month at 2:30 o'clock. The officers are: Mrs. A. D. Anderson, president; Mrs. Claud Muller, vice-president; Mrs. J. R. Caldwell, secretary-treasurer. The girls' club served delicious fruit salad and cake of their own making.

Both clubs will meet with Mrs. Anderson July 12, for a demonstration of jelly making, after which they will enjoy the sport of bathing and swimming in the Anderson lake.

## FARMER EAST OF TOWN HAS BLOOM OF COTTON

H. B. Cox, living on the W. S. Landy place five miles east of town, has produced the first cotton bloom that has come to the attention of The Record office this season. The blossom is well developed and indicates that the cotton will be of an excellent grade.

Mr. Cox has thirty-five acres in cotton, and last year had fifty. It is planted in sandy soil. Two years ago the Wilbarger county farmer received the premium offered by local merchants for the first bale of cotton.

## Want Harvest Hands.

White Beer, Texas is clamoring for harvest hands, according to a communication received by the local Chamber of Commerce. White Beer is in Carson county, north of Claude.

POWER FARMING DEMONSTRATION

MONDAY, JUNE 27, from 10 A. M. to 4 P. M., at FAIR GROUNDS in field in front of grand stand.

We are going to show you how much the FORDSON will plow, how well it will plow, what the fuel consumption per acre will be—how well it handles every kind of belt work. We will also demonstrate with a DOUBLE ACTION HARROW and CULTI-PACKER.

Instead of talking about the FORDSON we prefer to let you see with your own eyes just what the Fordson can do.

Come spend a few hours with us and learn more about the FORDSON.

FREE LUNCH ON THE GROUNDS

Napier Bros. Motor Co.
